✓ Exclusively available on IvyPanda

The history of Canadian museums, such as the National Gallery of Canada, the Art Gallery of Ontario, and the Montreal Museum of Fine Arts, is fascinating. The era covered by this essay spans the last two decades, although there are aspects prior to these dates that also highlight the importance of art museums for the development of the state's culture. Sources used in this research focus on the social and cultural context when determining how museums and galleries evolved in Canada, taking into account things like indigenous artists' work and the works of certain artists like Robert Harris and others. This research focuses on the development of Canadian museums within the last two decades and will discuss specific elements, such as the inclusion of aboriginal art into exhibitions.

Firstly, to discuss the development of art museums in Canada, one must understand the purpose of art galleries and their value to society. According to McCarthy, "museums are not profit-driven, but value-driven," which means that their contribution to the nation's culture is the most important aspect of a museum's operations (3). Regardless of the institution's size, the "program" is the foundation of a gallery's identity. The phrase "program" typically refers to the artists that a gallery represents, but it can also refer to the conceptual framework or area of interest that directs that roster, as well as other activities like partnerships with other galleries, performances, and talks, or fair appearances (McCarthy 3). This definition also points out another important aspect of the galleries' operations, which is that they do not merely serve the purpose of displaying paintings and sculptures but also can be a hosting place for cultural events. Most galleries even emphasize that their main responsibility is to take any necessary steps to help their artists produce outstanding work.

In the art world, art galleries are very important since they serve as the intermediary between artists and collectors, identifying fresh talent and preserving the best artists' work through their exhibition program. There are many misconceptions about art galleries, despite the fact that they are important to the art world. According to McCarthy, "since 2003, Canadian art galleries have made a concerted effort to include

**Modern Canadian Essays** William H. New, 1976      **Encyclopedia of the Essay** Tracy Chevalier, 2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length. The more than 500 entries by 275 contributors include entries on nationalities, various categories of essays such as generic such as sermons, aphorisms, individual major works, notable writers, and periodicals that created a market for essays and particularly famous or significant essays. The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch, nationality, era, selected writings, list additional readings, and anthologies.

**Revolutions** Alex Good, 2017-03-14 *Revolutions* is the first book-length critical survey of twenty-first-century Canadian fiction with in-depth essays examining subjects such as the Scotiabank Giller Prize, the effects of the digital revolution, and the dark legacy of what has come to be known as the Canadian literary establishment. Throughout, close reading is given to many contemporary authors with particular attention paid to such central figures as Douglas Coupland and David Adams Richards. Alex Good explains and contextualizes this period in Canadian fiction for the general reader, providing a much-needed critical re-assessment of Canadian writing in the new millennium. By offering a contrary yet thoughtful position to that taken by our nation's most prominent literary tastemakers, Good offers a vigorous commentary on the state of Canadian literature where we are and how we got here.

***The Voyageur Canadian Essays & Criticism 2-Book Bundle*** A.J.M. Smith, Charles G. D. Roberts, 2014-03-14 *Voyageur Classics* is a series of new versions of Canadian classics with added material and special introductions. In this bundle, we find two classic works of the art of the Canadian essay. Charles G. D. Roberts was a distinguished writer of his time who published more than forty volumes of poetry, romance, fiction, and nature writing, making him one of the most popular writers of his time. He pioneered the animal story in which he went beyond surface elements of nature and endowed his animal characters with qualities of feeling and intelligence that brought them closer to their human cousins. Roberts' career as a writer transcended his Canadian roots, and he was internationally known and popular in America and England. Arthur James Marshall Smith, prize-winning poet, essayist, influential anthologist, and critic, died in 1980. His last book, *The Classic Shade: Selected Poems on which Selected Writings is based*, stands as his final intention in the world of literature. To this long out-of-print book, the editor has added original material by Smith in which he defined and advanced modernism in Canadian writing. Includes *Selected Writings* A.J.M. Smith, *The Kindred of the Wild*.

***Reference Sources for Canadian Literary Studies*** Joseph Jones, 2005-01-01 *Reference Sources for Canadian Literary Studies* offers the first full-scale bibliography of writing on and in the field of Canadian literary studies. Approximately one thousand annotated entries are arranged by reference genre with sub-groupings related to literary genre.
