Museum

Representations of Maoist China Amy Jane Barnes, 2016-04-15 The collection interpretation and display of art from the People's Republic of China and particularly the art of the Cultural Revolution have been problematic for museums. These objects challenge our perception of Chineseness and their style content and the means of their production question accepted notions of how we perceive art. This book links art history, museology, and visual culture studies to examine how museums have attempted to reveal, discuss, and resolve some of these issues. Amy Jane Barnes addresses a series of related issues associated with collection and display: how museums deal with difficult and controversial subjects; the role they play in mediating between the object and the audience; the role of the Other in the creation of Self and national identities; the nature, role, and function of art in society; the museum as image maker; the impact of communism and Maoism on the cultural history of the twentieth century; and the appropriation of communist visual iconography. This book will be of interest to researchers and students of museology, visual, and cultural studies, as well as scholars of Chinese and revolutionary art.

Art Market

Research Tom McNulty, 2013-12-27 This book is for art market researchers at all levels. A brief overview of the global art market and its major stakeholders precedes an analysis of the various sales venues: auction, commercial gallery, etc. Library research skills are reviewed and advanced methods are explored in a chapter devoted to basic market research. Because the monetary value of artwork cannot be established without reference to the aesthetic qualities and art historical significance of our subject works, two substantial chapters detail the processes involved in researching and documenting the fine and decorative arts, respectively, and provide annotated bibliographies. Methods for assigning values for art objects are explored, and sources of price data, both in print and online, are identified and described in detail. In recent years, art historical scholarship increasingly has addressed issues related to the history of art and its markets; a chapter on resources for the historian of the art market offers a wide range of sources. Finally, provenance and art law are discussed with particular reference to their relevance to dealers, collectors, artists, and other art market stakeholders.

essays on subjects as diverse as the caricatures of Miguel Covarrubias woodblock printing and pictorial magazines all of which were published in Shao's own magazines. Although his essays may be less well known than those of other writers of the same period, without his unique and valuable contribution, the literary, artistic, and poetic worlds of twentieth-century Shanghai would have been very different indeed.

An Index to Reproductions of Paintings by Twentieth-Century Chinese Artists Ellen Johnston Laing, 2020-08-06

In the second half of the twentieth century, studies in Chinese painting history have been greatly aided by several major lists of Chinese artists and their works. Published between 1956 and 1980, these lists were limited to Imperial China. The current index covers the period from 1912 to around 1980. It includes the names of approximately 3,500 traditional style artists, along with lists of their works reproduced in some 264 monographs, books, journals, and catalogs published from the 1920s to around 1980. With a few exceptions, artists working after 1949 outside continental China are excluded. Revised Edition, 1998, first published by the Asian Studies Program, University of Oregon, 1984.

Art and Artists of Twentieth-Century China Michael Sullivan, 2023-12-22. This visually stunning book focuses on the rebirth of Chinese art in the twentieth century under the influence of Western art and culture. Michael Sullivan, recognized throughout the world as a leading scholar of Chinese art, vividly documents the conflicting pulls of traditional and Western values on Chinese art and provides 364 illustrations in color and black and white to show the great range of artistic expression and the historical processes that occurred within various movements. A substantial biographical index of twentieth-century Chinese artists is a valuable addition to the text. Sullivan discusses artists and their work against China's background of oppression and relaxation, despair and hope. He expertly conveys the diverse and at times bizarre intertwining of Chinese cultural history and art during this century. Included are the intense debates between traditionalists and reformers, the creation of the first art schools, and the birth of the idea, shocking in ethnocentric China, that art is a world language that obliterates all frontiers. The scholarly traditions of classical Chinese painting, the belated discovery of Western modernism, the artistic upheaval under Communism, and China's rethinking of the very nature of art all have a place in Sullivan's fascinating history. Michael Sullivan has known many of the major figures in China's modern art movement of the 1930s and 1940s and has also gained the confidence of younger artists who rose to prominence following the 1979 Peking Spring. This long-awaited book, richly documented and abundantly illustrated, is a capstone to Sullivan's work and will be enthusiastically welcomed by art lovers everywhere.
