**Modern France** James F. McMillan, 2003 The concluding volume in the Short Oxford History of France series captures the essence of the huge transformations that have taken place in France since the late 19th century A set of thematic chapters produces a re evaluation of modern French history *A History of Modern France* Jeremy D. Popkin, 2020-02-14 A History of Modern France offers a framework to understand modern French history through a survey of the dramatic events that have punctuated its history from the eighteenth century to the present day Covering events such as the French Revolution the two World Wars and the more recent election of Emmanuel Macron and the yellow vest movement the book takes a balanced approach to the competing interpretations of modern France inspired by its history This edition has been thoroughly updated to incorporate the most recent scholarship on topics including French imperial history and the empire s postcolonial legacy the history of women and gender and the French experience of World War I A new section extends the narrative into mid 2019 and additional emphasis has been given to the role of historical memory in the making of French identity Taking a chronological approach the book is approachable for students and provides a clear and understandable picture of the history of modern France Supported by further reading that has been updated to include the most recent publications the book is the ideal introduction to the history of modern France for students of this fascinating country

Reproductive Citizens Nimisha Barton, 2020-09-15 In the familiar tale of mass migration to France from 1880 onward we know very little about the hundreds of thousands of women who formed a critical part of those migration waves In *Reproductive Citizens* Nimisha Barton argues that their relative absence in the historical record hints at a larger and more problematic oversight the role of sex and gender in shaping the experiences of migrants to France before the Second World War Barton s compelling history of social citizenship demonstrates how through the routine application of social policies state and social actors worked separately toward a shared goal repopulating France with immigrant families Filled with voices gleaned from census reports municipal statistics naturalization dossiers court cases police files and social worker registers *Reproductive Citizens* shows how France welcomed foreign born men and women mobilizing naturalization family law social policy and welfare assistance to ensure they would procreate bearing French assimilated children Immigrants often embraced these policies because they too stood to gain from pensions family allowances unemployment benefits and French nationality By striking this bargain they were also guaranteed safety and stability on a tumultuous continent Barton concludes that in return for generous social provisions and refuge in dark times immigrants joined the French nation through marriage and reproduction breadwinning and child rearing in short through families and family making which made them more French than even formal citizenship status could **The History of Public Health and the Modern State**, 2020-06-22 Since George Rosen s comprehensive *History of Public Health* first published in 1956 there has been no internationally comparative survey of the subject Over the past three decades or so however research in this field has

expanded rapidly especially with regard to the history of disease and social order and public health politics and the state. Most of these studies have been highly scholarly and specialised and often dealing with only one aspect of public health in any one national context. The essays here examine the road history of public health in different national contexts in order to provide a work of comparative reference that could be used as a teaching aid. The book focuses on whether the construction of a public health system is an inherent characteristic of the managerial function of modern political systems. Thus each essay traces the steps leading to the growth of health government in various nations examining the specific conflicts and contradictions which each incurred. As a result the volume highlights the need for further comparative analysis of public health systems as a highly fruitful topic for future study.

*France Since 1945* Robert Gildea, 2005-06-06. Robert Gildea presents an ambitious and wide ranging but succinct history of France from 1945 to 2024 which seeks to provide a sympathetic understanding of the forces that have shaped a country that is so close to Britain and yet so different. This third edition following the second in 2002 and first in 1996 takes into account twenty more years of French history, history writing and changing historical approaches notably in colonial history and gender history. *France Since 1945* explores France's bid to restore political stability and international greatness after the Second World War which was marked by defeat and occupation and the loss of greatness and crisis of democracy that began in the 1990s. These chapters are interleaved by eight thematic chapters on the legacy of the Second World War and the Algerian War which arguably continues in France to this day on the economy and society, on French culture and on gender and sexuality.

A Concise History of France Roger Price, 2014-02-06. This is the most up to date and comprehensive study of French history available ranging from the early middle ages to the present. Amongst its central themes are the relationships between state and society, the impact of war, competition for power and the ways in which power has been used. Whilst taking full account of major figures such as Philip Augustus, Henri IV, Louis XIV, Napoleon and de Gaulle, it sets their activities within the broader context of changing economic and social structures and beliefs and offers rich insights into the lives of ordinary men and women. This third edition has been substantially revised and includes a new chapter on contemporary France, a society and political system in crisis as a result of globalisation, rising unemployment, a failing educational system, growing social and racial tensions, corruption, the rise of the extreme right and a widespread loss of confidence in political leaders.

**Encyclopedia of Lesbian and Gay Histories and Cultures** George Haggerty, Bonnie Zimmerman, 2003-09-02

Beginning in 1869 when the study of homosexuality can be said to have begun with the establishment of sexology, this Encyclopedia offers accounts of the most important international developments in an area that now occupies a critical place in many fields of academic endeavours. While gays and lesbians have shared many aspects of life, their histories and cultures developed in profoundly different ways. To reflect this crucial fact, the Encyclopedia has been prepared in two separate

volumes assuring that both histories receive full unbiased attention and that a broad range of human experience is covered Written by some of the most famous names in the field as well as new researchers this is intended as a reference for students and scholars in all areas of study as well as the general public Lesbian Histories and Cultures Bonnie Zimmerman,2000 To reflect this crucial fact The Encyclopedia of Lesbian and Gay Histories and Cultures has been prepared in two separate volumes to assure that both histories receive full unbiased attention and that a broad range of human experience is covered BOOK JACKET **Who's who** Henry Robert Addison,Charles Henry Oakes,William John Lawson,Douglas Brooke Wheelton Sladen,1905 An annual biographical dictionary with which is incorporated Men and women of the time **The Politics of Moderation in Modern European History** Ido de Haan,Matthijs Lok,2019-09-04 This book charts the varieties of political moderation in modern European history from the French Revolution to the present day It explores the attempts to find a middle way between ideological extremes from the nineteenth century Juste Milieu and balance of power via the Third Ways between capitalism and socialism to the current calls for moderation beyond populism and religious radicalism The essays in this volume are inspired by the widely recognized need for a more nuanced political discourse The contributors demonstrate how the history of modern politics offers a range of experiences and examples of the search for a middle way that can help us to navigate the tensions of the current political climate At the same time the volume offers a diagnosis of the problems and pitfalls of Third Ways of finding the middle between extremes and of the weaknesses of the moderate point of view

Yearbook of Transnational History Thomas Adam,2024-05-15 The Yearbook of Transnational History is dedicated to disseminating pioneering research in the field of transnational history This seventh volume brings together examples of four different world migration systems that of the Black Atlantic of early modern religious migrations exile in the nineteenth and twentieth centuries and twenty first century refugee systems thus encompassing more than six centuries from local regional transregional comparative and macro historical perspectives Notes on Books, Being a Quaterly Analysis of the Works Published by Messrs. Longmans and Co. ,1885 *Rough author-catalogue of the permanent stock of the circulating library* London Lond. inst,1882 The Transition to Capitalism in Modern France Xavier Lafrance,Stephen Miller,2023-11-03 Historians since the 1960s argue that the French economy performed as well as did any economy in Europe during the eighteenth and nineteenth centuries thanks to the opportunities for profit available on the market especially the large consumer market in Paris Whatever economic weaknesses existed did not stem from the social structure but from exogenous forces such as wars the lack of natural resources or slow demographic growth This book challenges the foregoing consensus by showing that the French economy performed poorly relative to its rivals because of noncapitalist social relations Specifically peasants and artisans controlled lands and workshops in autonomous communities and did not have to improve labor productivity to survive Merchants and manufacturers cornered markets instead of being subject to the market s competitive imperatives Thus distinctive features of capitalism primitive accumulation the dispossession of peasants and

artisans and the competitive obligation faced by merchants and manufacturers to reinvest profits in order to keep the profits did not prevail until the state imposed them in a process lasting for a century after the 1850s For this reason it was not until the 1960s that France caught up to and in some cases surpassed its economic rivals

**The Longman Companion to European Nationalism 1789-1920** Raymond Pearson, 2014-09-25 A highly topical analysis of European Nationalism from the French Revolution through to the aftermath of the First World War when the nationalist issues and problems that dominate the political landscape of our own time were already fully established Covering an enormous range of peoples from the Icelanders to the Gypsies from Brittany to Wallachia the book presents a wealth of historical geopolitical information unavailable elsewhere Essential as a reference work it also provides a unique opportunity to survey systematically a crucial but fragmented subject in its full European context For historians political scientists departments of European studies and general readers

**French Jewry and the Church-State Dilemma** Zvi Jonathan Kaplan, 2025-09-16 This book analyzes the development of Jewish positions on the relationship between Church and State from the Revolution until the Great War It is a comprehensive study of the complex interplay among different segments of the Jewish population and the community's attempt to come to terms with its social and religious status in the nineteenth and early twentieth centuries As this book demonstrates the organized French Jewish community strategically charted the political waters by steering clear of extremist political positions and by adopting a soft clerical approach to Church State issues This centrist approach subjected French Jews to criticism from both anticlerical and clerical forces but nonetheless the rabbinate consistorial officials and the Jewish press believed that French Judaism and French Jewry would thrive most in a

climate of moderation      **The Pyrenees in the Modern Era** Martyn Lyons, 2018-02-22 This original study examines different incarnations of the Pyrenees beginning with the assumptions of 18th century geologists who treated the mountains like a laboratory and romantic 19th century tourists and habitués of the spa resorts who went in search of the picturesque and the sublime The book analyses the individual visions of the heroic Pyrenees which in turn fascinated 19th century mountaineers and the racing cyclists of the early Tour de France Martyn Lyons also investigates the role of the Pyrenees during the Second World War as an escape route from Nazi occupied France when for thousands of refugees these dangerous borderlands became the mountains of liberty and considers the place of the Pyrenees in recent times right up to the present day Drawing on travel writing press reports and scientific texts in several languages The Pyrenees in the Modern Era explores both the French and Spanish sides of the Pyrenees to provide a nuanced historical understanding of the cultural construction of one of Europe's most prominent border regions This book will be of great interest to scholars and students of Europe's cultural history in a transnational context      Desiring Whiteness Caroline Séquin, 2024-10-15 Desiring Whiteness uncovers the intertwined histories of commercial sex and racial politics in France and the French Empire Since the French Revolution of 1789 the absence of laws banning interracial marriages has served to reinforce two myths about modern France first that it is a sexual democracy and second it is a color blind nation where all French citizens can freely marry whomever they wish regardless of their race Caroline Séquin challenges the narrative of French exceptionalism by revealing the role of prostitution regulation in policing intimate relationships across racial and colonial boundaries in the century following the abolition of slavery Desiring Whiteness traces the rise and fall of the French model of prostitution policing in the contact zones of port cities and garrison towns across France and in Dakar Senegal the main maritime entry point of French West Africa Séquin describes how the regulation of prostitution covertly policed racial relations and contributed to the making of white French identity in an imperial nation state that claimed to be race blind She also examines how sex industry workers exploited reinforced or transgressed the racial boundaries of colonial rule Brothels served as gatekeepers of whiteness in two arenas In colonial Senegal white only brothels helped deter French colonists from entering unions with African women and producing mixed race children thus consolidating white minority rule In the metropole brothels condoned interracial sex with white sex workers while dissuading colonial men from forming long term attachments with white French women Ultimately brothels followed a similar racial logic that contributed to upholding white supremacy
