economic collapse of the early 1990s Today it confronts an array of disturbing social trends notably a population of more than one million hikikomori the young men who shut themselves in their rooms withdrawing from society There is also a growing numbers of parasite singles single women who refuse to leave home marry or bear children In this trenchant investigation Michael Zielenziger argues that Japan s tradition steeped society its aversion to change and its distrust of individuality are stifling economic revival political reform and social evolution Shutting Out the Sun is a bold explanation of Japan s stagnation and its implications for the rest of the world **Korea** Keith Pratt, Richard Rutt, 2013-12-16 Compiled by specialists from the University of Durham Department of East Asian Studies this new reference work contains approximately 1500 entries covering Korean civilisation from early times to the present day Subjects include history politics art archaeology literature etc The Dictionary is intended for students teachers and researchers and will also be of interest to the general reader Entries provide factual information and contain suggestions for further reading A name index and comprehensive cross reference system make this an easy to use multi purpose guide for the student of Korea in the broadest sense **Writing Women in Korea** Theresa Hyun, 2003-09-30 Writing Women in Korea explores the connections among translation new forms of writing and new representations of women in Korea from the early 1900s to the late 1930s It examines shifts in the way translators handled material pertaining to women the work of women translators of the time and the relationship between translation and the original works of early twentieth century Korean women writers The book opens with an outline of the Chos n period 1392 1910 when a vernacular writing system was invented making it possible to translate texts into Korean in particular Chinese writings reinforcing official ideals of feminine behavior aimed at women The legends of European heroines and foreign literary works such as those by Ibsen translated at the beginning of the twentieth century helped spur the creation of the New Woman Sin Y s ng ideal for educated women of the 1920s and 1930s The role of women translators is explored as well as the scope of their work and the constraints they faced as translators Finally the author relates the writing of Kim My ng Sun Pak Hwa S ng and Mo Yun Suk to new trends imported into Korea through translation She argues that these women deserve recognition for not only their creation of new forms of writing but also their contributions to Korea s emerging sense of herself as a modern and independent nation *Routledge Handbook of Modern Korean History* Michael Seth, 2016-01-29 Beginning in the mid nineteenth century when Korea became entangled in the world of modern imperialism and the old social economic and political order began to change this handbook brings together cutting edge scholarship on major themes in Korean History Contributions by experts in the field cover the Late Choson and Colonial periods Korea s partition and the diverging paths of North and South Korea Topics covered include The division of Korea Religion Competing imperialisms Economic change War and rebellions Nationalism Gender North Korea Under Kim Jong Il Global Korea The Handbook provides a stimulating introduction to the most important themes within the subject area and is an invaluable reference work for any student and researcher of Korean History The War for Korea, 1950-1951 Allan R. Millett, 2021-09-07 In The War

for Korea 1945 1950 A House Burning one of our most distinguished military historians argued that the conflict on the Korean peninsula in the middle of the twentieth century was first and foremost a war between Koreans that began in 1948 In the second volume of a monumental trilogy Allan R Millett now shifts his focus to the twelve month period from North Korea's invasion of South Korea on June 25 1950 through the end of June 1951 the most active phase of the internationalized Korean War Moving deftly between the battlefield and the halls of power Millett weaves together military operations and tactics without losing sight of Cold War geopolitics strategy and civil military relations Filled with new insights on the conflict his book is the first to give combined arms its due looking at the contributions and challenges of integrating naval and air power with the ground forces of United Nations Command and showing the importance of Korean support services He also provides the most complete and sympathetic account of the role of South Korea's armed forces drawing heavily on ROK and Korea Military Advisory Group sources Millett integrates non American perspectives into the narrative especially those of Mao Zedong Chinese military commander Peng Dehuai Josef Stalin Kim Il sung and Syngman Rhee And he portrays Walton Walker and Matthew Ridgway as the heroes of Korea both of whom had a more profound understanding of the situation than Douglas MacArthur whose greatest flaw was not his politics but his strategic and operational incompetence Researched in South Korean Chinese and Soviet as well as American and UN sources Millett has exploited previously ignored or neglected oral history collections including interviews with American and South Korean officers and has made extensive use of reports based on interrogations of North Korean and Chinese POWs The end result is masterful work that provides both a gripping narrative and a greater understanding of this key conflict in international and American history

Modern Korea and Its Others Vladimir Tikhonov, 2015-11-19 The period spanning the 1880s to 1945 was a crucially important formative time for Korea during which understandings of modernity were largely shaped by the images of Korea's neighbours to the east west and north China Japan and Russia represented at some moments modern threats but also denoted a range of alternative modernity possibilities and ultimately provided a model for Korea's pre colonial and colonial modernity This book explores the way in which modern Korea perceived its geographic neighbours from the 1890s until 1945 It shows that Korea's modern nationalism was at the same time internationalist in its orientation as the vision of Korea's ideal place in the world and brighter national future was often linked to the examples positive and negative threats perceived and real and allies abroad Exploring the importance of the international knowledge and experience for the formation of the Korean nationalist paradigms it offers nuance to the existing picture of the international connections and environment of the Korean national movements It shows that the picture of Japan inside the anti Japanese independence movement of the colonial period was more complicated than simple hatred of the invaders modern achievements of Japan were admired even by anti colonial nationalists as a possible model for Korea The book also demonstrates the extent to which Chinese and Soviet revolutions influenced the thinking of modern Korean intellectuals across the whole ideological spectrum Introducing new sources

presented in English for the first time and including themes such as race and ethnicity global revolution and gender this book will be of great interest to students and scholars of Korean East Asian and Russian history as well as historians of the colonial modern era more generally **Korea at the Center: Dynamics of Regionalism in Northeast Asia** Charles K.

Armstrong, Gilbert Rozman, Samuel S. Kim, Stephen Kotkin, 2016-09-16 The common images of Korea view the peninsula as a long standing battleground for outside powers and the Cold War s last divided state But Korea s location at the very center of Northeast Asia gives it a pivotal role in the economic integration of the region and the dynamic development of its more powerful neighbors A great wave of economic expansion driven first by the Japanese miracle and then by the ascent of China has made South Korea an economic powerhouse in its own right the hub of the region once again a natural corridor for railroads and energy pipelines linking Asiatic Russia to China and Japan And over the horizon an opening of North Korea with multilateral support would add another major push toward regional integration Illuminating the role of the Korean peninsula in three modern historical periods the eminent international contributors to this volume offer a fresh and stimulating appraisal of Korea as the key to the coalescence of a broad open Northeast Asian regionalism in the twenty fifth century

Migration and Religion in East Asia Jin-Heon Jung, 2016-04-29 This book sheds light on North Korean migrants Christian encounters and conversions throughout the process of migration and settlement Focusing on churches as primary contact zones it highlights the ways in which the migrants and their evangelical counterparts both draw on and contest each others envisioning of a reunified Christianized Korea *The Korean Tradition of Religion, Society, and Ethics* Chai-sik Chung, 2016-11-10 By making Korea a central part of comparative history of East Asian religion and society this book traces the evolution of Korean religion from the oldest representation to that of the current day by utilizing wide ranging interdisciplinary and comparative resources This book presents a holistic view of the enduring religious tradition of Korea and its cultural and social significance within the wider horizons of modern and globalizing changes Reflecting nearly five decades of the author s work on the subject it presents an understanding of the main current in Korean religion and social thought throughout history It then goes on to examine discourses on values and morality involving the relationship between religion and society in particular the human meaning of economy and society which is one of the most central and practical problems in the contemporary world with global relevance beyond Korea and Asia Addressing the overview of the Korean religious tradition in the context of its impact on the making of modern society and economy this book will appeal to students and scholars of Religious Studies Korean Studies and Asian Studies *Korea Between Empires, 1895-1919* Andre Schmid, 2002-07-17 Korea Between Empires chronicles the development of a Korean national consciousness It focuses on two critical periods in Korean history and asks how key concepts and symbols were created and integrated into political programs to create an original Korean understanding of national identity the nation state and nationalism Looking at the often ignored questions of representation narrative and rhetoric in the construction of public sentiment Andre Schmid traces

the genealogies of cultural assumptions and linguistic turns evident in Korea's major newspapers during the social and political upheavals of the late nineteenth and early twentieth centuries. Newspapers were the primary location for the reimagining of the nation, enabling readers to move away from the conceptual framework inherited from a Confucian and dynastic past toward a nationalist vision that was deeply rooted in global ideologies of capitalist modernity. As producers and disseminators of knowledge about the nation, newspapers mediated perceptions of Korea's precarious place amid Chinese and Japanese colonial ambitions and were vitally important to the rise of a nationalist movement in Korea.
