Dorneywood Dan Ryan, 2012-05 Dorneywood is a continuation of the novel Enigma and it is a work of fiction The names characters places and incidents portrayed in this novel are the product of the author s imagination or have been used fictitiously The characters are placed in two time periods Part One is from December 7 1929 to December 7 1938 and is narrated by Sir John Atwell Sir John Atwell is the undercover personage for Admiral James Caldwell whose attempted

assassination at the end of Enigma left everyone hanging will he live will he die He lives and assumes the identity of a British nobleman He returns to his home at Springwell In the novel Springwell is based upon the purchase of Chartwell by Winston Churchill in 1921 Winston Churchill faced a similar situation in his life at this time in history Churchill entered the British army in 1893 fought at the battle of Khartoum with the Nile Expeditionary Forces in 1898 and was in the Boer War of 1899 He was elected to parliament for Oldham in 1900 was Under secretary of State for the Colonies in 1906 marries Clementine Hozier in 1908 and was Home Secretary in 1910 He served as First Lord of the Admiralty Minister of Munitions and Secretary for War and Air during WWI In 1921 he was voted out of office and the House of Commons In 1929 Churchill has returned as Chancellor of the Exchequer and offers the narrator of part one Sir John Atwell a similar position to what he held in Washington D C He is given an estate in southern England called Dorneywood and is asked to set up a farm setting like that of the NIA in Lancaster Virginia This new effort is called Dorneywood Institute Part two is called Infamie and the characters are placed in the second time period December 7 1938 to December 7 1940 The narrator of part two is Louis Caldwell son of Admiral James Caldwell The father suffers a stroke on December 7 1938 and Louis is asked to assume his father s position on a temporary basis until he can return to work The second part is the start of WWII in Europe and ends with the completion of the Battle of Britain The novel is a work of fiction Its location was inspired by my time spent in London during the spring semester of 1974 The Rotary Foundation Group Exchange district 114 in England invited a number of scholars from the United States to spend time in England living with various Rotarians of District 114 I was teaching at the University of Nebraska in Omaha at the time and I was chosen to represent District 565 of the United States It was during this time that I came to know the people of Reigate Redhill and Merstham just south of London This is where I met some of the characters for my novels and I visited Chartwell a number of times The Baroness Churchill lived in Chartwell with her husband until his death on January 24 1965 She willed the estate to the British Government upon her death but would accept visitors from the United States who were writing about her husband on certain occasions I had the opportunity to walk through the house and gardens with other Rotary members The written word cannot describe all that it meant to me to see the house as it existed in 1929 The historical events which are outlined in this book all took place The dates and locations are accurate but the characters are the products of my overactive imagination Some persons mentioned however are real You cannot write about this period of our history without making reference to elected officials

Magazines and Modern Identities Tim Satterthwaite, Andrew Thacker, 2023-09-21 In the late nineteenth and early twentieth century ideals of technological progress and mass consumerism shaped the print cultures of countries across the globe Magazines in Europe the USA Latin America and Asia inflected a shared internationalism and technological optimism But there were equally powerful countervailing influences of patriotic or insurgent nationalism and of traditionalism that promoted cultural differentiation In their editorials images and advertisements magazines embodied the tensions between these domestic

imperatives and the forces of global modernity *Magazines and Modern Identities* explores how these tensions played out in the magazine cultures of ten different countries describing how publications drew on resisted and informed the ideals and visual forms of global modernism Chapters take in the magazines of Australia Europe and North America as well as China The Soviet Turkic states and Mexico With contributions from leading international scholars the book considers the pioneering developments in European and North American periodicals in the modernist period whilst expanding the field of enquiry to take in the vibrant magazine cultures of east Asia and Latin America The construction of these magazines modern ideals was a complex dialectical process in dialogue with international modernism but equally responsive to their local cultures and the beliefs and expectations of their readers *Magazines and Modern Identities* captures the diversity of these ideals in periodicals that both embraced and criticised the globalised culture of the technological era

E - Learning Modules Dan Ryan, 2012-06-20 The term e Learning is a neologism for CSCL systems that came about during the emergence of website e learning modules From an e learning perspective conventional e learning systems were then based on instructional packets which were delivered to students using assignments Assignments were evaluated by the instructor In contrast the new e learning places increased emphasis on social learning and use of social software such as blogs wikis podcasts and virtual worlds such as Second Life This phenomenon has also been referred to as Long Tail Learning E learning by contrast to e learning systems not based on CSCL assumes that knowledge as meaning and understanding is socially constructed Learning takes place through conversations about content and grounded interaction about problems and actions Advocates of social learning claim that one of the best ways to learn something is to teach it to others However it should be noted that many early online courses such as those developed by Murray Turoff and Starr Roxanne Hiltz in the 1970s and 80s at the New Jersey Institute of Technology courses at the University of Guelph in Canada the British Open University and the online distance courses at the University of British Columbia where Web CT now incorporated into Blackboard Inc was first developed have always made heavy use of online discussion between students Also from the start practitioners such as Harasim in 1995 have put heavy emphasis on the use of learning networks for knowledge construction long before the term e learning let alone CSCL was even considered There is also an increased use of virtual classrooms online presentations delivered live as an online learning platform and classroom for a diverse set of education providers such as Minnesota State Colleges and Universities and Sachem MN School District In addition to virtual classroom environments social networks have become an important part of e learning Social networks have been used to foster online learning communities around subjects as diverse as test preparation and language education Mobile Assisted Language Learning MALL is a term used to describe using handheld computers or cell phones to assist in language learning Some feel however that schools have not caught up with the social networking trends Few traditional educators promote social networking unless they are communicating with their own colleagues DLR Associates consulting group first became interested in e learning modules at

the annual Distance Learning Conference held at the University of Maine I decided to offer e learning services since we were already evolved with computer assisted education techniques DLR Associates had been involved with CAE since computers were first used in engineering education It was our hope a trend could be started towards blended learning services where computer based activities were integrated with practical or classroom based situations Dan Ryan Professor Emeritus Clemson University Advancements in the Philosophy of Design Pieter E. Vermaas,Stéphane Vial,2018-03-02 This volume presents 25 essays on the philosophy of design With contributions originating from philosophy and design research and from product design to architecture it gives a rich spectrum of state of the art research and brings together studies on philosophical topics in which design plays a key role and design research to which philosophy contributes Coverage zooms in on specific and more well known design disciplines but also includes less studied disciplines such as graphic design interior architecture and exhibition design In addition contributors take up traditional philosophical issues such as epistemology politics phenomenology and philosophy of science Some essays cover philosophical issues that emerge in design for instance what design can do in addressing societal problems while other essays analyze main stream philosophical issues in which design is part of the argument as for instance abduction and aesthetics Readers will discover new research with insightful analyses of design research design thinking and the specificity of design Overall this comprehensive overview of an emerging topic in philosophy will be of great interest to researchers and students
