Planet Earth Is A Cult:

Planet Earth is a Cult Chris Bunyan, 1996-01-01 The Cult of the Fox Xiaofei Kang, 2006 For more than five centuries the shamanistic fox cult has attracted large portions of the Chinese population and appealed to a wide range of social classes Deemed illicit by imperial rulers and clerics and officially banned by republican and communist leaders the fox cult has managed to survive and flourish in individual homes and community shrines throughout northern China In this new work the first to examine the fox cult as a vibrant popular religion Xiaofei Kang explores the manifold meanings of the fox spirit in Chinese society Kang describes various cult practices activities of worship and the exorcising of fox spirits to reveal how the Chinese people constructed their cultural and social values outside the gaze of official power and morality The Cults of the Greek States Lewis Richard Farnell, 1907 Imperial Cults and the Apocalypse of John Steven J. Friesen, 2001-10-25 After more than a century of debate about the significance of imperial cults for the interpretation of Revelation this is the first study to examine both the archaeological evidence and the Biblical text in depth Friesen argues that a detailed analysis of imperial cults as they were practiced in the first century CE in the region where John was active allows us to understand John's criticism of his society's dominant values He demonstrates the importance of imperial cults for society at the time when Revelation was written and shows the ways in which John refuted imperial cosmology through his use of vision myth and eschatological expectation **Ritual Passage, Sacred Journey** Richard P. Werbner, 1989 **Ritual and Mythology of the Chinese Triads** Barend ter Haar, 2021-08-30 The extensive ritual and mythological lore of the Chinese Triads form the scope of this new paperback title in Brill's Scholars List The author critically evaluates the extant sources and offers a wealth of contextual information The core of the book is formed by a close reading of the initiation ritual including the burning of incense the altar the enactment of a journey of life and death and the blood covenant Different narrative structures are also presented These include the messianic demonological paradigm political legitimation and the foundation of myth Triad lore is placed in its own religious and cultural context allowing radically new conclusions about its origins meanings and functions This book is of special interest to social historians anthropologists and students of Chinese religious culture **The Ritual and Mythology of the Chinese Triads** Barend ter Haar, 2021-11-15 The extensive ritual and mythological lore of the Chinese Triads form the scope of this new paperback in Brill's Scholar's List In it the reader will find a critical evaluation of the extant sources together with a true wealth of context The core of the book is formed by a close reading of the initiation ritual including the burning of incense the altar the enactment of a journey of life and death and the blood covenant Different narrative structures are also presented These include the messianic demonological paradigm political legitimation and the foundation of myth Triad lore is placed in its own religious and cultural context allowing radically new conclusions about its origins meanings and functions This book is of special interest to social historians anthropologists and students of Chinese religious culture Hirth Anniversary Volume Bruno Schindler, 1923

Consecrating Science Lisa H. Sideris, 2017-08-15 In *Consecrating Science* Lisa Sideris offers a searing critique of The New Cosmology a complex network of overlapping movements that claim to bring together science and spirituality all in the name of saving our planet from impending ecological collapse Highly regarded in many academic circles these movements have been endorsed by numerous prominent scholars scientists historians and educators Their express goal popularized in numerous books films TED talks YouTube videos podcasts and even introductory courses at places like Harvard or Washington University is to instill in readers and audiences a profound sense of being at home in the universe thereby fostering environmentally responsible behavior Whether promoted as The New Story The Universe Story or The Epic of Evolution they all offer humanity a new sacred story a common creation myth for modern times and for all people the evolutionary unfolding of the universe from the Big Bang to the present Evolutionary science and religious cosmology together at last But as Sideris shows however the New Cosmology actually underwrites a staggeringly anthropocentric vision of the world Instead of cultivating an ethic of respect for nature the project of consecrating science only increases human arrogance and indifference to nonhuman life Going back to the work of Rachel Carson and other naturalists the author shows how a sense of wonder rooted in the natural world and our own ethical impulses helps foster environmental attitudes and policies that protect our planet Provided by publishe

The Fundamental Principles of Old and New World Civilizations Zelia Nuttall, 1901 **The Sia** Matilda Coxe Stevenson, 1894 **Annual Report of the Bureau of Ethnology** Smithsonian Institution. Bureau of American Ethnology, 1894 **Bridges** Rosemary Gordon, 2017-11-30 This book encompasses a wide range of author s diverse explorations and provides readers with rich food for thought whether their interest is in clinical or cultural issues of the psyche It re examines the idea of the self and explores the distinction between symbols and symbolic experience **The American Antiquarian and Oriental Journal** , 1892 **Annual Report of the Bureau of Ethnology to the Secretary of the Smithsonian Institution** , 1894 **Annual Report of the Bureau of Ethnology to the Secretary of the Smithsonian Institution** Smithsonian Institution Bureau of Ethnology, 1894 *The American Antiquarian and Oriental Journal* Stephen Denison Peet, 1898 *The Dynamics of Clanship Among the Tallensi* Meyer Fortes, 2018-08-16 Originally published in 1945 this book analyses Tale social structure at the level of corporate group organization Tale culture is discussed primarily as the content of social relations and not in its own right Customs beliefs conventional usages religious values are examined as indices of social relations Although not a comparative study it is clear that many features of Tale social organization are typical of patrilineal societies in West Africa and some Tale institutions have parallels in South East and Central Africa Field work showed that every significant social activity among the Tallensi is tied up with the lineage system and the book therefore investigates the function of lineage in Tale social organization **Ethnology of the Ungava District** Lucien M. Turner, 1894 *Civilisation Recast* Stephan Feuchtwang, Michael Rowlands, 2019-07-25 Shows what humanity has borrowed and shared as a common heritage
