## **Modern English Usage:**

*Fowler's Dictionary of Modern English Usage* Jeremy Butterfield, 2015-03-26 Why literally shouldn't be taken literally Why Americans think home in on something is a mistake and Brits think hone in is Is it OK to spell OK okay What's wrong with hence why Was Alanis Morissette ever ironic Fowler's Dictionary of Modern English Usage is the world famous guide to English usage loved and used by writers editors and anyone who values correct English since it first appeared in 1926 Fowler's gives comprehensive and practical advice on complex points of grammar syntax punctuation style and word choice Now enlarged and completely revised to reflect English usage in the 21st century it provides a crystal clear authoritative picture of the English we use while illuminating scores of usage questions old and new International in scope it gives in depth coverage of both British and American English usage issues with reference also to the English of Australia Canada India New Zealand and South Africa The thousands of authentic examples in the book vividly demonstrate

**A Dictionary of Modern English Usage** H. W. Fowler, 2010-10-14 What grammarians say should be has perhaps less influence on what shall be than even the more modest of them realize No book had more influence on twentieth century attitudes to the English language in Britain than Henry Fowler's Dictionary of Modern English Usage It rapidly became the standard work of reference for the correct use of English in terms of choice of words grammar and style Much loved for his firm opinions passion and dry humour Fowler has stood the test of time and is still considered the best arbiter of good practice In this new edition of the original Dictionary David Crystal goes beyond the popular mythology surrounding Fowler's reputation to retrace his method and arrive at a fresh evaluation of his place in the history of linguistic thought With a wealth of entertaining examples he looks at Fowler's stated principles and the tensions between his prescriptive and descriptive temperaments He shows that the Dictionary does a great more than make normative recommendations and express private opinion In addition he offers a modern perspective on some 300 entries in which he shows how English has changed since the 1920s ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

**A Dictionary of Modern English Usage** Henry Watson Fowler, 1965 Revised edition of an English language dictionary comprising up to date definitions and guidelines as an aid in the correct use in writing and speaking of frequently misused words

*Garner's Modern American Usage* Bryan Garner, 2009-08-27 Since first appearing in 1998 Garner's Modern American Usage has established itself as the preeminent guide to the effective use of the English language Brimming with witty erudite essays on troublesome words and phrases this book authoritatively shows how to avoid the countless pitfalls that await unwary writers and speakers whether the issues relate to grammar punctuation word choice or pronunciation Now in the third edition readers will find the Garner's Language Change Index

which registers where each disputed usage in modern English falls on a five stage continuum from nonacceptability to the language community as a whole to acceptability giving the book a consistent standard throughout

Garner's *Modern American Usage* 3e is the first usage guide ever to incorporate such a language change index and the judgments are based both on Garner's own original research in linguistic corpora and on his analysis of hundreds of earlier studies

Another first in this edition is the panel of critical readers 120 plus commentators who have helped Garner reassess and update the text so that every page has been improved

Garner's Modern English Usage Bryan Garner, 2016-03-11

With more than a thousand new entries and more than 2 300 word frequency ratios the magisterial fourth edition of this book now renamed *Garner's Modern English Usage* GMEU reflects usage lexicography at its finest

Garner explains the nuances of grammar and vocabulary with thoroughness finesse and wit

He discourages whatever is slovenly pretentious or pedantic

GMEU is the liveliest and most compulsively readable reference work for writers of our time

It delights while providing instruction on skillful persuasive and vivid writing

Garner liberates English from two extremes both from the hidebound purists who mistakenly believe that split infinitives and sentence ending prepositions are malfeasances and from the linguistic relativists who believe that whatever people say or write must necessarily be accepted

The judgments here are backed up not just by a lifetime of study but also by an empirical grounding in the largest linguistic corpus ever available

In this fourth edition Garner has made extensive use of corpus linguistics to include ratios of standard terms as compared against variants in modern print sources

No other resource provides as comprehensive reliable and empirical a guide to current English usage

For all concerned with writing and editing GMEU will prove invaluable as a desk reference

Garner illustrates with actual examples cited with chapter and verse all the linguistic blunders that modern writers and speakers are prone to whether in word choice syntax phrasing punctuation or pronunciation

No matter how knowledgeable you may already be you're sure to learn from every single page of this book
