**Dying Modern** Diana Fuss, 2013-04-12 In *Dying Modern* one of our foremost literary critics inspires new ways to read write and talk about poetry Diana Fuss does so by identifying three distinct but largely unrecognized voices within the well studied genre of the elegy the dying voice the reviving voice and the surviving voice Through her deft readings of modern poetry Fuss unveils the dramatic within the elegiac the dying diva who relishes a great deathbed scene the speaking corpse who fancies a good haunting and the departing lover who delights in a dramatic exit Focusing primarily on American and British poetry written during the past two centuries Fuss maintains that poetry can still offer genuine ethical compensation even for the deep wounds and shocking banalities of modern death As dying loss and grief become ever more thoroughly obscured from public view the dead start chattering away in verse Through bold original interpretations of little known works as well as canonical poems by writers such as Emily Dickinson Randall Jarrell Elizabeth Bishop Richard Wright and Sylvia Plath Fuss explores modern poetry's fascination with pre and postmortem speech pondering the literary desire to make death speak in the face of its cultural silencing

**Affective Genealogies** Elizabeth Jane Bellamy, 1997-01-01 *Affective Genealogies* is an incisive contribution to the current reassessment of postmodern culture and theory Elizabeth J Bellamy examines how the Holocaust and Jews have been represented in a wide range of French poststructuralist works Central to Bellamy's study is her questioning of whether the

non essentializing discourse of postmodernism can ever enable a genuine working through to an understanding of the horror of the Holocaust She concludes that much recent French thought encrypts but does not fully confront the trauma of the Holocaust Bellamy begins by surveying contemporary writings on Judaism the Holocaust and the crisis of memory She then closely examines recent French debates about Martin Heidegger's relationship to the Nazis focusing on Jacques Derrida's controversial defense of Heidegger's works Another chapter examines the works of Philippe Lacoue Labarthe and Jean Luc Nancy noting the ambiguous ways in which they portray the roles played by Jews in modern intellectual history The last chapter examines the representation of Judaism in Jean Francois Lyotard's writings Bellamy's book contributes to the recent revaluation of French postmodernism and to current studies on the representation of Jews and the Holocaust in Western literature and thought As Sander Gilman has noted the writers and works that were generated in France from Sartre to Lyotard have had a seminal role in shaping the international philosophical discourse about Jewish identity *Affective Genealogies* is an essential guide to that controversial and influential philosophical movement Elizabeth J Bellamy is an associate professor of English at the University of New Hampshire She is the author of *Translations of Power Narcissism and the Unconscious in Epic History*

**Queer Disappearance in Modern and Contemporary Fiction** Benjamin Bateman, 2023 *Queer Disappearance in Modern and Contemporary Fiction* breaks with appearance based models of queer performativity and argues for the experiential richness and political potentials of recessive tendencies in twentieth and twenty first century queer literary production The study theorizes a perish performative that allows for agency in practices of abeyance and it discovers within queerness's ample archive of vanishing acts an environmental ethos antithetical to inflationary versions of the human Tying modernist classics by E M Forster and Willa Cather to Andrew Holleran's gay classic *Dancer from the Dance* and then moving to the contemporary ecogothic of Lydia Millet's *How the Dead Dream* and the trans decadence of Shola von Reinhold's *Lote* the book refuses the common wisdom that queerness becomes louder and prouder over time delineating instead a minimalist and daydreaming subjectivity wherein queerness finds escape respite and varied opportunities for imaginative reverie This precarious subjectivity necessitated but not defined by oppression and obstacle rewards and restores the queer self and it also contests the logics of development acquisition and productivity that wreak havoc on the planet and entrench social disparities of race class and ability *Queer Disappearance in Modern and Contemporary Fiction* supplies multiple accounts of the collective and personal pleasures possibilities and perils to be found in pulling away going missing and taking a break

[Arctic Hysteria and Other Strange Northern Emotions](#) Elise Nykänen, 2024-11-08 *Arctic Hysteria and Other Strange Northern Emotions* Case Studies in Finnish Literature opens a new perspective on the thriving area of research on the imagined North by studying emotions in the light of case studies in Finnish literature The volume addresses the cultural history of Arctic hysteria and maps other strange emotions depicted and evoked in literature of the Finnish North The volume comprises seven case studies which range from the works of

internationally renowned authors such as Rosa Liksom Emmi Itäranta and Tove Jansson to the affectively controversial and provocative writings of Timo K. Mukka Marko Tapio and Pentti Linkola. Drawing from the study of the imagined North and theories and tools in the study of literature and emotions, the analyses show how such moods as melancholia, ecstasy, or a peculiar sense of November are generated in texts and how literary emotions entangle with the Northern environment they depict. By focusing on the imagined North in Finnish modernism and contemporary literature, the authors offer original views on experiences of late modernity merging with the changing Northern environment in the age of the Anthropocene.

*Staging and Stage Décor: Early Modern Spanish Theater* Bárbara Mujica, 2022-06-05 This is the first book on staging and stage décor to focus specifically on early modern Spanish theater from the 16th to the early 20th centuries. The introduction provides an overview of Spanish theater design from the 16th century with particular attention to the corral theater and Lope de Vega. The scope of the book is vast. Some of the articles deal with early modern stagings while others deal with contemporary productions. The collection contains articles by an international array of specialists on topics such as scenography and costuming, lighting and performance space. It also broaches little studied areas such as the use of alternative performance spaces, most notably prisons. The book provides in-depth analyses of particular archetypes: the melancholiac, the queen, the astrologer, and how they were and are staged. The focus on performance and performance space, costuming, set design, lighting, and audience seating make this a truly unique volume. This book is designed for students of Spanish literature and theater researchers interested in theater history and early modern Spain, as well as theater professionals.

*Remembering Masculinity in Early Modern Florence* Allison Mary Levy, 2006-01-01 This book nuances our understanding of commemorative portraiture in early modern Florence. The author argues that male and female portraiture, complexly generated within a discourse of male anxiety and pre-mortuary mourning, could pictorially console the subject against his own potentially unmourned death. Merging early modern visual culture and critical theories of the body, this book raises new questions about Renaissance portraiture and reconfigures our understanding of masculinity and mourning.

Early Modern Writing and the Privatization of Experience

Nick Davis, 2013-10-24 Reading a wide range of early modern authors and exploring their cultural historical philosophical and scientific contexts Early Modern Writing and the Privatization of Experience examines the shift in focus from reliance on shared experience to placing of trust in individualized experience which occurs in the writing and culture of the period Nick Davis contends that much of the era's literary production participates significantly in this broad cultural movement Covering key writers of the period including Shakespeare Donne Chaucer Spenser Langland Hobbes and Bunyan Davis begins with an overview of the medieval early modern privatizing cultural transition He then goes on to offer an analysis of King Lear Richard II Henry IV Part 1 The Winter's Tale and the first three books of The Fairie Queene among other texts considering their treatment of the relation between individual life and the life attributed to the cosmos the idea of symbolic narrative positing a collective human subject and the forming of pragmatic relations between individual and group Principles and Practice of Electroconvulsive Therapy Keith G. Rasmussen, M.D., 2019-03-06 Even with the rise of newer neuropsychiatric brain stimulation methods electroconvulsive therapy ECT remains a widely used treatment for severe mental illness and perhaps the most effective for serious mental illness Optimal treatment requires that psychiatrists be skilled in diagnosis and familiar with the techniques of treatment That's where Principles and Practice of Electroconvulsive Therapy comes in With its up to date comprehensive coverage of all aspects of ECT this is an unrivaled resource for psychiatrists whether in practice or still in training striving for maximum treatment efficacy The book begins with an overview of what ECT is and how it is carried out followed by a brief history of the therapy from its earliest applications to its use in modern times The guide follows the typical course of treatment discussing the following Understanding the indications for ECT and selecting patients who might benefit from this therapy whether they suffer from depression mania schizophrenia or catatonia Educating patients and their families on ECT and obtaining patient consent Conducting a pretreatment medical evaluation and understanding the role of anesthesia Managing an individual ECT treatment including choosing the electrical stimulus dose and parameter combination delivering the electrical stimulus assisting with recovery problems etc Overseeing the course of treatments particularly for practitioners not personally conducting the treatments Managing patients after a course of treatments and preventing relapse Assessing and managing the memory side effects of ECT The final chapter examines other neuropsychiatric stimulation therapies in relation to ECT and explains how to choose among them All chapters conclude with easily referenced key points that summarize the most salient ideas Readers seeking to further educate themselves on ECT will also benefit from the exhaustive reference list Though particularly useful for psychiatrists and psychiatric residents Principles and Practice of Electroconvulsive Therapy with its straightforward style is a ready resource for any mental health or medical professionals interested in ECT **Textual Healing: Essays on Medieval and Early Modern Medicine** Elizabeth Lane Furdell, 2021-09-20 Time, Narrative, and Emotion in Early Modern England David Houston Wood, 2016-02-24 Exploiting a link between early modern concepts of the medical and the literary David Houston Wood

suggests that the recent critical attention to the gendered classed and raced elements of the embodied early modern subject has been hampered by its failure to acknowledge the role time and temporality play within the scope of these admittedly crucial concerns Wood examines the ways that depictions of time expressed in early modern medical texts reveal themselves in contemporary literary works demonstrating that the early modern recognition of the self as a palpably volatile entity viewed within the tenets of contemporary medical treatises facilitated the realistic portrayal of literary characters and served as a structuring principle for narrative experimentation The study centers on four canonical early modern texts notorious among scholars for their structural that is narrative or temporal difficulties Wood displays the cogency of such analysis by working across a range of generic boundaries from the prose romance of Philip Sidney's *Arcadia* to the staged plays of William Shakespeare's *Othello* and *The Winter's Tale* to John Milton's stubborn reliance upon humoral theory in shaping his brief epic or closet drama *Samson Agonistes* As well as adding a new dimension to the study of authors and texts that remain central to early modern English literary culture the author proposes a new method for analyzing the conjunction of character emotion and narrative structure that will serve as a model for future scholarship in the areas of historicist formalist and critical temporal studies
