Neighbours The Work Of Philip Abrams:

Neighbours Philip Abrams,1986-02-27 First published in 1986 Neighbours is a study in both sociology and social policy

The Social Basis of Community Care (Routledge Revivals) Martin Bulmer,2015-06-11 Care for the elderly disabled and mentally ill within and by the community forms a vital part of current social policy Martin Bulmer argues that this policy is inadequately thought out and rests on a series of poorly founded sociological assumptions As a result there is a vacuum at the heart of government s social care policy which is likely to lead to ineffective or deteriorating provision for those in need This book first published in 1987 will be essential reading for all those concerned with the organization and delivery of social care whether as students practitioners or teachers It will be particularly useful for courses dealing with social policy the personal social services and the social context of social work

Neighbours around the World Lynda Cheshire,2022-08-18 Neighbours are a lively topic of everyday conversation and interest Neighbours Around the World takes a comparative look around the world at our relationships and interactions with the people living next door analysing the ways in which these relationships are changing in the face of large scale macro social and urban processes

Key Concepts in Community Studies Tony Blackshaw,2010 This book is both insightful and engaging enriched with diverse and up to date readings Tony Blackshaw lays bare debates surrounding the uses and abuses of key concepts of community studies and breathes new life into community as theory and community studies as method Peter Bramham Leeds Metropolitan University I would highly recommend this book to any student who is studying communities and groups in society The book and chapters are structured in a way that students will find it easy to move from one theme to another to dip into relevant chapters when needed to gain a good understanding of concepts and how and why they are applied to individuals and communities The book encompasses both breadth and depth of key concepts and issues This book will be compulsory reading on our Community Studies degree Lesley Groom University of Bolton This book defines the current identity of community studies provides a critical but reliable introduction to its key concepts and is an engaging guide to the key social research methods used by community researchers and practitioners Concise but clear it caters for the needs of those interested in community studies by offering cross referenced accessible overviews of the key theoretical issues that have the most influence on community studies today It incorporates all of the important frames of reference including those which are theoretical research focused practice and policy oriented political concerned about the place of community in everyday life The extensive bibliographies and up to date guides to further reading reinforce the aim of the book to provide an invaluable learning resource Interdisciplinary in approach and inventive in its range of applications this book will be of value to students studying sociology social policy politics and community development

Growing Old in the Twentieth Century Margot Jefferys,2005-09-23 Growing Old in the Twentieth Century investigates many aspects of the current debates raging regarding care and provision for the elderly and the very elderly It will be invaluable to gerontologists social policy makers official and

unofficial carers and anyone involved in health care Unravelling Criminal Justice David Downes, 2016-07-27 Brings together the major findings of 11 projects funded under the Crime and the Criminal Justice System Initiative by the Economic and Social Research Council in the mid 1980s **Doing Gender, Doing Geography** Saraswati Raju, Kuntala Lahiri-Dutt, 2012-12-06 Until the 1970s gender had been invisible in analyses of social space and place in the androcentric discipline of geography While recent contributions to feminist geography have challenged this in India the engagement of geographers with gender by being conservative in its choice of focus and orthodox in methodology has been unable to destabilise the established disciplinary order However with younger scholars becoming increasingly interested in studying gender in geography novel and innovative methods that include combinations of quantitative and qualitative analyses visual sources and in depth case studies are being tried out and accepted in geography despite its masculine legacy This pioneering study brings together Indian geographers contributions to understanding gender and through them seeks to enrich the discipline of geography It engages with the recent spatial turn in the social sciences which has reclaimed the explanatory power of space and place in social theory that had been nearly lost to deconstructive postmodernist scholarship The volume draws entirely from the Indian scholarship showcasing contextualised knowledge production but hopes to initiate a dialogue with scholars elsewhere working with feminist methodologies **Making Leisure Provision for People with Profound Learning and Multiple Disabilities** James Hogg, J. Cavet, 2013-11-11 **Understanding the Cost of Welfare** Howard Glennerster, 2017-05-24 The challenge of meeting the growing cost of welfare is one of the most pressing issues facing governments of our time Glennerster's authoritative *Understanding the cost of welfare* assesses what welfare costs and how it is funded sector by sector The book is written in a clear accessible style ideally suited to both teaching and study and the general reader This substantially revised third edition includes Discussion of the many funding issues now facing welfare states such as demographic change tax resistance slow growth and austerity programmes The theory and practice of devolved tax and budgetary responsibilities between UK nations and in comparison with other countries New chapters on pensions and post 16 education More regular and extensive comparative analysis Divided into 3 sections covering Principles Service funding and The Future the book Includes questions for discussion and suggestions for further reading making it an easy to use essential resource for both undergraduate and post graduate students of Social Policy Sociology Politics and Public Administration **Personal Networks** Mario L. Small, Brea L. Perry, Bernice Pescosolido, Edward B. Smith, 2021-09-16 Social networks are ubiquitous The science of networks has shaped how researchers and society understand the spread of disease the precursors of loneliness the rise of protest movements the causes of social inequality the influence of social media and much more Egocentric analysis conceives of each individual or ego as embedded in a personal network of alters a community partially of their creation and nearly unique to them whose composition and structure have consequences This volume is dedicated to understanding the history present and future of egocentric social

network analysis The text brings together the most important classic articles foundational to the field with new perspectives to form a comprehensive volume ideal for courses in network analysis The collection examines where the field of egocentric research has been what it has uncovered and where it is headed
