**The Moral Order of the World in Ancient and Modern Thought** Alexander Balmain Bruce, 1899      Philosophy of Mind in the Early Modern and Modern Ages Rebecca Copenhaver, 2018-07-06 The early modern period is arguably the most pivotal of all in the study of the mind teeming with a variety of conceptions of mind Some of these posed serious questions for assumptions about the nature of the mind many of which still depended on notions of the soul and God It is an era that witnessed the emergence of theories and arguments that continue to animate the study of philosophy of mind such as dualism vitalism materialism and idealism Covering pivotal figures in philosophy such as Descartes Hobbes Kant Leibniz Cavendish and Spinoza Philosophy of Mind in the Early Modern and Modern Ages provides an outstanding survey of philosophy of mind of the period Following an introduction by Rebecca Copenhaver sixteen specially commissioned chapters by an international team of contributors discuss key topics thinkers and debates including Hobbes Descartes philosophy of mind and its early critics consciousness the later Cartesians Malebranche Cavendish Locke Spinoza Descartes and Leibniz perception and sensation desires mental substance and mental activity Hume and Kant Essential reading for students and researchers in philosophy of mind enlightenment philosophy and the history of philosophy Philosophy of Mind in the Early Modern and Modern Ages is also a valuable resource for those in related disciplines such as religion history of psychology and history of science      **Early Modern Philosophy** Jonathan Head, John Grey, 2024-11-28 For anyone in search of the philosophers who influenced one of the richest moments in Western intellectual history this inclusive reader is the place to start Early Modern Philosophy showcases an unrivalled range of thinkers Through them you are introduced to a selection of their texts that return important philosophical ideas and debates to our understanding of modern philosophy Addressing a one sided view of intellectual history that has persisted for centuries this reader goes beyond the usual focus on rationalism and empiricism with readings organised into three parts Dualistic theories of human nature as the union of a mind and a body Debates concerning social relations and education The nature of reality and the way in which the mind reveals or constructs our understanding of the world The thematic approach puts women philosophers and understudied figures in direct conversation with canonical thinkers Extracts from primary sources are accompanied by biographical details questions for reflection further reading and summaries that place philosophers in their historical contexts      **Early Modern Social Theory** Murray E. G. Smith, 1998 Early Modern Social Theory Selected Interpretive Readings is a collection of essays that illuminates the course of development of modern social thought from the Enlightenment to the 1920s The essays focus on the most prominent social theorists including Smith Durkheim Marx and Engels and Weber Each essay has been chosen to provide the main contributions of the theorist and the political and economic context in which he worked The editor a noted scholar in the field has written clear concise introductions to each section and provided a glossary of frequently used philosophical terms The collection includes two famous feminist critiques of the literature by Rosalind Sydie and Lise Vogel

**Orthodox yet Modern** Cory C. Brock,2020-07-22 Herman Bavinck showed that othodox theology continues to speak authoritatively today Since the English translation from Dutch of Herman Bavinck s magisterial 4 volume Reformed Dogmatics there has been a blossoming interest in Bavinck s theology Readers have been drawn to Bavinck for his faithfulness to the Reformed tradition while also engaging the questions of 19th century Europe Far from simply revisiting the older dogmatic systems Bavinck faithfully engages modern trends like historical criticism the epistemological problems raised by Kant the rationalism of the philosophes and the radical changes ushered in through the French and European revolutions The question then is was Bavinck orthodox modern or both In Orthodox yet Modern Cory C Brock argues that Bavinck acts as a bridge between orthodox and modern views insofar as he subsumes the philosophical theological questions and concepts of theological modernity under the conditions of his orthodox confessional tradition By exploring the relation between Bavinck and Schleiermacher Orthodox yet Modern presents Herman Bavinck as a theologian eager to engage the contemporary world rooted in the catholic and Reformed tradition absorbing the best of modernity while rejecting its excesses Bavinck represents a theologian who is at once orthodox yet modern

**Theosis** Michael Paul Gama,2017-02-20 Evangelicalism is reaching an inflection point The exodus of millennials from Evangelical churches and the growth of those self identifying as Nones as in None of the Above for their church affiliation is concerning for the movement s future Evangelical leaders offer mixed responses to this challenge from circling the wagons to an enthusiastic Everything must change posture Theosis takes a

different approach Seeking to understand Evangelicalism and its origins this book suggests that Evangelicalism is best understood as the sibling of western Enlightenment Modernity which served it well until the modern cultural ethos began to shift dramatically toward post modernity In this shift young Evangelicals principally postmoderns themselves are abandoning their father s Evangelicalism and its perceived linearity hyper rationalism either or exclusivity and faith expression too often perceived as stripped of mystery and wonder Theosis proposes that to move forward Evangelicalism must go back to the future to re engage with the patristic understanding of salvation as theosis deification or union with God This radical return and broadening of the doctrine of salvation has begun to gain traction in Western Christendom slowly being considered as it has always in the Christian East as mere Christianity

*Introduction to Philosophy* Oswald Külpe, 2018-08-06 First published in 1927 this translation of Külpe s *Einleitung in die Philosophie* 1895 covered psychology logic ethics esthetics and general philosophy The author adopted a uniform approach of positivity interest and impartiality aiming his work at a wider public than students of philosophy The volume was intended as an elementary but complete guide to philosophy past and present and included facts and arguments previously confined to philosophical encyclopaedias

*Milk, Modernity and the Making of the Human* Richie Nimmo, 2010-02-25 This book undertakes a critique of the pervasive notion that human beings are separate from and elevated above the nonhuman world and explores its role in the constitution of modernity The book presents a socio material analysis of the British milk industry in the late nineteenth and early twentieth centuries It traces the dramatic development of the milk trade from a cottage industry into a modernised and integrated system of production and distribution examining the social economic and political factors underpinning this transformation and also highlighting the important roles played by various nonhumans such as microbes refrigeration technologies diseases and even cows themselves Milk as a substance posed deep social and material problems for modernity being hard to transport and keep fresh as well as a highly fertile environment for the growth of bacteria and the transmission of diseases such as tuberculosis from cows to humans *Milk Modernity and the Making of the Human* demonstrates how the resulting insecurities and dilemmas posed a threat to the nature culture divide as milk consumption grew along with urbanization and had therefore to be managed by emergent forms of scientific and sanitary knowledge and expertise *Milk Modernity and the Making of the Human* is an ideal volume for any researcher interested in the hybrid socio material economic and political factors underpinning the transformation of the milk industry
