Progress in Plant Growth Regulation Cees M. Karssen, Leendert C. Loon, Dick Vreugdenhil, 1992 The current growing interest of molecular biologists in plant hormone research is a promising development Many papers were presented during the 14th International Conference on Plant Growth Substances illustrating the impact of this new approach on our understanding of hormone controlled processes The specific character is the integrated study of plant growth regulation at all levels ranging from single molecules to the entire plant and its functioning in the environment Plant Growth Regulators in Tropical and Sub-tropical Fruit Crops S.N. Ghosh, R.K. Tarai, T.R. Ahlawat, 2022-06-01 Plant growth regulators or plant bio regulators have emerged as a powerful tool for improving the performance of horticultural crops in general and fruit crops in particular This book provided recent information on role of plant hormones how their concentrations are regulated and how they modulate the various plant processes Plant Growth Regulators in Tropical Sub tropical Fruit Crops is a comprehensive book covering function of plant growth regulators in propagation including micro propagation growth flowering and fruiting behaviour yield quality shelf life and stress management etc This book has 26 chapters covering most of the tropical and sub tropical fruit crops like aonla avocado banana ber citrus custard apple date palm fig grape guava jamun kokam litchi mango mulberry papaya passion fruit sapota phalsa pomegranate and strawberry Note T F does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka *Proceedings of the 1987 International Deepwater Rice Workshop*, 1988 Plant Growth Regulating Chemicals Louis G. Nickell, 2018-01-18 The purpose of this two volume work is to make available both to the investigator and user on a crop by crop basis the latest information on the use of chemicals to regulate plant growth and development Emphasis is given to the major crops and to those which the most success has been achieved **Plant Growth Regulation** P. E. Pilet, 2012-12-06 The 9th International Conference on Plant Growth Substances was held at the University of Lausanne August 30 September 4 1976 This meeting was sponsored by the National Swiss Foundation for Scientific Research FNRS the Fonds Herbette of the Faculty of Sciences of Lausanne by several other official sources and by a few Swiss industries The conference was attended by over 420 scientists representing 42 countries with a total of 550 participants Our 9th conference was rather different from the previous ones The usual short submitted papers followed by a too brief discussion were replaced by three kinds of scientific communications First in the reports authors gave a critical analysis of a selection of broad topics directing their comments to new perspectives of research and methodology Second the paper demonstrations presented by over 200 scientists induced large and fruitful discussions and ensured that personal contacts were made Finally during four workshops several interesting points introduced in the reports and paper demonstrations were developed and discussed *Primary and Secondary Metabolism of Plants and Cell Cultures III* J. Schripsema, R. Verpoorte, 2012-12-06 Since 1984 and 1988 when meetings were held on the topic of primary and secondary metabolism of plant cell cultures there has been a clear shift of the

focus of ongoing research While the cell culture itself and the production of secondary metabolites and the biosynthetic pathways and the activity of enzymes were major topics now these aspects are linked with genes i e molecular biology becomes more prominent This state of the art book has contributions on such subjects as fermentation enzymology of secondary metabolism catabolism of secondary metabolites elicitation of pathways and genetic modification of metabolic pathways It includes contributions on the most recent achievements in the research on among other things tropane and indole alkaloids phenolics iso flavonoids terpenes and cardenolides It is an excellent review of the progress made in the past years and a perspective on the future developments
