## **Modern Enchantments The Cultural Power Of Secular Magic:**

**Modern Enchantments** Simon During, 2002 Magic During suggests has helped shape modern culture Devoted to this deceptively simple proposition During's work gets at the aesthetic questions at the very heart of the study of culture How can the most ordinary arts and by magic During means not the supernatural but the special effects and conjurings of magic shows affect people *On Literature* J. Hillis Miller, 2003-09-02 Debates rage over what kind of literature we should read what is good and bad literature and whether in the global digital age literature even has a future But what exactly is literature Why should we read literature How do we read literature These are some of the important questions J Hillis Miller answers in this beautifully written and passionate book He begins by asking what literature is arguing that the answer lies in literature's ability to create an imaginary world simply with words *On Literature* also asks the crucial question of why literature has such authority over us Returning to Plato Aristotle and the Bible Miller argues we should continue to read literature because it is part of our basic human need to create imaginary worlds and to have stories Above all *On Literature* is a plea that we continue to read and care about literature

**Cultural Passions** Elizabeth Wilson, 2013-05-28 Elizabeth Wilson is one of our most radical cultural critics In *Cultural Passions* she transcends the division between high and low culture exploring the emotional commitment people bring to the books performances objects and rituals in which they find meaning and challenging an enduring suspicion of the pleasure of the aesthetic Ranging from Marcel Proust to tarot readings from urban planning to interiors Elizabeth Wilson investigates an underlying Puritanism in critical commentary on matters as wide ranging as Roger Federer and C S Lewis Surrealism and fashion and the relationship of religion to fan culture She questions why pleasure appears suspect even as consumer society incites it and turns life into entertainment She questions why there is such fear of elitism when at the same time the fans of mass culture are held in contempt Subverting conventional views her oblique point of view provides startling insights on both familiar and marginal cultural experiences

Enchantment and Dis-enchantment in Shakespeare and Early Modern Drama Nandini Das, Nick Davis, 2016-12-08 This volume addresses dealings with the wondrous magical holy sacred sainted numinous uncanny auratic and sacral in the plays of Shakespeare and contemporaries produced in an era often associated with the irresistible rise of a thinned out secular rationalism By starting from the literary text and looking outwards to social cultural and historical aspects it comes to grips with the instabilities of enchanted and disenchanted practices of thinking and knowledge making in the early modern period If what marvelously stands apart from conceptions of the world's ordinary functioning might be said to be enchanted is the enchantedness weakened empowered or modally altered by its translation to theatre We have a received historical narrative of disenchantment as a large scale early modern cultural process inexorable in character consisting of the substitution of a rationally understood and controllable world for one containing substantial areas of mystery Early modern cultural change however involves transpositions recreations or fresh inventions of the enchanted and not only its replacement in diminished

or denatured form This collection is centrally concerned with what happens in theatre as a medium which can give power to experiences of wonder as well as circumscribe and curtail them addressing plays written for the popular stage that contribute to and reflect significant contemporary reorientations of vision awareness and cognitive practice The volume uses the idea of disenchantment re-enchantment as a central hub to bring multiple perspectives to bear on early modern conceptualizations and theatricalizations of wonder the sacred and the supernatural from different vantage points marking a significant contribution to studies of magic witchcraft enchantment and natural philosophy in Shakespeare and early modern drama

Eberl, 2017-06-20 As a director writer and producer Christopher Nolan has substantially impacted contemporary cinema through avant garde films such as *Following* and *Memento* and his contribution to wider pop culture with his Dark Knight trilogy His latest film *Interstellar* delivered the same visual qualities and complex thought provoking plotlines his audience anticipates *The Philosophy of Christopher Nolan* collects sixteen essays written by professional philosophers and film theorists discussing themes such as self identity and self destruction moral choice and moral doubt the nature of truth and its value whether we can trust our perceptions of what is real the political psychology of heroes and villains and what it means to be a viewer of Nolan's films Whether his protagonists are squashing themselves like a bug struggling to create an identity and moral purpose for themselves suffering from their own duplicitous plots donning a mask that both strikes fear and reveals their true nature or having to weigh the lives of those they love against the greater good there are no simple solutions to the questions Nolan's films provoke exploring these questions yields its own reward

Uncanny Modernity Jo Collins, 2008-04-01 This book explores the sense in which the uncanny may be a distinctively modern experience the way these unnerving feelings and unsettling encounters disturb the rational presumptions of the modern world view and the security of modern self identity just as the latter may themselves be implicated in the production of these experiences as uncanny

*Restless Secularism* Matthew Mutter, 2017-06-27 A scholarly and deeply sensitive study that explores how religion and secularism are tightly interwoven in the major works of modernist literature Matthew Mutter provides a broad survey of modernist literature examining key works against a background of philosophy theology intellectual and social history while tracing the relationship of modernism's secular imagination to the religious cultures that both preceded and shaped it Mutter's provocative study demonstrates how despite their explicit desire to purify secular life of its religious residues Wallace Stevens Virginia Woolf and other literary modernists consistently found themselves entangled in the religious legacies they disavowed

Color in the Age of Impressionism Laura Anne Kalba, 2017-04-21 This study analyzes the impact of color making technologies on the visual culture of nineteenth century France from the early commercialization of synthetic dyes to the Lumière brothers' perfection of the autochrome color photography process Focusing on Impressionist art Laura Anne Kalba examines the importance of dyes produced in the second half of the nineteenth century to the vision of artists such as Edgar Degas Pierre Auguste Renoir and

Claude Monet The proliferation of vibrant new colors in France during this time challenged popular understandings of realism abstraction and fantasy in the realms of fine art and popular culture More than simply adding a touch of spectacle to everyday life Kalba shows these bright varied colors came to define the development of a consumer culture increasingly based on the sensual appeal of color Impressionism emerging at a time when inexpensively produced color functioned as one of the principal means by and through which people understood modes of visual perception and signification mirrored and mediated this change shaping the ways in which people made sense of both modern life and modern art Demonstrating the central importance of color history and technologies to the study of visibility Color in the Age of Impressionism adds a dynamic new layer to our understanding of visual and material culture [Stranger Magic](#) Marina Warner,2012-03-01 Our foremost theorist of myth fairytale and folktale explores the magical realm of the imagination where carpets fly and genies grant prophetic wishes Stranger Magic examines the profound impact of the Arabian Nights on the West the progressive exoticization of magic and the growing acceptance of myth and magic in contemporary experience *As If* Michael Saler,2012-01-09 Many people throughout the world inhabit imaginary worlds communally and persistently parsing Harry Potter and exploring online universes These activities might seem irresponsibly escapist but history tells another story Beginning in the late nineteenth century when Sherlock Holmes became the world's first virtual reality character readers began to colonize imaginary worlds debating serious issues and viewing reality in provisional as if terms rather than through essentialist just so perspectives From Lovecraft's Cthulhu Mythos and Tolkien's Middle earth to the World of Warcraft and Second Life *As If* provides a cultural history that reveals how we can remain enchanted but not deluded in an age where fantasy and reality increasingly intertwine [The Fairy Way of Writing](#) Kevin Pask,2013-10-15 A history of popular superstitions tales and magic in British literature In *The Fairy Way of Writing* Kevin Pask seeks to explain the origins and popularity of enchantment in Shakespeare's plays Writers John Dryden and Joseph Addison originated the phrase fairy way of writing to define the concept of an English creative imagination founded on a synthesis of high literary culture and the popular culture of tales and superstitions Beginning with Chaucer Johnson Dryden and Milton Pask argues that the fairy way of writing not only sets the stage for the fairy tale the Gothic novel and children's literature but also informs genres beyond the English canon including painting twentieth century fantasy fiction and French fairy tales In addition to English writers and visual artists such as Pope Blake and Keats who were directly engaged with Shakespearean fantasy Pask also examines fairy tales letters and paintings by the French writers Madame d'Aulnoy Charles Perrault Madame de Sevigné and the Swiss born artist Johann Heinrich Füssli Fuseli *The Fairy Way of Writing* alters the traditional sense of English literary history and of Shakespeare's singular place in it insisting on the importance of often overlooked literary and visual works It recovers a distinctive aspect of English literary culture from across the entire early modern era and beyond one that has been studied in the context of individual periods and writers but is only now explored in relation to the history of European nationalism and

the creation of the modern literary system      Magical Realism and the History of the Emotions in Latin America Jerónimo Arellano, 2015-05-21 Iconoclastic in spirit *Magical Realism and the History of the Emotions in Latin America* is the first study of affect and emotion in magical realist literature Against the grain of a vast body of scholarship it argues that magical realism is neither exotic commodity nor postcolonial resistance but an art form fueled by a search for spaces of wonder in a disenchanted world Linking the rise and fall of magical realism and kindred narrative forms to the shifting value of wonder as an emotional experience this thought provoking study proposes a radical new approach to canonical novels such as *One Hundred Years of Solitude* Received as one of the most convincing manifestations of the turn to affect in contemporary Latin American critical thought *Magical Realism and the History of the Emotions* draws on affect theory the history of emotions and new materialism to reframe key questions in Latin American literature and culture      **A Cultural History of Climate Change** Tom Bristow, Thomas H. spirit communications with the functioning of digital technologies How does the internet's capacity to facilitate the proliferation of beliefs blur the boundaries between what is considered fiction and fact Addressing these and similar questions the volume challenges and redefines established understandings of digital media and culture by employing the notions of belief religion and the supernatural *Pasts Beyond Memory* Tony Bennett, 2004-07-31 Contributing to current debates on relationships between culture and the social and the rapidly changing practices of modern museums as they seek to shed the legacies of both evolutionary conceptions and colonial science this important new work explores how evolutionary museums developed in the USA UK and Australia in the late nineteenth century *The Modern Supernatural and the Beginnings of Cinema* Murray Leeder, 2017-01-10 This study sees the nineteenth century supernatural as a significant context for cinema's first years The book takes up the familiar notion of cinema as a ghostly spectral or haunted medium and asks what made such association possible Examining the history of the projected image and supernatural displays psychical research and telepathy spirit photography and X rays the skeletons of the danse macabre and the ghostly spaces of the mind it uncovers many lost and fascinating connections *The Modern Supernatural and the Beginnings of Cinema* locates film's spectral affinities within a history stretching back to the beginning of screen practice and forward to the digital era In addition to examining the use of supernatural themes by pioneering filmmakers like Georges Méliès and George Albert Smith it also engages with the representations of cinema's ghostly past in Guy Maddin's recent online project *Seances* 2016 It is ideal for those interested in the history of cinema the study of the supernatural and the pre history of the horror film ***The Oxford Handbook of Political Science*** Robert E. Goodin, 2009-06-18 Drawing on the rich resources of the ten volume series of *The Oxford Handbooks of Political Science* this one volume distillation provides a comprehensive overview of all the main branches of contemporary political science political theory political institutions political behavior comparative politics international relations political economy law and politics public policy contextual political analysis and political methodology Sixty seven of the top political scientists worldwide survey recent developments in those fields and provide penetrating introductions to exciting new fields of study Following in the footsteps of the *New Handbook of Political Science* edited by Robert Goodin and Hans Dieter Klingemann a decade before this *Oxford Handbook* will become an indispensable guide to the scope and methods of political science as a whole It will serve as the reference book of record for political scientists and for those following their work for years to come *Making Magic* Randall Styers, 2004-01-15 Since the emergence of religious studies and the social sciences as academic disciplines the concept of magic has played a major role in defining religion and in mediating the relation of religion to science Across these disciplines magic has regularly been configured as a definitively non modern phenomenon juxtaposed to distinctly modern models of religion and science Yet this notion of magic has remained stubbornly amorphous In *Making Magic* Randall Styers seeks to account for the extraordinary vitality of scholarly discourse purporting to define and explain magic despite its failure to do just that He

argues that this persistence can best be explained in light of the Western drive to establish and secure distinctive norms for modern identity norms based on narrow forms of instrumental rationality industrious labor rigidly defined sexual roles and the containment of wayward forms of desire Magic has served to designate a form of alterity or deviance against which dominant Western notions of appropriate religious piety legitimate scientific rationality and orderly social relations are brought into relief Scholars have found magic an invaluable tool in their efforts to define the appropriate boundaries of religion and science On a broader level says Styers magical thinking has served as an important foil for modernity itself Debates over the nature of magic have offered a particularly rich site at which scholars have worked to define and to contest the nature of modernity and norms for life in the modern world

**The Buck, the Black, and the Existential Hero** James B. Haile, 2020-04-15 Outstanding Academic Title CHOICE The Buck the Black and the Existential Hero Refiguring the Black Male Literary Canon 1850 to Present combines philosophy literary theory and jazz studies with Africana studies to develop a theory of the black male literary imagination In doing so it seeks to answer fundamental aesthetic and existential questions How does the experience of being black and male in the modern West affect the telling of a narrative the shape or structure of a novel the development of characters and plot lines and the nature of criticism itself James B Haile argues that since black male identity is largely fluid and open to interpretation reinterpretation and misinterpretation the literature of black men has developed flexibility and improvisation termed the jazz of life Our reading of this literature requires the same kind of flexibility and improvisation to understand what is being said and why as well as what is not being said and why Finally the book attempts to offer this new reading experience by placing texts by well known authors such as Frederick Douglass Ralph Ellison and Colson Whitehead in conversation with texts by those who are less well known and those who have for the most part been forgotten in particular Cecil Brown Doing so challenges the reader to visit and revisit these novels with a new perspective about the social political historical and psychic realities of black men
