Modern Greek Lessons A Primer In Historical Constructivism:

Modern Greek Lessons James D. Faubion, 1995-10-30 Through a blend of lively detail and elegant narration James Faubion immerses us in the cosmopolitan intellectual life of Athens a centerless city of multiplicities and fragmentations a city on the margins of Europe recovering from the repressive rule of a military junta Drawing inspiration from Athens and its cultural elite Faubion explores the meaning of modernity finding it not in the singular character of Western civilization but instead in an increasingly diverse family of practices of reform

Genres of Recollection P. Papailias, Penelope Papailias, 2005-03-15 This book brings to life the social and textual worlds in which the representation of contemporary Greek historical experience has been passionately debated building on contemporary research in history and anthropology concerning the social production of the past

When Greeks think about Turks Dimitrios Theodossopoulos, 2013-09-13 Drawing upon anthropological studies that document culturally specific ways of perceiving ethnic Others in Greece and Cyprus this book explores the cultural boundaries of the categories Greek and Turk and compares views on what it means to be one of these ethnic groups or both The contributors examine the opinions of diverse social groups such as ordinary middle class citizens intellectuals army officers children villagers refugees from Asia Minor and Greek and Turkish Cypriots They also investigate the local attitudes to international politics and highlight the contextual as opposed to immutable and essentialist meaning of evaluations about nations such as Greece Turkey and Cyprus and their citizens

When Greeks think about Turks carefully unpacks the cultural meaning of popular metaphors stereotypes and versions of history as these are articulated in the context of discussions about the Turks in Greece It sets the template for understanding how local perceptions of resemblance and difference provide a conceptual framework for defining and negotiating ethnic identity at the local national and international level It sheds valuable light on the politics of identity making and the constitution of nationalism in Greece and Cyprus This book was previously published as a special issue of South European Society and Politics

Tradition in the Frame Konstantinos Kalantzis, 2019-08-09 An ethnographic study of a Greek island community's culture in the face of modern times Sfakians on the island of Crete are known for their distinctive dress and appearance fierce ruggedness and devotion to traditional ways Konstantinos Kalantzis explores how Sfakians live with the burdens and pleasures of maintaining these expectations of exoticism for themselves for their fellow Greeks and for tourists Sfakian performance of masculine tradition has become even more meaningful for Greeks looking to reimagine their nation's global standing in the wake of stringent financial regulation and for non Greek tourists yearning for rootedness and escape from the post industrial north Through fine grained ethnography that pays special attention to photography Tradition in the Frame explores the ambivalence of a society expected to conform to outsiders perception of the traditional even as it strives to enact its own vision of tradition From the bodily reenactment of historical photographs to the unpredictable emotionally charged uses of postcards and commercial labels the book unpacks the question of power and asymmetry but also uncovers other political

possibilities that are nested in visual culture and experiences of tradition and the past Kalantzis explores the crossroads of cultural performance and social imagination where the frame is both empowerment and subjection In this original beautifully written and often moving monograph Konstantinos Kalantzis has produced a lasting contribution to the anthropological study of contemporary Europe Drawing on extensive fieldwork Tradition in the Frame explores with exquisite detail a number of timely themes the social life of photographs conflicting tourist and local images of Crete the performance of gender stereotypes and the complex tension between tradition and modernity The author's ability to view the world through the eyes of natives and foreigners and to deconstruct visual signs and symbols is nothing short of stunning For anyone interested in Europe and the Mediterranean world today this richly documented and theoretically sophisticated volume is a must read

Stanley Brandes Tradition in the Frame is a richly innovative ethnography focusing on the visual dimensions of modern Cretan mythmaking and especially on the material reproduction and negotiation of time honored stereotypes of warrior masculinity Writing of a society that has largely shifted its economy from shepherding to tourism Kalantzis incisively demonstrates how the realities of commercial exploitation and socio political change re frame familiar images of a society at once proudly central to the symbolism of national identity and yet also still reluctant to accept the merest hint of intrusive authority Michael Herzfeld *Bulgaria and Europe* Stefanos Katsikas, 2010 Bulgaria and Europe Shifting Identities offers a comprehensive analysis of Bulgaria's relationship with the European continent focusing particularly on its accession to the EU and the aftermath

Resisting Postmodern Architecture Stylianos Giamarellos, 2022-01-10 Since its first appearance in 1981 critical regionalism has enjoyed a celebrated worldwide reception The 1990s increased its pertinence as an architectural theory that defends the cultural identity of a place resisting the homogenising onslaught of globalisation Today its main principles such as acknowledging the climate history materials culture and topography of a specific place are integrated in architects education across the globe But at the same time the richer cross cultural history of critical regionalism has been reduced to schematic juxtapositions of the global with the local Retrieving both the globalising branches and the overlooked cross cultural roots of critical regionalism Resisting Postmodern Architecture resituates critical regionalism within the wider framework of debates around postmodern architecture the diverse contexts from which it emerged and the cultural media complex that conditioned its reception In so doing it explores the intersection of three areas of growing historical and theoretical interest postmodernism critical regionalism and globalisation Based on more than 50 interviews and previously unpublished archival material from six countries the book transgresses existing barriers to integrate sources in other languages into anglophone architectural scholarship In so doing it shows how the periphery was not just a passive recipient but also an active generator of architectural theory and practice Stylianos Giamarellos challenges long held central notions of supposedly international discourses of the recent past and outlines critical regionalism as an unfinished project apposite for the 21st century on the fronts of architectural theory history and historiography

Hellenisms Katerina Zacharia, 2016-12-14 This volume casts a fresh look at the multifaceted expressions of diachronic Hellenisms. A distinguished group of historians, classicists, anthropologists, ethnographers, cultural studies and comparative literature scholars contribute essays exploring the variegated mantles of Greek ethnicity and the legacy of Greek culture for the ancient and modern Greeks in the homeland and the diaspora as well as for the ancient Romans and the modern Europeans. Given the scarcity of books on diachronic Hellenism in the English speaking world, the publication of this volume represents nothing less than a breakthrough. The book provides a valuable forum to reflect on Hellenism and is certain to generate further academic interest in the topic. The specific contribution of this volume lies in the fact that it problematizes the fluidity of Hellenism and offers a much needed public dialogue between disparate viewpoints in the process, making a case for the existence and viability of such a polyphony. The chapters in this volume offer a reorientation of the study of Hellenism away from a binary perception to approaches giving priority to fluidity, hybridity and multi-vocality. The volume also deals with issues of recycling tradition, cultural category and perceptions of ethnicity. Topics explored range from European Philhellenism to Hellenic Hellenism from the Athens 2004 Olympics to Greek cinema from a psychoanalytical engagement with anthropological material to a subtle ethnographic analysis of Greek American women's material culture. The readership envisaged is both academic and non-specialist. With this aim in mind, all quotations from ancient and modern sources in foreign languages have been translated into English.

The Making of Indian Diplomacy Deep K.

Datta-Ray, 2015-05-21 Diplomacy is conventionally understood as an authentic European invention which was internationalised during colonialism. For Indians, the moment of colonial liberation was a false dawn because the colonised had internalised a European logic and performed European practices. Implicit in such a reading is the enduring centrality of Europe to understanding Indian diplomacy. This Eurocentric discourse renders two possibilities impossible: that diplomacy may have Indian origins and that they offer untheorised potentialities. Abandoning this Eurocentric model of diplomacy, Deep Datta Ray recognises the legitimacy of independent Indian diplomacy and brings new practices. He creates a conceptual space for Indian diplomacy to exist, forefronting civilisational analysis and its focus on continuities but refraining from devaluing transformational change.

It focuses on the results of these traditions in the present. Taking into account the distinction between empire building and nation building, anthropology introduced by G.

Stocking and taken up by U Hannerz the book investigates different histories of anthropology especially in ex colonial and marginal contexts It highlights how the hegemonic anthropologies have been accepted and assimilated in local contexts which approaches have been privileged by institutions and academies in different locations how the anthropological approach has been modelled and adapted according to specific knowledge requirements related to the cultural features of different areas and which schools emerge as the most consolidated today Each chapter presents a cultural history of one of the historical cultural and geo political contexts that influenced and produced the specific disciplinary traditions The chapters highlight the local contributions to the discipline the influences that the world centres have on the peripheries but also the ways in which the peripheries have learned from the centres in order to re elaborate meaningful or otherwise recognisable disciplinary lines

The Grecanici of Southern Italy Stavroula Pipyrou, 2016-07-28 The Grecanici are a Greek linguistic minority in the Calabria region of Italy remnants of a population that has resided there since late antiquity Their language represents a holdover from the Middle Ages at least and possibly even to the Greek colonies of the classical period For decades the Grecanici passionately fought to be recognized by the Italian state as an official linguistic minority finally achieving this goal in 1999 Violence corruption and mismanagement are inextricable parts of the social fabric but Grecanici have crafted the means to invert hegemonic culture and participate in the power games of minority politics The Grecanici of Southern Italy provides a comprehensive ethnography that examines the ways the minority developed and sustain enduring cultural forms of solidarity and relatedness Stavroula Pipyrou proposes the concept of fearless governance to describe overlapping and sometimes contradictory systems of power authority and relational networks that enable the Grecanici to achieve political representation at the intersection of local national and global encounters Refuting easy assumptions of top down governmental influence Pipyrou shows how the Grecanici find political representation through the European Union and UNESCO state policy civic associations family networks and illegal organizations not being afraid to take risks incur wrath lose friends or risk death in challenging the political status quo

Vision, Race, and Modernity Deborah Poole, 2021-08-10 Through an intensive examination of photographs and engravings from European Peruvian and U S archives Deborah Poole explores the role visual images and technologies have played in shaping modern understandings of race Vision Race and Modernity traces the subtle shifts that occurred in European and South American depictions of Andean Indians from the late eighteenth to the early twentieth centuries and explains how these shifts led to the modern concept of racial difference While Andean peoples were always thought of as different by their European describers it was not until the early nineteenth century that European artists and scientists became interested in developing a unique visual and typological language for describing their physical features Poole suggests that this scientific or biological discourse of race cannot be understood outside a modern visual economy Although the book specifically documents the depictions of Andean peoples Poole s findings apply to the entire colonized world of the nineteenth century Poole presents a wide range of images from
