Between the years 1815 and 1945 Europe achieved unrivaled global dominance only to see it shattered by two world wars This frenetic rise and fall was attended by immense societal change In 1815 Europe remained largely agricultural and dependent upon horsepower By 1945 the power of the atom had been unleashed Two industrial revolutions occurred in the interim the first founded upon coal iron and steam the second upon oil steel electricity and internal combustion The implications for humanity were profound This concise yet comprehensive study is divided into three sections In section one the map of Europe emerges in its modern visage as unrestrained nationalist fervor gives rise to an assemblage of new nation states In section two the continent attains global hegemony as massive industrialization fuels a mad scramble for colonial markets and raw materials In section three a cauldron of national ethnic and class hatreds spawn the rise of totalitarianism and the overthrow of European hegemony in two calamitous world wars By tracing the events and undercurrents of this vital period in European history this book offers trenchant insights for the lay reader and the student of history alike *The Collapse and Recovery of Europe, AD 476-1648* Jack L. Schwartzwald, 2015-12-04 The collapse of the Western Roman Empire in the late 5th century A D marked the disintegration of order and security in Europe It would be twelve centuries of trial and error before a successor political system the nation state emerged to fill the void The Eastern

Roman Empire survived for a thousand years after the Western Empire's fall shielding the West from the encroachment of militant Islam. During the same millennium the Catholic Church unsuccessfully tried to resurrect a universal empire in the West. During the period of the Renaissance Reformation and Thirty Years War the nation state arose as Rome's successor. This is the story of those 1200 years an era that transformed the Western outlook from one bound to faith amidst chaos to one armed with reason and a belief in progress.

History Of The Indian Mutiny Of 1857-8 - Vol. I [Illustrated Edition] Sir John William Kaye, 2014-06-13. Illustrated with over one hundred maps, photos and portraits of the battles of the Indian Mutiny. By 1857 British power in India had been largely undisputed for almost fifty years; however, the armies of the East India Company were largely recruited from the native people of India. This inherent weakness would be exposed during the events of the Indian Mutiny of 1857-1858 as the Sepoy soldiers turned against their erstwhile British employers. The events that led up to the Revolt were many and varied, including British highhandedness, ignorance of local customs and religious values, and incendiary propaganda. It is generally argued that the spark that lit the flame was the rumour that the newly issued rifle cartridges would be greased either with tallow derived from beef and thereby offensive to Hindus, or lard derived from pork and thereby offensive to Muslims. The enraged soldiers mutinied across a number of Indian States, taking Delhi, besieging Lucknow, and revolting in Oudh. The rebellion was eventually quelled in 1858; however, the effects of the Mutiny were far ranging and important. The East India Company was dissolved and the British government set about reorganising all facets of its power in India, from the political to the administration, and most pointedly the military. Although India would not gain its Independence until 150 years later, the events of the Indian Mutiny stayed in the folk consciousness of the country; a number of the leaders were lionized in certain circles, and a measure of nascent nationhood was born. Of the many books written on the event, few are as well respected, accurate, frequently read, or cited as the six-volume history produced by two ex-British Army officers, Sir John Kaye and Colonel George Malleson, who had both served extensively in India. This first volume deals with the introductory causes and initial stages of the revolt to May 1857.
