University, University of the City of New York, 1916 **Constructing Mathematical Knowledge** Paul Ernest, 2012-10-12
First published in 1994 This book and its companion volume Mathematics Education and Philosophy An International
Perspective are edited collections Instead of the sharply focused concerns of the research monograph the books offer a
panorama of complementary and forward looking perspectives They illustrate the breadth of theoretical and philosophical
perspectives that can fruitfully be brought to bear on the mathematics and education The emphasis of this book is on
epistemological issues encompassing multiple perspectives on the learning of mathematics as well as broader philosophical
reflections on the genesis of knowledge It explores constructivist and social theories of learning and discusses the role of the
computer in light of these theories **Calendar** Bryn Mawr College, 1906
