Wasserstrom, 2022-01-27 excellent LSE Review of Books. China is the world's most populous country and newest superpower whose place on the international stage can only be understood through the lens of its modern history. The Oxford History of Modern China is essential reading for anyone who wants to understand this rising power in what promises to be the Chinese century. Covering the period of dramatic shifts and surprising transformations which comprise China's modern history, the book spans from the founding of the Qing Dynasty 1644-1912 to the present day. It introduces readers to important but often overlooked events in China's past such as the bloody Taiping Civil War 1850-1864 and also sheds new light on more familiar landmarks in Chinese history such as the Opium War 1839-1842, the Boxer Uprising of 1900, the rise to power of the Chinese Communist Party in 1949, the Tiananmen protests and Beijing Massacre of 1989, and China's rise to economic superpower status in the 21st century. A new chapter for this edition brings the story into the era of Xi Jinping. **A History of Modern China** Kenneth Scott Latourette, 1956 **The Oxford Illustrated History of Modern China** Jeffrey N.

Wasserstrom, 2016-06-16 This lavishly illustrated volume explores the history of China during a period of dramatic shifts and surprising transformations from the founding of the Qing Dynasty 1644-1912 through to the present day. The Oxford Illustrated History of Modern China promises to be essential reading for anyone who wants to understand this rising superpower on the verge of what promises to be the Chinese century, introducing readers to important but often overlooked events in China's past such as the bloody Taiping Civil War 1850-1864 which had a death toll far higher than the roughly contemporaneous American Civil War. It also helps readers see more familiar landmarks in Chinese history in new ways such as the Opium War 1839-1842, the Boxer Uprising of 1900, the rise to power of the Chinese Communist Party in 1949, and the Tiananmen protests and Beijing Massacre of 1989. This is one of the first major efforts and in many ways the most ambitious to date to come to terms with the broad sweep of modern Chinese history, taking readers from the origins of modern China right up through the dramatic events of the last few years: the Beijing Games, the financial crisis, and China's rise to global

economic pre eminence which have so fundamentally altered Western views of China and China's place in the world      *The Cambridge Illustrated History of China* Patricia Buckley Ebrey, 1999-05-13 In an extraordinary feat of synthesis Patricia Buckley Ebrey a leading scholar of China gives an engaging full gloriously illustrated account of over 8000 years of Chinese civilization from prehistoric times through the rise of Confucianism Buddhism and the imperial dynasties to the modern communist state In addition she explores the different factors and forces ideas and inventions events and leaders that have shaped the remarkable Chinese civilization we know today including the technological advances the population explosion and the turmoil of the Cultural Revolution Everything appears from the influence of leading Chinese historians poets novelists and dramatists to the impact of key philosophical and religious ideas art forms family patterns and the Mongul Manchu and Western intrusions      *An Intellectual History of Modern China* Merle Goldman, Leo Ou-fan Lee, 2002-05-16 This book is the only comprehensive book on modern China's intellectual history      Contemporary Studies on Modern Chinese History I Zeng Yeying, 2020-10-29 The study of modern Chinese history has developed rapidly in recent decades and has seen increased exploration of new topics and innovative approaches Resulting from a special issue of Modern Chinese History Studies this volume is devoted to showcasing the healthy development of Chinese modern history studies and has already been revised twice in the original language This volume exhibits major achievements on the study of modern Chinese history and shows how the role of history was in debate transformation and re evaluation throughout this tortuous yet prosperous period Articles on eight different topics are collected from 11 prominent historians in order to represent their insights on the developmental paths of Chinese historical studies Drawing on a large number of case studies of critical historical events such as the founding of the Communist Party of China and the May 4th Movement this volume reflects on economic history and military history while moving on to explore more pioneering topics such as intellectual history and cultural history This book will be a valuable reference for scholars and students of Chinese history      The History of Modern China Zhiyue Bo, 2014-09-02 China whose recorded history extends back several thousand years was once the most advanced civilization on earth But after centuries of self imposed isolation the so called Middle Kingdom found itself lagging behind the world's industrialized countries Defeated militarily by the Western powers and Japan during the second half of the 19th century China went through a series of reforms and revolutions before the emergence of the People's Republic of China PRC in 1949 Internal political struggles stifled the PRC's development during its early decades but a reform program that began in the late 1970s has transformed China into an economic powerhouse and an increasingly important player on the international stage The History of Modern China offers a comprehensive account of China's historical evolution from a prosperous empire to a semi colonial nation and finally to an independent Communist state This volume also provides an in depth analysis of the interplay between China and the outside world as well as among China's various political forces      **Reinventing Modern China** Huaiyin Li, 2012-10-31 This work offers the first systematic analysis of writings on modern Chinese history by

historians in China from the early twentieth century to the present It traces the construction of major interpretive schemes the evolution of dominant historical narratives and the unfolding of debates on the most controversial issues in different periods Placing history writing in the context of political rivalry and ideological contestation Huaiyin Li explicates how the historians dedication to faithfully reconstructing the past was compromised by their commitment to an imagined trajectory of history that fit their present day agenda and served their needs of political legitimation Beginning with an examination of the contrasting narratives of revolution and modernization in the Republican period the book scrutinizes changes in the revolutionary historiography after 1949 including its disciplinization in the 1950s and early 1960s and radicalization in the rest of the Mao era It further investigates the rise of the modernization paradigm in the reform era the crises of master narratives since the late 1990s and the latest development of the field Central to the author s analysis is the issue of truth and falsehood in historical representation Li contends that both the revolutionary and modernization historiographies before 1949 reflected historians lived experiences and contained a degree of authenticity in mirroring the historical processes of their own times In sharp contrast both the revolutionary historiography of the Maoist era and the modernization historiography of the reform era were primarily products of historians ideological commitment which distorted and concealed the past no less than revealed it In search of a more effective approach to rewriting modern Chinese history Reinventing Modern China proposes a within time open ended perspective which allows for different directions in interpreting the events in modern China and views modern Chinese history as an unfinished process remaining to be defined as the country entered the twenty first century
