Modern Japanese Prints - Statler Oliver

Statler,2012-10-09 Featuring over 100 unique prints *Modern Japanese Prints* is a testament to the continuity of Japanese art and creativity By far the most vitally creative group of artists working in Japan today modern print makers are truly international in appeal Although they owe much of their heritage to the famous ukiyoe techniques of the past they depart from their forebears in at least two important respects In the first place whereas in the ancient ukiyoe tradition a print was the joint production of three men the artist designer the artisan who carved the blocks and the printer these modern artists perform all these functions themselves thus satisfying their demands for individual artistic expression at every step of the

creative process Another distinguishing feature of this artistic school is that its inspiration is derived neither solely from its own Japanese past nor solely from the West This book carefully traces the history of the modern print movement through detailed discussions of the life and work of twenty nine of its most noteworthy and representative artists It describes vicissitudes which the movement has undergone and the high artistic ideals which have motivated its members in spite of public apathy and the hostility of the traditionalists

Japanese Printmakers of the Twentieth-Century Renaissance 日本印刷 Florian Knothe, 2025-02-18 This publication and the accompanying exhibition presents the vital contributions of two of Japan's most remarkable artists Kurosaki Akira and Nakabayashi Tadayoshi who participated in and influenced the twentieth century renaissance of printmaking in Japan This cultural phenomenon grew as the artists underwent rigorous training while maintaining a robust interest in traditional printing methods such as the world renowned woodblock technique Coupled with their innovative experimentation the two printers spearheaded a revival that expanded upon established printing techniques The unusual juxtaposition of two contemporary artists emphasises both Kurosaki and Nakabayashi's masterpieces and their individual contributions to the ongoing development of Japanese printmaking This pairing also highlights the distinctiveness cultural relevance and novelty of their work Both born in 1937 and similarly trained Kurosaki and Nakabayashi pursued different topics and employed distinctive colour palettes Despite these differences they both excelled at abstract artmaking and are celebrated for their masterful storytelling While this resurgence of creative printmaking was propelled by technical invention and newly emerging abstract styles its themes engaged with the rapid transformations of post war Japan The era saw a trend toward self expression and ushered in an unprecedented age of experimentation and innovation in the arts Following the publication and display of Noda Tetsuya's work in 2022 this complementary project benefitted again from Steven Co's generous support and knowledge as well as from Noda's informative text that makes this volume a crucial reference work that situates Kurosaki and Nakabayashi in their respective time and place 1937 2022
