Handbook of Research on Managing the Urban-Rural Divide Through an Inclusive Framework Popoola, Ayobami Abayomi, Magidimisha-Chipungu, Hangwelani

Hope, Chipungu, Lovemore, 2023-02-10 In recent years the growing disparities between rural and urban areas in developing countries have been a cause of major concern. The rural-urban gap remains the single most well-documented development and welfare disparity in the developing world. This gap can be seen in the low economic activities, higher poverty levels, and lower quality infrastructure and services in rural areas as opposed to urban areas. While the magnitude of this rural-urban divide is well-documented, very little has been documented about its impact on inclusive and sustainable urban development. The Handbook of Research on Managing the Urban-Rural Divide Through an Inclusive Framework aims to capture the spatial and socio-economic divide between rural and urban areas and provides a road map to revamping the discussion that surrounds the urban-rural sphere. Covering key topics such as development, food security, and rural regions, this premier reference source is ideal for policymakers, government officials, industry professionals, researchers, academicians, practitioners, scholars, instructors, and students.
