Knowing the Suffering of Others Austin Sarat, 2014-07-14 In *Knowing the Suffering of Others* legal scholar Austin Sarat brings together essays that address suffering as it relates to the law highlighting the ways law imagines suffering and how pain and suffering become jurisprudential facts From fetal imaging to end of life decisions torts to international human rights domestic violence to torture and the law of war to victim impact statements the law is awash in epistemological and ethical problems associated with knowing and imagining suffering In each of these domains we might ask How well do legal actors perceive and understand suffering in such varied domains of legal life What problems of representation and interpretation bedevil efforts to grasp the suffering of others What historical political literary cultural and or theological resources can legal actors and citizens draw on to understand the suffering of others In *Knowing the Suffering of Others* Austin Sarat presents legal scholarship that explores these questions and puts the problem of suffering at the center of thinking about law The contributors to this volume do not regard pain and suffering as objective facts of a universe remote from law rather they examine how both are discursively constructed in and by law They examine how pain and suffering help construct and give meaning to the law as we know it The authors attend to the various ways suffering appears in law as well as the different forms of suffering that require the law's attention Throughout this book law is regarded as a domain in which the meanings of pain and suffering are contested and constituted as well as an instrument for inflicting suffering or for providing or refusing its relief It challenges scholars lawyers students and policymakers to ask how various legal actors and audiences understand the suffering of others Contributors Montr D Carodine Cathy Caruth Alan L Durham Bryan K Fair Steven H Hobbs Gregory C Keating Linda Ross Meyer Meredith M Render Jeannie Suk John Fabian Witt *Pain, Penance, and Protest* Sara M. Butler, 2021-11-18 In medieval England a defendant who refused to plead to a criminal indictment was sentenced to pressing with weights as a coercive measure Using *peine forte et dure* strong and hard punishment as a lens through which to analyse the law and its relationship with Christianity Butler asks where do we draw the line between punishment and penance And how can pain function as a vehicle for redemption within the common law Adopting a multidisciplinary approach this book embraces both law and literature When Christ is on trial before Herod he refused to plead his silence signalling denial of the court's authority England's discontented subjects from hungry peasant to even King Charles I himself stood mute before the courts in protest Bringing together penance pain and protest Butler breaks down the mythology surrounding *peine forte et dure* and examines how it functioned within the medieval criminal justice system

When the State Kills Austin Sarat,2018-06-05 Is capital punishment just Does it deter people from murder What is the risk that we will execute innocent people These are the usual questions at the heart of the increasingly heated debate about capital punishment in America In this bold and impassioned book Austin Sarat seeks to change the terms of that debate Capital punishment must be stopped Sarat argues because it undermines our democratic society Sarat unflinchingly exposes us to the realities of state killing He examines its foundations in ideas about revenge and retribution He takes us inside the courtroom of a capital trial interviews jurors and lawyers who make decisions about life and death and assesses the arguments swirling around Timothy McVeigh and his trial for the bombing in Oklahoma City Aided by a series of unsettling color photographs he traces Americans evolving quest for new methods of execution and explores the place of capital punishment in popular culture by examining such films as *Dead Man Walking* *The Last Dance* and *The Green Mile* Sarat argues that state executions once used by monarchs as symbolic displays of power gained acceptance among Americans as a sign of the people s sovereignty Yet today when the state kills it does so in a bureaucratic procedure hidden from view and for which no one in particular takes responsibility He uncovers the forces that sustain America s killing culture including overheated political rhetoric racial prejudice and the desire for a world without moral ambiguity Capital punishment Sarat shows ultimately leaves Americans more divided hostile indifferent to life s complexities and much further from solving the nation s ills In short it leaves us with an impoverished democracy The book s powerful and sobering conclusions point to a new abolitionist politics in which capital punishment should be banned not only on ethical grounds but also for what it does to Americans and what we cherish

Teaching What We Do Richard Todd, Douglas C. Wilson, 1992-12-07 What goes on in a college classroom For all that has been written in recent years about higher education very little attention has been paid to the heart of the matter teaching This book by members of the Amherst College faculty helps to repair that oversight Amherst in defining itself places a large emphasis as it should on the life of the classroom No faculty member no matter how senior is excused from teaching no cadre of graduate students shoulders the load of introductory courses To teach is the central mission of an Amherst professor But seldom the only mission Almost everyone who teaches at Amherst also pursues research Maintaining the balance is sometimes frustrating but more often nourishing and exhilarating In his foreword Peter R Pouncey speaks of the way in which teaching and research cross fertilize each other He writes of the rejuvenating invitation of the classroom to confront the mild curiosity of the good natured young and see it rise in the face of your own interests and insistences first to eagerness and then to the sort of passion you remember and hope to sustain in yourself Again and again these essays by artist historian critic and scientist demonstrate that the pleasures and challenges of the classroom are inexhaustible And they provide us with glimpses of the true importance of the work that is done there As Professor Benjamin DeMott writes in a successful class the student is free to develop a thought to work up its implications to be unhurriedly serious about serious things in the company of attentive others At a time when the academy is under fire from various sides the reader will emerge from this book informed and heartened by its vision of the possibilities for higher education
