Social Mobility In Kerala Filippo Osella, Caroline Osella, 2000-12-20 Filippo and Caroline Osella anthropologists who spent three years in rural Kerala south India write about the modern search for upward social mobility the processes involved the ideologies that support or thwart it and what happens to the people involved They focus on the caste called Izhavas a group that in the mid 19th century consisted of a small land owning and titled elite and a large mass of landless and small tenants who were largely illiterate and considered untouchable and who eked out a living by manual labor and petty trade In the 20th century Izhavas pursued mobility in many social arenas both as a newly united caste and as families The work considers how successful the mobility has been and looks at the effects on their society of an ethos of progress Distributed by Stylus Annotation copyrighted by Book News Inc Portland OR *South Kanara, 1799-1860* N. Shyam Bhat, 1998-01-01 *Role of Panchayats in Welfare Administration* Dr. Abraham Mathew, 2005 The book is a useful study which contains principles for the growing need of literature in development administration Various dimension of Panchayati Raj Implementation and evaluations of welfare and development programmes for weaker sections in rural areas have been analysed with the help of micro study It also exhaustively deals with centrally sponsored schemes and programmes for poverty alleviation *Inside the Drama-House* Stuart Blackburn, 1996-05-28 Stuart Blackburn takes the reader inside a little known form of shadow puppetry in this captivating work about performing the Tamil version of the Ramayana epic Blackburn describes the skill and physical stamina of the puppeteers in Kerala state in South India as they perform all night for as many as ten weeks during the festival season The fact that these performances often take place without an audience forms the starting point for Blackburn's discussion one which explores not only this important epic tale and its performance but also the broader theoretical issues of text interpretation and audience Blackburn demonstrates how the performers adapt the narrative and add their own commentary to re create the story from a folk perspective At a time when the Rama story is used to mobilize political movements in India the puppeteers elaborate recitation and commentary presents this controversial tale from another ethical perspective one that advocates moral reciprocity and balance While the study of folk narrative has until now focused on tales tellers and tellings this work explores the importance of audience absent or otherwise Blackburn's elegant translations of the most dramatic and pivotal sequences of the story enhance our appreciation of this unique example of performance art **Public Library Movement** A. Paslithil, 2006 An Axiomatic study on the history of public library movement of Kerala and its relevance in the socio cultural milieu of Kerala and evaluates the movement's socio cultural contribution in the making of modern Kerala **Journal of Kerala Studies**, 1987 Kerala: the Development Experience Govinda Parayil, 2000-08-12 At a time when disillusion with neo liberal development nostrums is mounting alternative models of development are being revisited Kerala's 30 million people may not have experienced rapid growth in GDP per capita but

they have for the past several decades achieved a remarkable social record in terms of adult literacy infant mortality life expectancy stabilising population growth and narrowing gender and spatial gaps What are the implications of the disjuncture between human development and economic growth What are the political social and cultural factors responsible for Kerala's success Does its human development record necessarily relate to sustainability in environmental terms How inclusive has the Kerala model been particularly for the fishing community and other socially marginalised groups Can the new people's campaign for decentralised development from below make Kerala's development experience more enduring What realistic view can be taken of its replicability elsewhere in India or further afield in the South These are among the most important questions explored in this timely reassessment
