Popular Fronts:

The Cultural Front Michael Denning, 1998 As garment workers longshoremen autoworkers sharecroppers and clerks took to the streets striking and organizing unions in the midst of the Depression artists writers and filmmakers joined the insurgent social movement by creating a cultural front Disney cartoonists walked picket lines and Billie Holiday sang Strange Fruit at the left wing cabaret Caf Society Duke Ellington produced a radical musical Jump for Joy New York garment workers staged the legendary Broadway revue Pins and Needles and Orson Welles and his Mercury players took their labor operas and anti fascist Shakespeare to Hollywood and made Citizen Kane A major reassessment of US cultural history The Cultural Front is a vivid mural of this extraordinary upheaval which reshaped American culture in the twentieth century *Gendered Compromises* Karin Alejandra Rosemblatt, 2003-06-19 With this book Karin Rosemblatt presents a gendered history of the politics and political compromise that emerged in Chile during the 1930s and 1940s when reformist popular front coalitions held power While other scholars have focused on the economic realignments and novel political pacts that characterized Chilean politics during this era Rosemblatt explores how gender helped shape Chile's evolving national identity Rosemblatt examines how and why the aims of feminists socialists labor activists social workers physicians and political leaders converged around a shared gender ideology Tracing the complex negotiations surrounding the implementation of new labor health and welfare policies she shows that professionals in health and welfare agencies sought to regulate gender and sexuality within the working class and to consolidate the male led nuclear family as the basis of societal stability Leftists collaborated in these efforts because they felt that strong family bonds would generate a sense of class belonging and help unify the Left while feminists perceived male familial responsibility as beneficial for women Diverse actors within civil society thus reworked the norms of masculinity and femininity developed by state agencies and political leaders even as others challenged those ideals **Renewal and Challenge**, 1990 *The Spanish Republic at War 1936-1939* Helen Graham, 2002-12-19 This book is a comprehensive 2002 analysis of the Spanish left during the civil war of 1936-9 **The Disintegration of the Monolith** Boris Kagarlitsky, 1992 In this book Boris Kagarlitsky offers a trenchant analysis of the break up of the Soviet Union and the transformation of a section of the old nomenklatura into a new possessing and ruling elite Kagarlitsky shows that Western commentators have been misled by the street theatre of events like the bungled coup of August 1991 into supposing that a fundamental break has been made with the confused politics and economics of the late Soviet period He analyses the ill considered and self interested attempts made by the nomenklatura to privatize assets and inaugurate a free market economy finding an essential continuity between the plans of Gorbachev's and Yeltsin's advisers He reveals too how the new Russian President has displayed a greater capacity to assert dictatorial powers than did the last General Secretary a tendency which has brought him into repeated conflict with elected bodies Boris Kagarlitsky is himself a Socialist member of the Moscow Soviet and one of the founders of Russia's new Party of Labour The Disintegration of the

Monolith furnishes both a memorable indictment of the greed and irresponsibility of Russia's new old rulers and a fascinating account of the slow but unmistakeable awakening of forces of resistance as the peoples of Russia and the other states of the former Soviet Union confront the hyper inflation shortages unemployment and general havoc wreaked by the free market experiment Kagarlitsky describes the gradual emergence of a new Russian trade unionism but warns that popular discontent is also being exploited by nationalist demagogues such as the leader of Russia's new Liberal Party For those seeking to understand what has changed in Russia and what has remained the same The Disintegration of the Monolith is required reading

Gorbachev and Perestroika Martin McCauley, 2016-07-27 This book provides a narrative and analysis of the first four years of the Gorbachev phenomenon All areas of great significance are covered Special attention is paid to the economy nationality affairs and foreign affairs Gorbachev's standing abroad is much higher than at home Seen by many abroad as a charismatic figure he has still to convince the average worker and farmer that perestroika is good for them The first four years present a fascinating tableau of Soviet change and resistance to change This book provides the reader with the insights to understand the processes now under way in the largest country in the world For those who wish to be informed about the Soviet Union and aim to follow events there it will be required reading

Literature among the Ruins, 1945-1955 Michael K. Bourdaghs, Richi Sakakibara, Hirokazu Toeda, Atsuko Ueda, 2018-05-07 In the wake of the disaster of 1945 as Japan was forced to remake itself from empire to nation in the face of an uncertain global situation literature and literary criticism emerged as highly contested sites Today this remarkable period holds rich potential for opening new dialogue between scholars in Japan and North America as we rethink the historical and contemporary significance of such ongoing questions as the meaning of the American occupation both inside and outside of Japan the shifting semiotics of literature and politics and the origins of what would become crucial ideological weapons of the cultural Cold War The volume consists of three interrelated sections Foregrounding the Cold War Structures of Concealment Cultural Anxieties and Continuity and Discontinuity Subjective Rupture and Dislocation One way or another the essays address the process through which new Japan was created in the postwar present which signified an attempt to criticize and reevaluate the past Examining postwar discourse from various angles the essays highlight the manner in which anxieties of the future were projected onto the construction of the past which manifest in varying disavowals and structures of concealment

Labour and the Left in the 1930s Ben Pimlott, 1977-09-08 The 1930s was the Red Decade of literary imagination Yet there has seldom been a time when the influence of the British Left has been at a lower ebb

The Rise And Fall Of Communism Richard H Hudelson, 2019-06-21 Writing this book has been a rewarding but challenging experience Along the way I have had the helpful comments and criticisms of a number of friends and colleagues Pat Maus Susanna Frenkel Kit Christensen and Carl Ross read the entire manuscript Steve Chilton Milan Kovacovic and Marina Rumyantseva read parts of it They and the reviewers for Westview Press have weeded out many errors and forced me to think through a number of

difficult points The errors and confusions that remain do so in spite of their best efforts I thank them all I would also like to thank Spencer Carr of Westview Press for his support of this project and for his editorial suggestions which resulted in major improvements Finally thanks to Jean Vileta for her editorial assistance in preparing the manuscript for publication

Immigrants and Nationalists Gershon Shafir, 1995-01-01 In this empirical and theoretical study of nationalism ethnicity and immigration the author compares the reception of large numbers of immigrants in Catalonia the Basque country Latvia and Estonia developed regions that possess distinct cultures and nationalist movements Creating New States Aleksandar Pavkovic, Peter Radan, 2016-05-13 Secession is the creation of a new independent state out of an existing state This key volume examines the political social and legal processes of the practice of secession Following an analysis of secessionist movements and their role in attempts at secession eight case studies are explored to illustrate peaceful violent sequential and recursive secessions This is followed by a look at the theoretical approaches and a discussion that focuses on the economic causes Normative theories of secession are discussed as well as the status of secession in legal theory and practice The book systematizes our present knowledge of secessions in an accessible way to readers not familiar with the phenomenon and its consequences It is ideal as a supplementary text to courses on contemporary political and social movements applied ethics and political philosophy international relations and international law state sovereignty and state formation European Socialists Respond to Fascism Gerd-Rainer Horn, 1996-11-21 Based on documents collected in six European countries European Socialists Respond to Fascism Ideology Activism and Contingency in the 1930s is a transnational study of largely parallel developments in Austria Belgium France Germany and Spain in the years 1933 1936 Triggered into action by the shock effect of the Nazi rise to power in Germany socialists throughout Western Europe entered an unusually active period of practical reorientation and debate over political strategy which helped determine the contours of European politics up to the outbreak of World War II and beyond Stressing the transnational dimension of this process while simultaneously integrating local regional and national factors this work finds that it was social democracy rather than communism that acted as the primary vehicle for radical change among European marxists during the 1930s Following major figures within the European left and the significant events that made up the inter war period Gerd Rainer Horn demonstrates the interconnectedness of Europe s interwar socialists Finally Horn manages to relate these findings to the ongoing interdisciplinary debate on structure agency and contingency in the historical process The Comintern Jeremy Agnew, Kevin McDermott, 1996-10-25 This accessible text provides a comprehensive narrative and interpretative account of the entire history of the Communist International 1919 1943 By incorporating the most recent Western and Soviet research the authors explain the legendary complexities of Comintern history and chart its degeneration from a revolutionary internationalist organisation into an obedient instrument of Soviet foreign policy Key themes include continuities and discontinuities between the Leninist and Stalinist phases Bolshevisation versus national traditions and the role of leading

individuals in the Comintern apparatus A selection of documents will elucidate these central themes
