*The Invention of English Criticism* Michael Gavin, 2015-05-05 Early literary criticism was undisciplined Unlike the staid essays and monographs of later academic scholarship English criticism first appeared in the contentious world of the London theater dramatists and other poets argued about their craft in contending prefaces and dedications and their disputes spilled into the public sphere in pamphlet wars mock epics lampoons and even novels Across these forms criticism was personal political and unconcerned with analysis for its own sake Yet this unruly discourse laid the groundwork both for modern literary criticism and for the discipline of literary studies *The Invention of English Criticism* explores the earliest uses of criticism and the attempts by some to convert a field of literary debate into an archive of useful knowledge Criticism s undisciplined past thus illuminates its contested ambivalent and never fully disciplined present **Authorship, Commerce, and Gender in Early Eighteenth-Century England** Catherine Ingrassia, 1998-11-05 The contemporaneous development of speculative investment and the novel in the early eighteenth century and women s role in both A Contradiction Still Christa Knellwolf King, 1998 This text offers a critique of the views concerning gender and gender roles in Pope s poetry It engages directly with current issues in feminist criticism cultural studies and identity politics **Alexander Pope and the Traditions of Formal Verse Satire** Howard D. Weinbrot, 2014-07-14 Ranging over the tradition of verse satire from the Roman poets to their seventeenth and eighteenth century imitators in England and France Howard D Weinbrot challenges the common view of Alexander Pope as a Horatian satirist in a Horatian age Originally published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while

**Music and History** Jeffrey H. Jackson, Stanley C. Pelkey, 2005 This book begins with a simple question Why haven't historians and musicologists been talking to one another Historians frequently look to all aspects of human activity including music in order to better understand the past Musicologists inquire into the social cultural and historical contexts of musical works and musical practices to develop theories about the meanings of compositions and the significance of musical creation Both disciplines examine how people represent their experiences This collection of original essays the first of its kind argues that the conversation between scholars in the two fields can become richer and more mutually informing The volume features an eloquent personal essay by historian Lawrence W Levine whose work has inspired a whole generation of scholars working on African American music in American history The first six essays address widely different aspects of musical culture and history ranging from women and popular song during the French Revolution to nineteenth century music publishing in Philadelphia Pennsylvania Two additional essays by scholars outside of musicology and history represent a new kind of disciplinary bridging by using the methods of cultural studies to look at cross dressing in nineteenth and early twentieth century opera and blues responses to lynching in the New South The last four essays offer models for collaborative multidisciplinary research with a special emphasis on popular music Jeffrey H Jackson Memphis Tennessee is assistant professor of history at Rhodes College He is the author of *Making Jazz French Music and Modern Life in Interwar Paris* Stanley C Pelkey Portage Michigan is assistant professor of music at Western Michigan University He is a member of the College Music Society and his work has appeared in music related periodicals

***The Cambridge Companion to Alexander Pope*** Pat Rogers, 2007-12-06 Alexander Pope was the greatest poet of his age and the dominant influence on eighteenth century British poetry His large oeuvre written over a thirty year period encompasses satires odes and political verse and reflects the sexual moral and cultural issues of the world around him often in brilliant lines and phrases which have become part of our language today This is the first overview to analyse the full range of Pope's work and to set it in its historical and cultural context Specially commissioned essays by leading scholars explore all of Pope's major works including the sexual politics of *The Rape of the Lock* the philosophical enquiries of *An Essay on Man* and the Moral Essays and the mock heroic of *The Dunciad* in its various forms This volume will be indispensable not only for students and scholars of Pope's work but also for all those interested in the Augustan age

***David Mallet, Anglo-Scot*** Sandro Jung, 2008 For the first time this study considers manuscript materials from a range of depositories to reconstruct Mallet's complex personality and to oppose this character to the one that Johnson published in the *Lives of the Poets* This study reads Mallet as an important voice within the eighteenth century literary scene

The Emergence of Literary Criticism in 18th-Century Britain Sebastian Domsch,2014-08-19 This study tries through a systematic and historical analysis of the concept of critical authority to write a history of literary criticism from the end of the 17th to the end of the 18th century that not only takes the discursive construction of its self representation into account but also the social and economic conditions of its practice It tries to consider the whole of the critical discourse on literature and criticism in the time period covered Thus it is distinctive through its methodology there is no systematic account of the historical development of critical authority and no discussion of the institutionalization of criticism of such a scope its material of analysis most of the many hundred texts self reflexively commenting on criticism that are discussed here have been so far virtually ignored and through its results a complex history of criticism in the 18th century that is neither reductive nor the accumulation of isolated aspects or author figures but that probes into the very nature of the activity of criticism The aim of this study is both to provide a thorough historical understanding of the emergence of criticism and as a consequence an understanding of the inner workings and power relations that structure criticism to this day

Communicational Criticism Roger D. Sell,2011 Further developing the line of argument put forward in his Literature as Communication 2000 and Mediating Criticism 2001 Roger D Sell now suggests that when so called literary texts stand the test of time and appeal to a large and heterogeneous circle of admirers this is because they are genuinely dialogical in spirit Their writers rather than telling other people what to do or think or feel invite them to compare notes and about topics which take on different nuances as seen from different points of view So while such texts obviously reflect the taste and values of their widely various provenances they also channel a certain respect for the human other to whom they are addressed So much so that they win a reciprocal respect from members of their audience In Sell s new book this ethical interplay becomes the focus of a post postmodern critique which sees literary dialogicality as a possible catalyst to new non hegemonic kinds of globalization The argument is illustrated with major reassessments of Shakespeare Pope Wordsworth Dickens Churchill Orwell and Pinter and there are also studies of trauma literature for children and of ethically oriented criticism itself

*Alexander Pope in the Making* Joseph Hone, 2021-01-28 How did Alexander Pope become the greatest poet of the eighteenth century Modern scholarship has typically taken Pope's rise to greatness and subsequent remoteness from lesser authors for granted As a major poet he is treated as the successor of Milton and Dryden or the precursor of Wordsworth Drawing on previously neglected texts and overlooked archival materials *Alexander Pope in the Making* immerses the poet in his milieu providing a substantial new account of Pope's early career from the earliest traces of manuscript circulation to the publication of his collected Works and beyond In this book Joseph Hone illuminates classic poems such as *An Essay on Criticism* *The Rape of the Lock* and *Windsor Forest* by setting them alongside lesser known texts by Pope and his contemporaries many of which have never received sustained critical attention before Pope's earliest experiments in satire panegyric lyric pastoral and epic are all explored alongside his translations publication strategies and neglected editorial projects By recovering values shared by Pope and the politically heterodox men and women whose works he read and with whom he collaborated this book constructs powerful new interpretive frameworks for some of the eighteenth century's most celebrated poems *Alexander Pope in the Making* mounts a comprehensive challenge to the Scriblerian paradigm that has dominated scholarship for the past eighty years It sheds fresh light on Pope's early career and reshapes our understanding of the ideological landscape of his era This book will be essential reading for scholars and students of eighteenth century literature history and politics
