Popular Struggles In South Africa:

Popular Struggles in South Africa Robin Cohen, William Cobbett, 2024-04-01 Popular Struggles or One Struggle Originally published in 1988 shortly after the miners strike in South Africa of 1987 this book begins with a strongly argued and seminal discussion of this question by William Cobbett and Robin Cohen The book had an urgency and relevance at its time of original publication but many of the themes it discusses remain as relevant today Nearly all the contributors were close to the sites of encounter and resistance they described but at the same time they and the editors place the individual cases within the historical context

Popular Struggles in South Africa William Cobbett, Robin Cohen, 1988

South Africa's Struggle to Remember Kim Wale, 2016-04-14 Transitional justice studies typically focuses on how nations remember face and deal with histories of past violence This book however shifts the frame from national discourses of transitional justice onto local memory actors who attempt to engage with these broader systems of meaning from below The case study is based on the memory struggles of individuals and groups who are attempting to gain access to the discourses and benefits associated with dominant memory identities of victim and veteran in the context of post transition South Africa They share a common history of squatter resistance in the Western Cape in the 1980s and a common struggle for inclusion in dominant memory frameworks The main theme of this book is the politics of memory as it relates to the conversation between national and local memory Integrated within this theme is the further theme of alternative histories and counter memories of struggle from below In focusing on counter memories of violence and transition this book aims to tell a different version of South African liberation history in relation to the dominant narrative It analyses local memory actors attempts to bring their lived histories into conversation with national discourses of reconciliation and the national liberation struggle In doing so it unpacks a memory paradox occurring within these narratives which highlights the politics of inclusion and exclusion within the frames of transitional justice knowledge On the one hand this alternate story exposes the paradox between local and national memory while on the other hand it brings into focus the local experience of the intersection between international transitional justice discourses and national transition politics This book will be of local and international interest to scholars and students in the field of transitional justice memory politics national liberation struggle and South African historiography It will also be of interest to a broader South Africa public as it offers a deeper understanding of South Africa s history which challenges taken for granted transitional justice frames of knowledge

History from South Africa Joshua Brown, 1991 More starkly than any other contemporary social conflict the crisis in South Africa highlights the complexities and conflicts in race gender class and nation These original articles most of which were written by South African authors are from a special issue of the *Radical History Review* published in Spring 1990 that mapped the development of interpretations of the South African past that depart radically from the official history The articles range from the politics of black movements in the nineteenth and twentieth centuries to studies of film television and theater as reflections of modern social conflict History

from South Africa is presented in two main sections discussions of the historiography of South Africa from the viewpoint of those rewriting it with a radical outlook and investigations into popular history and popular culture the production and reception of history in the public realm In addition two photo essays dramatize this history visually maps and a chronology complete the presentation The book provides a fresh look at major issues in South African social and labor history and popular culture and focuses on the role of historians in creating and interacting with a popular movement of resistance and social change

The ANC and the Liberation Struggle in South Africa Thula Simpson, 2018-10-03 The history of the ANC which is the oldest liberation movement on the African continent is one that has generated a great deal of interest amongst historians in recent years Gone are the days when the history of African nationalism could be relegated to the margins of the study of the South African past Instead with the ANC having ascended to the helm of political power a position it has maintained for over twenty years there can be no question that its history occupies an important and permanent place in the history of the nation This volume gathers together some of the most important contributions to the literature on the ANC s role in South Africa s struggle for liberation Besides important themes such as gender ethnicity and healthcare contributions from leading historians also address why the ANC decided to engage in armed struggle what role the South African Communist Party played in making this decision how the ANC External Mission contributed to the upsurge of mass protest in South Africa in the 1970s and 1980s and the ANC s contribution relative to the other components of the liberation struggle in ensuring the eventual demise of the old racial order The chapters in this book were originally published in the South African Historical Journal the Journal of Southern African Studies and African Studies

Student Resistance to Apartheid at the

University of Fort Hare Rico Devara Chapman, 2016-05-12 The book explores forms of popular student resistance to apartheid education in South Africa particularly at the University of Fort Hare UFH by tracing student activism at UFH from 1970 to 2000 highlighting the factors that influenced the development of a culture of student resistance investigating the root causes that made Fort Hare exceptional in its stand against apartheid and chronicling the educational and social implications that resulted from students unparalleled and fearless actions against the apartheid system Student resistance at Fort Hare can be traced as far back as the 1940s however this book will primarily focus on the critical 1970 2000 period which was marked by increased student activism in South Africa The 1980s and 1990s were peak years for student activism in the country There is no doubt that student struggles during this period and thereafter helped dismantle apartheid and usher in a new South African government

Southern Resistance in Critical Perspective Marcel Paret, Carin

Runciman, Luke Sinwell, 2017-03-27 From the Arab Uprising to anti austerity protests in Europe and the US Occupy Movement to uprisings in Brazil and Turkey resistance from below is flourishing Whereas analysts have tended to look North in their analysis of the recent global protest wave this volume develops a Southern perspective through a deep engagement with the case of South Africa which has experienced widespread popular resistance for more than a decade Combining critical theoretical perspectives with extensive qualitative fieldwork and rich case studies Southern Resistance in Critical Perspective situates South Africa's contentious democracy in relation to both the economic insecurity of contemporary global capitalism and the constantly shifting political terrain of post apartheid nationalism The analysis integrates worker community and political party organizing into a broader narrative of resistance bridging historical divisions between social movement studies labor studies and political sociology

Beyond Our Wildest Dreams Ineke van Kessel, 2000

The 1980s in South Africa were marked by protest violent confrontation and international sanctions Internally the country saw a bewildering growth of grassroots organizations including trade unions civic associations in the black townships student and other youth organizations church based groups and women's movements many of which operated under the umbrella of the United Democratic Front UDF Beyond Our Wildest Dreams explores the often conflicted relationship between the UDF's large scale resistance to apartheid and its everyday struggles at the local level In hindsight the UDF can be seen as a transitional front preparing the ground for leaders of the liberation movement to return from exile or prison and take over power But the founding fathers of the UDF initially had far more modest ambitions Interviews with Cachalia and other leading personalities in the UDF examine the organization's workings at the national level while stories of ordinary people collected by the author illuminate the grassroots activism so important to the UDF's success Even in South Africa writes Ineke van Kessel who covered the anti apartheid movement as a journalist resistance was not the obvious option for ordinary citizens Van Kessel shows how these people were mobilized into forming a radical social movement that developed a highly

flexible and innovative form of resistance that ultimately ended apartheid From publisher s description *Heart of Whiteness* June Goodwin, Ben Schiff, 1995 When South Africa s present transitional government comes to an end apartheid will be dead But just as the demise of slavery did not solve America s race problems so the abolition of apartheid will only begin South Africa s healing process *Heart of Whiteness* examines the cataclysmic changes taking place among Afrikaners the white tribe of South Africa *State, Civil Society and Apartheid in South Africa* T. Kuperus, 1999-04-07 An examination of the role played by civil society in the legitimisation of South Africa s apartheid regime and its racial policy This book focuses on the interaction of dominant groups within the Dutch Reformed Church and the South African state over the development of race policy within the broader context of state civil society relations This allows a theoretical examination and typology of the variety of state civil society relations Additionally the particular case study demonstrates that civil society s existence in and authoritarian situations can deter the establishment of democracy when components of civil society identify themselves with exclusive ethnic interests **The Uncertain Promise of Southern Africa** York W. Bradshaw, Stephen N. Ndegwa, 2000 In the 1970s and 1980s Indiana University Press published a series of books edited by Gwendolen Carter and others on economic and political conditions in Southern Africa during the apartheid era *The Uncertain Promise of Southern Africa* is a return to that successful format in the post apartheid era Leading scholars analyze the economic political social and cultural conditions in Southern Africa and the prospects for the region The first part of the book examines the current political and development situation in six countries South Africa Namibia Botswana Zimbabwe Angola and Mozambique The second part focuses on issues of enduring importance in the region education health gender the law intra and inter regional power relations international commerce and popular culture *The Road to Democracy in South Africa: 1970-1980* South African Democracy Education Trust, 2004 v 3 The third volume in the series examines the role of anti apartheid movements around the world The global anti apartheid movement was very successful in creating awareness of the liberation struggle in South Africa and in contributing to the downfall of the apartheid government This volume in 2 parts brings together analyses which in the main are written by activist scholars with deep roots in the movements and organizations they are writing about **Rethinking the Labour Movement in the 'New South Africa'** Franco Barchiesi, 2019-01-15 Title first published in 2003 In recognition of the power of organised labour the ANC Government elected in 1994 granted South Africa s unions unprecedented legal and constitutional rights Despite these gains the country s unions have faced a fresh set of challenges many of them emanating from their political allies in Government From Parliament to the factory floor South Africa s unions are now confronted with threats as dangerous as those they confronted when organising illegally in the heyday of apartheid The purpose of this book is to examine how South African unions have responded and how well prepared they are to meet the challenges that confront them in the new millennium *In Whose Image?* Abdou Maliqalim Simone, 1994-07-15 A Muslim scholar with extensive experience in Africa T Abdou Maliqalim

Simone was recruited by the Islamic fundamentalist Shari'a Movement in Sudan to act as consultant for its project to unite Muslims and non Muslims in Khartoum's shanty towns. Based on his interviews with hundreds of individuals during this time plus extensive historical and archival research, *In Whose Image* is a penetrating examination of the use of Islam as a tool for political transformation. Drawing a detailed portrait of political fundamentalism during the 1985-89 period of democratic rule in the Sudan, Simone shows how the Shari'a Movement attempted to shape a viable social order by linking religious integrity and economic development where religious practice was to dominate all aspects of society and individuals' daily lives. However, because Sudanese society is remarkably diverse ethnically and religiously, this often led to conflict, fragmentation and violence in the name of Islam. Simone's own Islamic background leads him to deplore the violence and the devastating psychological, economic and cultural consequences of one form of Islamic radicalism while holding to hope that a viable form of this inherently political religion can in fact be applied. As a counterpoint, he ends with a discussion of South Africa's Call of Islam which seeks political unity through a more tolerant interpretation of Islam. As an introduction to religious discourse in Africa, this book will be widely read by students and scholars throughout African Studies, Religious Studies, Anthropology and Political Science.

Politics and Society in South Africa Daryl Glaser, 2000-12-22 Darryl Glaser supplies an illuminating overview of the scholarship since 1970 on South Africa's political history. His emphasis is on the debates between liberals, Marxists and to a lesser extent post structuralists about the origins and the course of South Africa's racial order. Tom Lodge, University of Witwatersrand. A well researched, well argued, readable, interesting, informative and competent study. *Capital and Class* Providing a wide ranging and critical introduction to contemporary South Africa, this book uses an interdisciplinary lens to introduce the student to the main debates, historical context and issues that have characterized the study of South Africa over the last three decades. Key topics include the role of colonialism, capitalism and modernity in the formation of the racial order, changes in the South African state, questions of class, race and ethnicity, black resistance and the transition to democracy. A number of underlying debates are critically evaluated. For example, the contribution of materialist and class analytic approaches, the application of post structuralism and theories of modernity and the prospects for democratic liberalism and socialism in post apartheid South Africa.
