*Decolonizing Indigeneity* Thomas Ward, 2016-12-20 While there are differences between cultures in different places and times colonial representations of indigenous peoples generally suggest they are not capable of literature nor are they worthy

of being represented as nations Colonial representations of indigenous people continue on into the independence era and can still be detected in our time The thesis of this book is that there are various ways to decolonize the representation of Amerindian peoples Each chapter has its own decolonial thesis which it then resolves Chapter 1 proves that there is coloniality in contemporary scholarship and argues that word choices can be improved to decolonize the way we describe the first Americans Chapter 2 argues that literature in Latin American begins before 1492 and shows the long arc of Mayan expression taking the Popol Wuj as a case study Chapter 3 demonstrates how colonialist discourse is reinforced by a dualist rhetorical ploy of ignorance and arrogance in a Renaissance historical chronicle Agustín de Zárate's *Historia del descubrimiento y conquista del Perú* Chapter 4 shows how by inverting the Renaissance dualist configuration of civilization and barbarian the Nahua Aztecs who were formerly considered barbarian can be civilized within Spanish norms This is done by modeling the categories of civilization discussed at length by the Friar Bartolomé de las Casas as a template that can serve to evaluate Nahua civil society as encapsulated by the historiography of Fernando de Alva Ixtlilxochitl a possibility that would have been available to Spaniards during that time Chapter 5 maintains that the colonialities of the pre Independence era survive but that Criollo indigenous dialogue is capable of excavating their roots to extirpate them By comparing the discussions of the hacienda system by the Peruvian essayist Manuel González Prada and by the Mayan Quiché eye witness to history Rigoberta Menchú this book shows that there is common ground between their viewpoints despite the different genres in which their work appears and despite the different countries and the eight decades that separated them suggesting a universality to the problem of the hacienda which can be dissected This book models five different decolonizing methods to extricate from the continuities of coloniality both indigenous writing and the representation of indigenous peoples by learned elites

**A Beauty That Hurts** W. George Lovell,2014-05-14 Though a 1996 peace accord brought a formal end to a conflict that had lasted for thirty six years Guatemala s violent past continues to scar its troubled present and seems destined to haunt its uncertain future George Lovell brings to this revised and expanded edition of A Beauty That Hurts decades of fieldwork throughout Guatemala as well as archival research He locates the roots of conflict in geographies of inequality that arose during colonial times and were exacerbated by the drive to develop Guatemala s resources in the nineteenth and early twentieth centuries The lines of confrontation were entrenched after a decade of socioeconomic reform between 1944 and 1954 saw modernizing initiatives undone by a military coup backed by U S interests and the CIA A United Nations Truth Commission has established that civil war in Guatemala claimed the lives of more that 200 000 people the vast majority of them indigenous Mayas Lovell weaves documentation about what happened to Mayas in particular during the war years with accounts of their difficult personal situations Meanwhile an intransigent elite and a powerful military continue to benefit from the inequalities that triggered armed insurrection in the first place Weak and corrupt civilian governments fail to impose the rule of law thus ensuring that Guatemala remains an embattled country where postwar violence and drug related crime undermine any semblance of orderly peaceful life
