Peace Seekers:

Peace Seekers Jim Abrahamson, 2014-03-04 *Peace Seekers* is written for imperfect people seeking inner peace in an imperfect world. The book looks at three Biblical stories that reveal both paths and roadblocks to experiencing the peace that is embedded in the Christian message of grace. The book argues that the Christian life is so challenging that only one person has ever lived it. But the good news is that only one person had to in order for its benefits to be experienced by many. It is not about doing it about done. *Peace Seekers* should be especially helpful for people who struggle with guilt, shame, and an overly sensitive conscience, as well as for those who seek to minister to such people. The author is a pastor with three decades of pastoral teaching experience who has spent his years in ministry drinking from the well of God's grace in Christ and proclaiming it to others.

What He Said Mark West, 2020-08-31 American culture is adversarial to the teachings Jesus Christ laid out in the Sermon on the Mount. The pace of modern living challenges us to embrace a cultural understanding of our faith that is absent of the life Christ taught. In these pages, you will find the necessary reminder about the importance of what Jesus said and how living His words should look in our culture. National reawakening must begin with individual reawakening. We hope to begin a new Christian lifestyle that is centered on Christ's power that enables us to live simply by what He said in the Sermon on the Mount.

Psychology of Relationship Banking James Lynch, 1996-07-31 Jim Lynch's latest book focuses on one of the major threats to the banking industry: customer defection. The tradition of customers remaining loyal to their banks is fast disappearing. The economic and social threads which linked banker and client have become frayed and easily broken by recession and other forces of change. Customer relationships in all sectors are in need of repair, not just economically but psychologically. This book is a guide to bankers and others in financial services on how to forge, renew, or strengthen banking relationships.

War, Law and Humanity James Crossland, 2018-06-28 *War, Law and Humanity* tells the story of the transatlantic campaign to either mitigate the destructive forces of the battlefield or prevent wars from being waged altogether in the decades prior to the disastrous summer of 1914. Starting with the Crimean War of the 1850s, James Crossland traces this campaign to control warfare from the scandalous barracks of Scutari to the shambolic hospitals of the American Civil War, from the bloody sieges of Paris and Erzurum to the

combative conference halls of Geneva and The Hague uncovering the intertwined histories of a generation of humanitarians surgeons pacifists and utopians who were shocked into action by the barbarism and depravities of war By examining the fascinating personal accounts of these figures Crossland illuminates the complex motivations and influential actions of those committed to the campaign to control war demonstrating how their labours built the foundation for the ideas enshrined in our own times as international norms that soldiers need caring for weapons need restricting and wars need rules **50**

Stereotypes and Prejudice in Conflict Daniel Bar-Tal, Yona Teichman, 2009-12-03 In the last two decades the study of social stereotypes and prejudice has become one of the central interests in social psychology in particular One reflection of this growing interest is the focus on shared stereotypes and prejudices The primary reason for this development is the recognition that stereotypes and prejudice play a determinative role in shaping intergroup relations In situations of conflict they are simultaneously outcomes of the accumulated animosity between the involved groups and also feed on the continuation of the conflict by furnishing the cognitive affective basis for the experienced mistrust by the parties In spite of this recognition no systematic analysis of the stereotypes and prejudice was carried out in real situations This book tries to rectify this by applying a general and universal conceptual framework to the study of the acquisition and development of stereotypes and prejudice in a society involved in an intractable conflict
