

The background of the cover is a light gray. It is decorated with a pattern of teal and dark teal geometric shapes. These shapes include circles, semi-circles, and quarter-circles, some of which are partially cut off by the edges of the cover. The shapes are arranged in a way that creates a sense of movement and depth. The text is placed within the negative space of this pattern.

Genre Theory in Information Studies Jack Andersen, 2015-02-18 This book highlights the important role genre theory plays within information studies It illustrates how modern genre studies inform and enrich the study of information and conversely how the study of information makes its own independent contributions to

the study of genre *The Mother's Legacy in Early Modern England* Ms Jennifer Heller, 2013-05-28 Using printed and manuscript texts composed between 1575 and 1672 Jennifer Heller defines the genre of the mother's legacy as a distinct branch of the advice tradition in early modern England that takes the form of a dying mother's pious counsel to her children. Reading these texts in light of specific cultural contexts, social trends and historical events, Heller explores how legacy writers used the genre to secure personal and family status, to shape their children's beliefs and behaviors, and to intervene in the period's tumultuous religious and political debates. The author's attention to the fine details of the period's religious and political swings, drawn from sources such as royal proclamations, sermons, and first-hand accounts of book burnings, creates a fuller context for her analysis of the legacies. Similarly, Heller explains the appeal of the genre by connecting it to social factors including mortality rates and inheritance practices. Analyses of related genres such as conduct books and fathers' legacies highlight the unique features and functions of mothers' legacies. Heller also attends to the personal side of the genre, demonstrating that a writer's education, marriages, children, and turns of fortune affect her work within the genre. *The Mother's Legacy in Early Modern England* Jennifer Heller, 2016-03-03 Using printed and manuscript texts composed between 1575 and 1672 Jennifer Heller defines the genre of the mother's legacy as a distinct branch of the advice tradition in early modern England that takes the form of a dying mother's pious counsel to her children. The reception of poetry is largely characterised either by an empathetic identification of critics with the lyric persona or by exclusive interest in formal patterning. The present volume seeks to remedy this deficit. All the contributors theorise the lyric to overcome the impasse of an impressionistic and narrowly formalistic critical debate on the genre. Their papers focus on a variety of different questions: the problem of establishing a framework for definition and classification; the search for dynamic and potent critical approaches; investigations of poetry's cultural performance and its fundamental relevance for the construction of group cohesion. The essays collected in this volume offer a consciously polyphonic range of theories and interpretations, suggesting to the reader a variety of theoretical frameworks and practical

Skinner, Sherri Brown, 2017-11-15 The Gospel and epistles of John are commonly overlooked in discussions of New Testament ethics often seen as of only limited value Here prominent scholars present varying perspectives on the surprising relevance and importance of the explicit imperatives and implicit moral perspective of the Johannine literature The introduction sets out four major approaches to Johannine ethics today a concluding essay takes stock of the wide ranging discussion and suggest prospects for future study

Zahn, 2020-06-11 In this book Molly Zahn investigates how early Jewish scribes rewrote their authoritative traditions in the course of transmitting them from minor edits in the course of copying to whole new compositions based on prior works Scholars have detected evidence for rewriting in a wide variety of textual contexts but

Zahn's is the first book to map manuscripts and translations of biblical books so called parabiblical compositions and the sectarian literature from Qumran in relation to one another. She introduces a new adaptable set of terms for talking about rewriting using the idea of genre as a tool to compare and contrast different cases. Although rewriting has generally been understood as a vehicle for biblical interpretation, Zahn moves beyond that framework to demonstrate that rewriting was a pervasive textual strategy in the Second Temple period. Her book contributes to a powerful new model of early Jewish textuality illuminating the rich and diverse culture out of which both rabbinic Judaism and early Christianity eventually emerged.

Greek Comedy and the Discourse of Genres Emmanuela Bakola, Lucia Prauscello, Mario Telò, 2013-04-18
Recent scholarship has acknowledged that the intertextual discourse of ancient comedy with previous and contemporary literary traditions is not limited to tragedy. This book is a timely response to the more sophisticated and theory grounded way of viewing comedy's interactions with its cultural and intellectual context. It shows that in the process of its self definition comedy emerges as voracious and multifarious with a wide spectrum of literary, sub literary and paraliterary traditions; the engagement with which emerges as central to its projected literary identity and subsequently to the reception of the genre itself. Comedy's self definition through generic discourse far transcends the narrowly conceived high/low division of genres. This book explores ancient comedy's interactions with Homeric and Hesiodic epic, iambos, lyric, tragedy, the fable tradition, the ritual performances of the Greek polis and its reception in Platonic writings and Alexandrian scholarship within a unified interpretative framework.

John among the Apocalypses Benjamin E. Reynolds, 2020-10-22
The Gospel of John has long been recognized as being distinct from the Synoptic Gospels. John among the Apocalypses explains John's distinctive narrative of Jesus's life by comparing it to Jewish apocalypses and highlighting the central place of revelation in the Gospel. While some scholars have noted a connection between the Gospel of John and Jewish apocalypses, Reynolds makes the first extensive comparison of the Gospel with the standard definition of the apocalypse genre. Engaging with modern genre theory, this comparison indicates surprising similarities of form, content and function between John's Gospel and Jewish apocalypses. Even though the Gospel of John reflects similarities with the genre of apocalypse, John is not an apocalypse but in genre theory terms John may be described as a gospel in kind and an apocalypse in mode. John's narrative of Jesus's life has been qualified and shaped by the genre of apocalypse such that it may be called an apocalyptic gospel. In the final two chapters Reynolds explores the implications of this conclusion for Johannine Studies and New Testament scholarship more broadly. John among the Apocalypses considers how viewing the Fourth Gospel as apocalyptic Gospel aids in the interpretation of John's appeal to Israel's Scriptures and Mosaic authority and examines the Gospel's relationship with the book of Revelation and the history of reception concerning their writing. An examination of Byzantine iconographic traditions highlights how reception history may offer a possible explanation for reading John as apocalyptic Gospel.

Reading Romans as a Diatribe Changwon Song, 2004 This book illustrates how the macro structure of the body of Romans essentially follows that of the diatribes in Epictetus's Discourses As in Discourses the diatribe in Romans begins with the thesis 1:16-17 then follows an indictment 1:18-32 and dialogues with a fictitious second person singular in chapter two Arguments with the *meno ito* formula dominate the middle part of the diatribe In the middle of chapter eleven the phase changes back to dialogues with the second person singular The ending of the diatribe Romans also like Discourses includes cynic and hyperbolic statements 14:21 and 14:23 Thus the body of Romans should not be read as a real letter but as a diatribe that was distributed in Paul's schoolroom and later appropriated as a letter This teaching was not directed to a specific group of people viz the Christians in Rome but rather intrinsically universalized Therefore its message is intrinsically more powerful for us

Rethinking Négritude
through Léon-Gontran Damas F. Bart Miller, 2014-04-10 Rethinking Négritude through Léon-Gontran Damas analyses four cases in which Damasian Négritude shifted through generic experimentation *Pigments* 1937 *Retour de Guyane* 1938 *Veilles noires* 1943 and *Black Label* 1956 In doing so it also advances scholarship on Damas 1912-1978 in two ways On the one hand it undertakes the crucial and in depth research needed to challenge the understanding of Négritude as a bipartite Caire and Senghor phenomenon On the other hand it offers an innovative reading of Damas whose work deserves more complete consideration than it has received thus far Reading this essay will illuminate Damas's works and their relationship to one another thus demonstrating the continuity of Damasian Négritude F. Bart Miller holds a PhD in French Studies from the University of Liverpool He is a specialist in French Caribbean Literature and his other publications have appeared in *International Journal of Francophone Studies* *Romance Studies* and in the volume *Adaptation Studies in French and Francophone Culture* in the series *Modern French Identities* with Peter Lang publishers
