The design consists of numerous overlapping, angular shapes that create a sense of depth and movement, resembling a stylized, multi-faceted object or a series of intersecting planes. The overall effect is dynamic and modern.

DeRosa, 2020-07-23 In February 2019 Donald Trump announced the United States withdrew from the landmark Cold War era Intermediate Range Nuclear Forces Treaty with Russia sparking worldwide concerns over the specter of a new nuclear arms race The rational actor and game theoretic models dominating international relations literature failed to predict or explain this strategic choice Rationalist normative and materialist models of strategic choice saturate the study of international relations Scholars continue to expose the shortfalls in these approaches in explaining or predicting outcomes of strategic interactions In this timely study John P DeRosa advances a new model of strategic choice through a narrative lens This narrative turn reframes the logic to emphasize the propositions of motives perceptions preferences and the reflexive interaction of strategic choices Case studies of American and Russian nuclear arms control treaties from the negotiations of the Intermediate Range Nuclear Forces INF Treaty in 1987 to the crisis of the US withdrawal from the INF Treaty in 2019 support building a theory of narrativized strategic choice

Franz Conrad von Hötzendorf Lawrence Sondhaus, 2021-10-25 Did you ever wonder how and why Franz Conrad von Hötzendorf 1852 1925 earned his reputation for brilliance while failing so miserably during the First World War In examining Conrad s life and career including his years as a military writer teacher of tactics and a peacetime troop commander before 1906 this first modern biography offers a fascinating and impressive explanation of his thoughts and actions Franz Conrad von Hötzendorf 1852 1925 served as Austro Hungarian chief of the general staff between 1906 and 1917 and was a leading figure in the origins and conduct of the First World War In no other country did a single general serve as the leading prewar tactician prewar and wartime strategist and wartime army commander Because

Conrad filled all of these roles in Austria Hungary he had no equal among the military men leading the old order of Europe to destruction in 1914 1918 **Monthly Catalog of United States Government Publications** ,1969 **Interpretations of Conflict** Richard B. Miller,1991-11-15 Miller brings together the opposed traditions of pacifism and just war theory and puts them into a much needed dialogue on the ethics of war Publisher *The First Atomic Age* Matthew Lavine,2013-06-05 At the close of the 19th century strange new forms of energy arrested the American public s attention in ways that no scientific discovery ever had before This groundbreaking cultural history tells the story of the first nuclear culture one whose lasting effects would be seen in the familiar atomic age of the post war twentieth century **In Face of Reality** Thomas A. James,2011-04-01 This study of the work of noted liberal theologian Gordon Kaufman tracks his career from his first published book *Relativism Knowledge and Faith* 1960 through his 2006 book *Jesus and Creativity* in light of recent conversations about divine action and modern scientific knowledge James interprets Kaufman s mature position as a sophisticated reconstruction of divine activity that makes use of recent scientific theory and its naturalistic assumptions in order to revitalize a theocentric frame of reference rooted in classical theological tradition Though there are costs to be paid in the construction of a theology of radical naturalism particularly with respect to the relation between divine action and the human good Kaufman s program offers a distinctive way forward After developing a critical analysis of the limitations and possibilities of Kaufman s mature position James suggests that a christological reconsideration of the meaning of human flourishing offers the prospect of an even more radically naturalistic and theocentric theology **History, Metaphors, Fables** Hans Blumenberg,2020-06-15 *History Metaphors and Fables* collects the central writings by Hans Blumenberg and covers topics such as on the philosophy of language metaphor theory non conceptuality aesthetics politics and literary studies This landmark volume demonstrates Blumenberg s intellectual breadth and gives an overview of his thematic and stylistic range over four decades Blumenberg s early philosophy of technology becomes tangible as does his critique of linguistic perfectibility and conceptual thought his theory of history as successive concepts of reality his anthropology or his studies of literature *History Metaphors Fables* allows readers to discover a master thinker whose role in the German intellectual post war scene can hardly be overestimated **The Last Warrior** Andrew F Krepinevich,Barry D Watts,2015-01-06 Andrew Marshall is a Pentagon legend For more than four decades he has served as Director of the Office of Net Assessment the Pentagon s internal think tank under twelve defense secretaries and eight administrations Yet Marshall has been on the cutting edge of strategic thinking even longer than that At the RAND Corporation during its golden age in the 1950s and early 1960s Marshall helped formulate bedrock concepts of US nuclear strategy that endure to this day later at the Pentagon he pioneered the development of net assessment a new analytic framework for understanding the long term military competition between the United States and the Soviet Union Following the Cold War Marshall successfully used net assessment to anticipate emerging disruptive shifts in military affairs including the revolution in precision warfare

and the rise of China as a major strategic rival of the United States In *The Last Warrior* Andrew Krepinevich and Barry Watts both former members of Marshall's staff trace Marshall's intellectual development from his upbringing in Detroit during the Great Depression to his decades in Washington as an influential behind the scenes advisor on American defense strategy The result is a unique insider's perspective on the changes in US strategy from the dawn of the Cold War to the present day Covering some of the most pivotal episodes of the last half century and peopled with some of the era's most influential figures *The Last Warrior* tells Marshall's story for the first time in the process providing an unparalleled history of the evolution of the American defense establishment

Glimmer of a New Leviathan Campbell Craig, 2003-12-30 The Second World War put an end to America's historical isolation from international power politics and so also to the long standing American defiance of the Realist ideology that shaped Old World affairs The advent of transoceanic military technologies now wielded by menacing states such as Nazi Germany and the Soviet Union made Americans more receptive to the Realist idea that international relations is about fear and survival The American Realists Reinhold Niebuhr Hans Morgenthau and Kenneth Waltz developed a modern strategic framework that sought to introduce American leaders and the educated public to these harsher realities of international politics They emphasized a clear eyed cold approach to the play of interests egotism and the drive for power in world affairs a struggle in which the threat of major war remained in the end the only legitimate currency Yet even as Americans began to accept this new Realism thermonuclear weaponry threatened to make it absurd A major war to defend the nation might result in its total destruction a thermonuclear war leading to the death of hundreds of millions of citizens seemed an unusual way to preserve American survival This dilemma became central to the Realist understanding of Niebuhr Morgenthau and Waltz How could a Realist approach to international politics and war be sustained in the face of possible global annihilation *Glimmer of a New Leviathan* is the engrossing story of how the three chief architects of an influential ideology struggled with the implications of their own creation It offers crucial historical context for contemporary debates about weapons of mass destruction and the post Cold War international order
