Law, Justice, Democracy, and the Clash of Cultures Michel Rosenfeld, 2011-09-26 The Cold War ideological battle with universal aspirations has given way to a clash of cultures as the world concurrently moves toward globalization of economies and communications and balkanization through a clash of ethnic and cultural identities Traditional liberal theory has confronted daunting challenges in coping with these changes and with recent developments such as the spread of postmodern thought religious fundamentalism and global terrorism This book argues that a political and legal philosophy based on pluralism is best suited to confront the problems of the twenty first century Pointing out that monist theories such as liberalism have become inadequate and that relativism is dangerous the book makes the case for pluralism from the standpoint of both theory and its applications The book engages with thinkers such as Spinoza Kant Hegel Rawls Berlin Dworkin Habermas and Derrida and with several subjects that are at the center of current controversies

Olsen, 2012-07-30 Phenomenal A must read for us who desire to topple the dictatorship of relativism and culture of death and replace it with the only alternative The Imaginative Conservative Especially concerned with the public nature of religion historian Glenn W Olsen author of *Christian Marriage A Historical Study* and *On the Road to Emmaus* The Catholic Dialogue with American and Modernity sets forth an exhaustively researched and persuasive account of how religion has been reshaped in the modern period The Turn to Transcendence traces both the loss of transcendence and attempts to recover it while making its own proposals Neither reactionary nor modernist it questions how under conditions of modern life some form of the sacred and some form of the secular might both flourish at the same time But it also provides a warning that a religion unable to maintain itself with its own overt architecture language and calendars against an enveloping secular culture is destined for oblivion Glenn Olsen's book could hardly be more pivotal or insightful Confronting the growing amnesia regarding culture's religious origin and transcendent purpose Olsen proves both a masterful cartographer of modernity and a visionary of a culture that encourages and enables us to seek beyond ourselves Carl A Anderson Supreme Knight of the Knights of Columbus A brilliant book It rests on an amazing amount of scholarship that is wide ranging in history literature art science music theology and philosophy James Hitchcock professor of history St Louis University **Piety and Humanity** Douglas Kries, 1997 The nature of the relationship between early modern political philosophy and revealed religion has been much debated The contributors to *Piety and Humanity* argue that this relationship is one of dissonance rather than concord They claim that the early modern political philosophers found revealed religion especially Christianity to be a threat to the modern political project and that these philosophers therefore attempted to transform revealed religion so that it would be less of a threat and possibly even an aid Each essay is devoted to a particular work by a single political philosopher the thinkers and works discussed include Machiavelli's *Exhortation to Penitence* Francis Bacon's *New Atlantis* Spinoza's *Theologico Political Treatise* and Locke's *Reasonableness of Christianity* Each essay is followed by a brief selected bibliography This book will be of great importance to philosophers political theorists and scholars of religion and early modern European history Handbook on Global Constitutionalism Anthony F. Lang, Antje Wiener, 2023-11-03 This thoroughly revised Handbook presents an up to date political and philosophical history of global constitutionalism By exploring the constitutional like qualities of international affairs it provides key insight into the evolving world order **The Parable of the Tribes** Andrew Bard

Schmookler,1994-12-23 Imagine a group of tribes living within reach of one another If all choose the way of peace then all may live in peace But what if all but one choose peace From this basic premise Andrew Bard Schmookler has built a towering work of intellectual and spiritual insight a book that will shatter many preconceived notions about how civilization has developed and why human history has been so filled with torment In this new edition Schmookler shows how with the end of the Cold War we now have an unprecedented opportunity to solve the problem of power that has plagued civilization The Parable of the Tribes is a new vision of the story of humankind It presents a radiant new synthesis of history evolutionary biology political theory and psychology

The Common Things Daniel McInerny,1999 Concerned with the trendy technocratic and at times sophisticated character of contemporary education at all levels both public and private the authors of this collection seek to reinvigorate a Thomistic approach to education appropriate to the problems of our day With its main inspiration taken from the work of Jacques Maritain especially his 1943 Education at the Crossroads the volume presents a trenchant critique of the privacies of contemporary education with its emphasis upon the conventional and useful At the same time the essays present the outlines of the proper alternative an education which helps students draw out from themselves the desire for truths which transcend the contingencies of culture and utility Such an education seeks to guide students to the common things available to all human beings The essays uphold an account of man s intellectual and affective capacities which understands these capacities as naturally ordered to truth The essays approach the task in different but complementary ways in critiques of contemporary theories of education in speculative accounts of knowledge and learning in applications of theory to specific institutional settings and in discussions of the political contexts governing modern education In this rich variety of ways the essays in The Common Things not only point the way back to the crossroads Maritain spoke of fifty years ago they go on to indicate something of the landscape along the road not taken by contemporary education ABOUT THE EDITOR Daniel McInerny is assistant professor of philosophy at the University of St Thomas Center for Thomistic Studies in Houston Texas THE CONTRIBUTORS In addition to the editor the contributors to the volume are Benedict M Ashley O P Romanus Cessario O P Charles Dechert Donald DeMarco Curtis L Hancock Gregory J Kerr Joseph W Koterski S J Robert Lauder Herbert I London Robert J McLaughlin Daniel McInerny John M Palms Jerome Meric Pessagno Ernest S Pierucci Alice Ramos Mario Ramos Reyes Walter Raubicheck Peter A Redpath Gregory M Reichberg James V Schall S J Francis Slade Michael W Strasser and Henk E S Woldring PRAISE FOR THE BOOK These essays are a considerable addition to Thomistic thought about education Review of Metaphysics

The Identity of the Constitutional Subject Michel Rosenfeld,2009-10-16 The last fifty years has seen a worldwide trend toward constitutional democracy But can constitutionalism become truly global Relying on historical examples of successfully implanted constitutional regimes ranging from the older experiences in the United States and France to the relatively recent ones in Germany Spain and South Africa Michel Rosenfeld sheds light on the range of conditions necessary for the emergence continuity and adaptability of a viable

constitutional identity citizenship nationalism multiculturalism and human rights being important elements The Identity of the Constitutional Subject is the first systematic analysis of the concept drawing on philosophy psychoanalysis political theory and law from a comparative perspective to explore the relationship between the ideal of constitutionalism and the need to construct a common constitutional identity that is distinct from national cultural ethnic or religious identity The Identity of the Constitutional Subject will be of interest to students and scholars in law legal and political philosophy political science multicultural studies international relations and US politics *Toward an Anabaptist Political Theology* A. James Reimer, 2014-10-13 A James Reimer's 1942 2010 theopolitical project intended to be a fully theologically conceptualized political theology offers a constructive and creative contribution to this burgeoning field of theological inquiry Reimer's thesis for this theologically derived politics focuses on the necessity to take seriously the biblical Trinitarian foundations for all Christian social ethics but also on the importance of astute and faithful engagement by Christians in public institutional life including the political realm While Reimer understood himself to be working as an Anabaptist and hoped to invite that tradition to embrace a more positive view of civil institutions than has historically been the case he was not limited by that tradition or beholden to take only its sources into account Ever alert to the problems inherent in every kind of reductionism and especially so in cases where theology is reduced to either ethics or politics Reimer's political theology pursues the investigation of theological realities that are to serve as the engine the generative force of a political theology that seeks to articulate both a critical and a positive constructive approach to public political life and institutions Liberalism And The 'Politics Of Difference' Andrea Baumeister, 2019-06-01 No detailed description available for Liberalism And The Politics Of Difference **Philosophy and the Abrahamic Religions** Rahim Acar, Bilal Bas, Torrance Kirby, 2013-01-15 From Greco Roman Antiquity through to the European Enlightenment philosophy and religious thought were inseparably interwoven This was equally the case for the popular natural or pagan religions of the ancient world as it was for the three pre eminent religions of the book namely Judaism Christianity and Islam The lengthy and involved encounter of the Greek philosophical tradition and especially of the Platonic Aristotelian and Neoplatonic strands of that tradition initially with the Hellenistic cults and subsequently with the three Abrahamic religions played a critical role in shaping the basic contours of Western intellectual history from Plato to Philo of Alexandria Plotinus Porphyry Augustine and Proclus from Aristotle to al Farabi Avicenna al Azhar Aquinas and the medieval scholastics and eventually to Meister Eckhart and Nicholas Cusanus and such modern philosophers and theologians as Richard Hooker the Cambridge Platonists Jacob Boehme and G W F Hegel to name but a few The aim of the twenty four essays comprising this volume is to explore the intellectual worlds of the three Abrahamic religious traditions their respective approaches to scriptural hermeneutics and their interaction over many centuries on the common ground of the inheritance of classical Greek philosophy The shared goal of the contributors is to demonstrate the extent to which the three Abrahamic religions have created similar shared patterns of thought in dealing

with crucial religious concepts such as the divine creation providence laws both natural and revealed such problems as the origin of evil and the possibility of salvation as well as defining hermeneutics that is to say the manner of interpreting their sacred writings *Reason and the Rule of Faith* Thompson, Christopher J. Thompson, Steven A. Long, 2011 *Essays in Critical Theology* Gregory Baum, 1994 To find out more about Rowman Littlefield titles please visit us at www.rowmanlittlefield.com *Reason and the Rule of Faith* Christopher J. Thompson, Steven A. Long, 2010-11-04 Inspired by the Catholic intellectual tradition these essays are the fruit of a series of seminars sponsored by the Center for Catholic Studies and the Saint Paul Seminary School of Divinity at the University of St Thomas in Saint Paul Minnesota With a special focus on the works of John Paul II especially *Veritatis Splendor* and *Fides et Ratio* the authors bring to light a host of considerations that set the work of his pontificate within the illuminating light of the living intellectual tradition **Understanding German Idealism** Will Dudley, 2014-12-05 Understanding German Idealism provides an accessible introduction to the philosophical movement that emerged in 1781 with the publication of Kant's monumental *Critique of Pure Reason* and ended fifty years later with Hegel's death The thinkers of this period and the themes they developed revolutionized almost every area of philosophy and had an impact that continues to be felt across the humanities and social sciences today Notoriously complex the central texts of German Idealism have confounded the most capable and patient interpreters for more than 200 years Understanding German Idealism aims to convey the significance of this philosophical movement while avoiding its obscurity Readers are given a clear understanding of the problems that motivated Kant Fichte Schelling and Hegel and the solutions that they proposed Dudley outlines the main ideas of transcendental idealism and explores how the later German Idealists attempted to carry out the Kantian project more rigorously than Kant himself striving to develop a fully self critical and rational philosophy in order to determine the meaning and sustain the possibility of a free and rational modern life The book examines some of the most important early criticisms of German Idealism and the philosophical alternatives to which they led including romanticism Marxism existentialism and naturalism *Hearts of the City* Herbert Muschamp, 2013-12-11 From the late Herbert Muschamp the former architecture critic of The New York Times and one of the most outspoken and influential voices in architectural criticism a collection of his best work The pieces here from The New Republic Artforum and The New York Times reveal how Muschamp's views were both ahead of their time and timeless He often wrote about how the right architecture could be inspiring and uplifting and he uniquely drew on film literature and popular culture to write pieces that were passionate and often personal changing the landscape of architectural criticism in the process These columns made architecture a subject accessible to everyone at a moment when because of the heated debate between modernists and postmodernists architecture had become part of a larger public dialogue One of the most courageous and engaged voices in his field he devoted many columns at the Times to the lack of serious new architecture in this country and particularly in New York and spoke out against the agenda of developers He departed from the usual dry didactic style of much

architectural writing to playfully for example compare Frank Gehry's Guggenheim Bilbao to the body of Marilyn Monroe or to wax poetic about a new design for Manhattan's manhole covers. One sees in this collection that Muschamp championed early on the work of Frank Gehry, Rem Koolhaas, Zaha Hadid, Thom Payne, Frank Israel, Jean Nouvel and Santiago Calatrava among others and was drawn to the theoretical writings of such architects as Peter Eisenman. Published here for the first time is the uncut version of his brilliant and poignant essay about gay culture and Edward Durrell Stone's museum at 2 Columbus Circle. Fragments from the book he left unfinished whose title we took for this collection, *A Dozen Years*, *Metroscope* and *Atomic Secrets* are also included. *Hearts of the City* is dazzling writing from a humanistic thinker whose work changed forever the way we think about our cities and the buildings in them.

Slavery and the Culture of Taste Simon Gikandi, 2014-04-27. It would be easy to assume that in the eighteenth century slavery and the culture of taste, the world of politeness, manners and aesthetics, existed as separate and unequal domains unrelated in the spheres of social life. But to the contrary, *Slavery and the Culture of Taste* demonstrates that these two areas of modernity were surprisingly entwined. Ranging across Britain, the antebellum South and the West Indies and examining vast archives including portraits, period paintings, personal narratives and diaries, Simon Gikandi illustrates how the violence and ugliness of enslavement actually shaped theories of taste, notions of beauty and practices of high culture and how slavery's impurity informed and haunted the rarified customs of the time. Gikandi focuses on the ways that the enslavement of Africans and the profits derived from this exploitation enabled the moment of taste in European, mainly British, life, leading to a transformation of bourgeois ideas regarding freedom and selfhood. He explores how these connections played out in the immense fortunes made in the West Indies sugar colonies supporting the lavish lives of English barons and altering the ideals that defined middle class subjects. Discussing how the ownership of slaves turned the American planter class into a new aristocracy, Gikandi engages with the slaves' own response to the strange interplay of modern notions of freedom and the realities of bondage and he emphasizes the aesthetic and cultural processes developed by slaves to create spaces of freedom outside the regimen of enforced labor and truncated leisure. Through a close look at the eighteenth century's many remarkable documents and artworks, *Slavery and the Culture of Taste* sets forth the tensions and contradictions entangling a brutal practice and the distinctions of civility.
