Popular Culture In The Age Of White Flight:

Popular Culture in the Age of White Flight Eric Avila, 2006-04 In *Popular Culture in the Age of White Flight* Eric Avila offers a unique argument about the restructuring of urban space in the two decades following World War II and the role played by new suburban spaces in dramatically transforming the political culture of the United States Avila's work helps us see how and why the postwar suburb produced the political culture of balanced budget conservatism that is now the dominant force in politics how the eclipse of the New Deal since the 1970s represents not only a change of views but also an alteration of spaces George Lipsitz author of *The Possessive Investment in Whiteness*

California and the Making of Modern Sport Joel S. Franks, 2025-09-30 This book examines the importance of California a socio cultural economic and political powerhouse in the history of modern sport It argues that California has had a profound influence for better or worse on the way that not only America but also the wider world plays sport and spends money to watch others play The book traces the history of sport in California from the mid nineteenth century to the present and looks at how the state's historical development its climate and its unique racial and ethnic demographics have influenced sport at the elite level and in the wider community It considers the importance of spatial politics and cultural citizenship in the development of Californian sport and tells the story of how franchises such as the 49ers and the Lakers as well as individual athletes such as Jackie Robinson and Billie Jean King have had a profound influence on the way their sports have been consumed across America and in the wider world The book also takes a close look at the impact of mega sporting events in the Californian story providing historical context for the LA 2028 Olympic Games and tracing the full arc of the Californization of modern sports This is fascinating reading for anybody with an interest in sport history American history social and cultural history or the relationship between sport and wider society

Hate Thy Neighbor Jeannine Bell, 2013-06-18 Examines the role violence plays in maintaining housing segregation Despite increasing racial tolerance and national diversity neighborhood segregation remains a very real problem in cities across America Scholars government officials and the general public have long attempted to understand why segregation persists despite efforts to combat it traditionally focusing on the issue of white flight or the idea that white residents will move to other areas if their neighborhood becomes integrated In *Hate Thy Neighbor* Jeannine Bell expands upon these understandings by investigating a little examined but surprisingly prevalent problem of move in violence the anti integration violence directed by white residents at minorities who move into their neighborhoods Apprehensive about their new neighbors and worried about declining property values these residents resort to extra legal violence and intimidation tactics often using vandalism and verbal harassment to combat what they view as a violation of their territory *Hate Thy Neighbor* is the first work to seriously examine the role violence plays in maintaining housing segregation illustrating how intimidation and fear are employed to force minorities back into separate neighborhoods and prevent meaningful integration Drawing on evidence that includes in depth interviews with ordinary

citizens and analysis of Fair Housing Act cases Bell provides a moving examination of how neighborhood racial violence is enabled today and how it harms not only the victims but entire communities By finally shedding light on this disturbing phenomenon Hate Thy Neighbor not only enhances our understanding of how prevalent segregation and this type of hate crime remain but also offers insightful analysis of a complex mix of remedies that can work to address this difficult problem

supporting evidence that Los Angeles is a key place to study racial politics while also providing the basis for broader discussions of multiethnic America. The book features essays by historians, economists, and cultural and ethnic studies scholars alongside contributions by photographers and journalists working in Los Angeles.

Spaces of Conflict, Sounds of Solidarity Gaye Theresa Johnson, 2013-02-15. In *Spaces of Conflict, Sounds of Solidarity*, Gaye Theresa Johnson examines interracial, anti-racist alliances, divisions among aggrieved minority communities, and the cultural expressions and spatial politics that emerge from the mutual struggles of Blacks and Chicanos in Los Angeles from the 1940s to the present. Johnson argues that struggles waged in response to institutional and social repression have created both moments and movements in which Blacks and Chicanos have unmasked power imbalances, sought recognition, and forged solidarities by embracing the strategies, cultures, and politics of each other's experiences. At the center of this study is the theory of spatial entitlement: the spatial strategies and vernaculars utilized by working-class youth to resist the demarcations of race and class that emerged in the postwar era. In this important new book, Johnson reveals how racial alliances and antagonisms between Blacks and Chicanos in L.A. had spatial as well as racial dimensions.

Future West William Henry Katerberg, 2008. What is the future of the American West? This book looks at works of utopian, dystopian, and apocalyptic science fiction to show how narratives of the past and future powerfully shape our understanding of the present-day West.

The Persistence of Whiteness Daniel Bernardi, 2007-09-12. *The Persistence of Whiteness* investigates the representation and narration of race in contemporary Hollywood cinema. Ideologies of class, ethnicity, gender, nation, and sexuality are central concerns, as are the growth of the business of filmmaking. Focusing on representations of Black, Asian, Jewish, Latina/o, and Native Americans' identities, this collection also shows how whiteness is a fact everywhere in contemporary Hollywood cinema, crossing audiences, authors, genres, studios, and styles. Bringing together essays from respected film scholars, the collection covers a wide range of important films, including *Guess Who's Coming to Dinner*, *The Color Purple*, *Star Wars*, and *The Lord of the Rings*. Essays also consider genres from the western to blaxploitation and new black cinema, provocative filmmakers such as Melvin Van Peebles and Steven Spielberg, and stars including Whoopi Goldberg and Jennifer Lopez. Daniel Bernardi provides an in-depth introduction, comprehensive bibliography, and a helpful glossary of terms, thus providing students with an accessible and topical collection on race and ethnicity in contemporary cinema.

Playboy and the Making of the Good Life in Modern America Elizabeth Fraterrigo, 2009-11-05. Launched by Hugh Hefner in 1953, *Playboy* promoted an image of the young, affluent, single male, the man about town ensconced in a plush
