Alternate Voices in the Contemporary Latin American Narrative David William Foster, 1985 The chapters in this volume are contributions toward a reassessment of contemporary Latin American writing and are based on the strategy of willfully imposing a perspective at radical variance with the existing bibliography on the subject By eschewing the approach of a historical overview by focusing on works that are not predominantly available in English translation by choosing categories that do not evoke prevailing literary norms and by concentrating on writings that rashly juxtapose well known works with relatively unknown ones the author hopes both to suggest a more comprehensive although necessarily fragmentary panorama of Latin American fiction and to suggest a consideration of works on the basis of criteria other than their international stature or the extent to which they represent Spanish language variations on modalities whose importance has been established by French or American example

Narrative Irony in the Contemporary Spanish-American Novel Jonathan Tittler, 2019-06-30 As a narrative device irony in the Latin American novel has been treated before in a rather fragmented non systematic way It needed a cohesive study based on close textual examination of several major novels Professor Tittler has done just that and done it well This book is the best and most comprehensive study of the ironic mode that we have Myron I Lichtblau Department of Foreign Languages and Literatures Syracuse University In this book Jonathan Tittler explores some of the many possibilities that the concept of irony holds for literary criticism Identifying irony as a characteristic property of Spanish American fiction Tittler offers close readings of seven important novels Carlos Fuentes *The Death of Artemio Cruz* Juan Rufo s *Pedro Paramo* Manuel Puig s *Betrayed* by Rita Hayworth Guillermo Cabrera Infante s *Three Trapped Tigers* Mario Vargas Llosa s *Aunt Julia and the Scriptwriter* Julio Cortazar s *A Manual for Manuel* and Isaac Goldemberg s *The Fragmented Life of Don Jacobo Lerner* Tittler begins with a comprehensive review of existing theories of irony in all of which the concept of narrative distance plays a major role Next he proposes his own innovative model for critical reading made up of two basic forms of irony which he terms static and kinetic He then applies the model systematically to his readings of the texts four in the static mode and three in the kinetic linguistically self conscious mode Tittler concludes by reflecting on the relationship between irony and the novel asserting that in the light of actual events in Spanish America the novels themselves and the critical discourse in which they are evoked may be regarded as ironic phenomena

Machado de Assis and Narrative Theory Earl E. Fitz, 2019-06-05 This book makes the argument that Machado de Assis hailed as one of Latin American literature s greatest writers was also a major theoretician of the modern novel form Steeped in the works of Western literature and an imaginative reader of French Symbolist poetry

Machado creates between 1880 and 1908 a new narrative one that will presage the groundbreaking theories of Swiss linguist Ferdinand de Saussure by showing how even the language of narrative cannot escape being elusive and ambiguous in terms of meaning. It is from this discovery about the nature of language as a self-referential semiotic system that Machado crafts his new narrative. Long celebrated in Brazil as a dazzlingly original writer, Machado has struggled to gain respect and attention outside the Lusophone Brazilian ken. He is the epitome of the outsider or marginal, the iconoclastic and wildly innovative genius who hails from a culture rarely studied in the Western literary hierarchy and so consigned to the status of eccentric. Had the Brazilian master written not in Portuguese but English, French or German, he would today be regarded as one of the true exemplars of the modern novel in expression as well as in theory. The Other America J. Michael Dash, 1998. A wide-ranging work that explores two centuries of Caribbean literature from a comparative perspective. While haunted by the need to establish cultural difference and authenticity, Caribbean thought is inherently modernist in its recognition of the interplay between cultures brought about by centuries of contact, domination and consent.
