Netherlands Yearbook of International Law 2019 Otto Spijkers, Wouter G. Werner, Ramses A. Wessel, 2020-12-02 This volume of the Netherlands Yearbook of International Law NYIL is the fiftieth in the Series which means that the NYIL has now been with us for half a century The editors decided not to let this moment go by unnoticed but to devote this year's edition to an analysis of the phenomenon of yearbooks in international law Once the decision was made that this would be the subject of this year's NYIL the editors asked themselves a number of questions For instance Not many academic disciplines have yearbooks so what is the reason we do What is the added value of having a yearbook alongside the abundance of international law journals regular monographs and edited volumes that are published on a yearly basis Does the existence of yearbooks tell us something about who we are or who we think we are or what we have to contribute to the world These questions will be addressed both in a general and in a specific sense whereby a number of yearbooks published all over the world will be looked at in further detail The Netherlands Yearbook of International Law was first published in 1970 It offers a forum for the publication of scholarly articles in a varying thematic area of public international law

Netherlands Yearbook of International Law - 2005 P. A. Although the NYIL has a distinctive national character it is published in English and the editors do not adhere to any geographical limitations when deciding upon the inclusion of articles Netherlands Yearbook of International Law 2014 Mónika Ambrus, Ramses A. Wessel, 2015-05-15 The Netherlands Yearbook of International Law was first published in 1970 It offers a forum for the publication of scholarly articles of a more general nature in the area of public international law including the law of the European Union One of the key functions or purposes of international law and law in general for that matter is to provide long term stability and legal certainty Yet international legal rules may also function as tools to deal with non permanent or constantly changing issues and rather than stable international law may have to be flexible or adaptive Prima facie one could think of two main types of temporary aspects relevant from the perspective of international law First the nature of the object addressed by international law or the problem that international law aims to address may be inherently temporary temporary objects Second a subject of international law may be created for a specific period of time after the elapse of which this entity ceases to exist temporary subjects These types of temporariness raise several questions from the perspective of international law which are hardly addressed from a more conceptual perspective This volume of the Netherlands Yearbook of International Law aims to do exactly that by asking the question of how international law reacts to various types of temporary issues Put differently where does international law stand on the continuum of predictability and pragmatism when it comes to temporary issues or institutions Netherlands Yearbook of International Law, 1995 T. M. C. Asser Instituut, 1996-04-17 The 1995 Netherlands Yearbook of International Law contains expert articles on issues such as transnational terrorism limitations on the power of the UN Security Council to exercise its enforcement powers under Chapter VII of the Charter On the uniting of States in respect of treaties and the weighing of evidence in a dual national case at the Iran United States Claims Tribunal The documentation section surveys Dutch state practice for the parliamentary year 1993 1994 international agreements to which the Netherlands is a party Netherlands judicial decisions and municipal legislation involving questions of public international law and Dutch literature in the field of public international law and related matters This Yearbook is included in the 1995 subscription to the Netherlands International Law Review Volume 42

Netherlands Yearbook of International Law 2018 Janne E. Nijman, Wouter G. Werner, 2019-10-17 This volume of the Netherlands Yearbook of International Law explores the many faces of populism and the different manifestations of the relationship between populism and international law Rather than taking the so called populist backlash against globalisation international law and governance at face value this volume aims to dig deeper and wonders What backlash are we talking about really While populism is contextual and contingent on the society in which it arises and its relationship with international law and institutions thus has differed likewise this volume assists in our examination of what we find so dangerous about populism and problematic in its relationship with international law The Netherlands Yearbook of International Law was first published in 1970 It offers a forum for the publication of scholarly articles in a varying thematic

area of public international law div *Netherlands Yearbook of International Law 2016* Martin Kuijer, Wouter Werner, 2017-12-13 International law holds a paradoxical position with territory. Most rules of international law are traditionally based on the notion of State territory and territoriality still significantly shapes our contemporary legal system. At the same time, new developments have challenged territory as the main organising principle in international relations. Three trends in particular have affected the role of territoriality in international law: the move towards functional regimes, the rise of cosmopolitan projects claiming to transgress state boundaries, and the development of technologies resulting in the need to address intangible non-territorial phenomena. Yet notwithstanding some profound changes, it remains impossible to think of international law without a territorial locus. If international law is undergoing changes, this implies a reconfiguration of territory but not a move beyond it. The *Netherlands Yearbook of International Law* was first published in 1970. It offers a forum for the publication of scholarly articles of a conceptual nature in a varying thematic area of public international law.

Netherlands yearbook of international law Netherlands International Law Review. Interuniversity Institute for International Law, T.M.C. Asser Institute, The Hague, 1977 **Netherlands Yearbook of International Law 2011** I.F. Dekker, E. Hey, 2012-06-26 The *Netherlands Yearbook of International Law* was first published in 1970. It has two main aims. It offers a forum for the publication of scholarly articles of a more general nature in the area of public international law, including the law of the European Union. In addition, it aims to respond to the demand for information on state practice in the field of international law. Each Yearbook therefore includes documentation on Netherlands International Law practice.
