The Details of Modern Architecture Edward R. Ford, 2003 Covering the period 1890-1932 this book focuses on various recognised masters explaining the detailing and construction techniques used in their buildings *Detailing Worlds* Eric Bellin, 2025-02-06 In the 21st century the word detail appears constantly in discussions of building and we use it in many different ways yet just over 250 years ago detail meant nothing at all particular to the work of architects engineers or builders *Detailing Worlds* is the first book to examine the origins and evolution of detail as a concept with meanings specific to practices of building By exploring how past meanings and roles were ascribed to detail in different worlds of practice those of academics technicians students engineers and architects *Detailing Worlds* looks to the future illuminating the ways disciplinary knowledge and the concepts on which it is based evolve and change over time It is a story about how such concepts are slowly but constantly reconceived redefined and transformed by individuals as they interact with one another and how this process is shaped by the ever changing sociocultural and technological dimensions of the world around us Richly illustrated with more than 200 images including figures from rare texts archival student drawings and practitioners construction documents from the 18th through 20th centuries *Detailing Worlds* ventures to tell the history of a disciplinary specific idea and offer insights about how we think and speak about the practice of building today **Victorian Domestic Architectural Plans and Details** William T.
