Browne,2013-11-05 Browne s famous work first published in 1902 was the essential text on literary history in Persian studies for many years As an overview of Persian literature from the earliest times until Firdawsi it continues to be a valuable reference Out of print for some time it is now reissued as a library edition in facsimile to capture the feel of the original edition   Indo-European Language and Culture Benjamin W. Fortson, IV,2009-08-17 This revised and expanded edition provides a comprehensive overview of comparative Indo European linguistics and the branches of the Indo European language family covering both linguistic and cultural material Now offering even greater coverage than the first edition it is the definitive introduction to the field Updated corrected and expanded edition containing new illustrations of selected texts and inscriptions and text samples with translations and etymological commentary Extensively covers individual histories of both ancient and modern languages of the Indo European family Provides an overview of Proto Indo European culture society and language Designed for use in courses with exercises and suggestions for further reading included in each chapter Includes maps a glossary a bibliography and comprehensive word and subject indexes   **A Grammar of the Persian Language** John Thompson Platts,1894   Persian Art Vladimir Lukonin,Anatoly Ivanov,2012-06-30 Housed in the Hermitage Museum along with other institutes libraries and museums in Russia and the republics of the former Soviet Union are some of the most magnificent treasures of Persian Art For the most part many of these works have been lost but have been catalogued and published here for the first time with an unsurpassed selection of colour plates In a comprehensive introduction Vladimir Lukonin Director of the Oriental Art section of the Hermitage Museum and his colleague Anatoli Ivanov have broadly documented the major developments of Persian Art from the first signs of civilisation on the plains of Iran around the 10th century BCE through the early 20th century In the second part of the book they have catalogued Persian Art giving locations origins descriptions and artist biographies where available Persian Art demonstrates a common theme which runs through the art of the region over the past three millennia Despite many religious and political upheavals Persian Art whether in its architecture sculpture frescoes miniatures porcelain fabrics or rugs whether in the work of the humble craftsmen or the high art of court painters displays the delicate touch and subtle refinement which has had a profound influence on art throughout the world   **Language Interrupted** John McWhorter,2007-06-18 Foreigners often say that English language is easy A language like Spanish is challenging in its variety of verb endings the verb speak is conjugated hablo hablas hablamos and gender for nouns whereas English is more straight forward I speak you speak we speak But linguists generally swat down claims that certain languages are easier than others since it is assumed all languages are complex to the same degree For example they will point to English s use of the word do Do you know French This usage is counter intuitive and difficult for non native speakers Linguist John McWhorter agrees that all languages are complex but questions whether or not they are all equally complex The topic of complexity has become a hot issue in recent years particularly in creole studies historical linguistics and language contact As McWhorter describes when languages came into

contact over the years when French speakers ruled the English for a few centuries or the vikings invaded England a large number of speakers are forced to learn a new language quickly and this came up with a simplified version a pidgin When this ultimately turns into a real language a creole the result is still simpler and less complex than a non interrupted language that has been around for a long time McWhorter makes the case that this kind of simplification happens in degrees and criticizes linguists who are reluctant to say that for example English is simply simpler than Spanish for socio historical reasons He analyzes how various languages that seem simple but are not creoles actually are simpler than they would be if they had not been broken down by large numbers of adult learners In addition to English he looks at Mandarin Chinese Persian Malay and some Arabic varieties His work will interest not just experts in creole studies and historical linguistics but the wider community interested in language complexity
