gender equality by removing a number of restrictions Yet despite changes and initiatives on both domestic and international levels to integrate gender perspectives into the military not all states have improved to the same extent Some have successfully promoted gender integration in the ranks by erasing all forms of discrimination but others continue to impede it by setting limitations on equal access to careers combat and ranks Why do states abandon their policies of exclusion and promote gender integration in a way that women s military participation becomes an integral part of military force By examining twenty four NATO member states this book argues that civilian policymakers and military leadership no longer surrender to parochial gendered division of the roles but rather support integration to meet the recruitment numbers due to military modernization professionalization and technological advancements Moreover it proposes that increased pressure by the United Nations to integrate gender into security and NATO seeking standardization and consistency on the international level and women s movements on the domestic level are contributing to greater gender integration in the military Winner of the 2015 ERGOMAS Best Book in Civil Military Relations Award *Nursing History Review* American Association for the History of Nursing,2005 **Nurses' Work** Patricia D'Antonio, RN, PhD, FAAN, Ellen D.
