This book deals with reactions to geological discoveries in early nineteenth century England How did theologians cope with new scientific evidence of the antiquity of the world which was contrary to accepted biblical chronology And what repercussions did this picture have on philosophers poets and novelists The first part of the book concentrates on Charles Lyell s religious and scientific views This is followed by a study of William Buckland Adam Sedgwick and William Whewell three clergymen who were also geologists The last section explores the literary reception of the revolutionary discoveries of Lyell and his contemporaries

Romantic Rocks, Aesthetic Geology Noah Heringman,2011-02-23 Why are rocks and landforms so prominent in British Romantic poetry Why for example does Shelley choose a mountain as the locus of a voice to repeal large codes of fraud and woe Why does a cliff in the boat stealing episode of Wordsworth s *Prelude* chastise the young thief Why is petrification or stonifying in Blake s coinage the ultimate figure of dehumanization Noah Heringman maintains that British literary culture was fundamentally shaped by many of the same forces that created geology as a science in the period 1770 1820 He shows that landscape aesthetics the verbal and social idiom of landscape gardening natural history the scenic tour and other forms of outdoor improvement provided a shared vernacular for geology and Romanticism in their formative stages *Romantic Rocks, Aesthetic Geology* reexamines a wide range of eighteenth and nineteenth century poetry to discover its relationship to a broad cultural consensus on the nature and value of rocks and landforms Equally interested in the initial surge of curiosity about the earth and the ensuing process of specialization Heringman contributes to a new understanding of literature as a key forum for the modern reorganization of knowledge
