*A Dictionary*

*of Music Titles* Adrian Room, 2024-10-15 The title of a great musical composition is not always a clear or simple matter. An allusive title, particularly in a foreign language or a title that does not seem related to the work, can confuse even the most devoted music lover. Here are histories of the creation of 3,500 titles for symphonies, operas, oratorios, ballets, orchestral works, choral works, chamber music, keyboard compositions, and songs ranging from the popular to the obscure. Each entry, arranged by English, French, German, Italian, or Spanish title, includes alternate titles where appropriate, the composer's name, date of composition, and first performance, opus number where appropriate, a description of the work, and the origin of the title or any story behind it. A bibliography and an index conclude the work.

*Music of the First World War* Don Tyler, 2016-03-21 This book discusses WWI-era music in a historical context, explaining music's importance at home and abroad during WWI as well as examining what music was being sung, played, and danced to during the years prior to America's involvement in the Great War. Why was music so important to soldiers abroad during World War I? What role did music, ranging from classical to theater music, rags, and early jazz, play on the American homefront? *Music of the First World War* explores the tremendous importance of music during the years of the Great War when communication technologies were extremely limited and music often took the place of connecting directly with loved ones or reminiscing via recorded images. The book's chapters cover music's contribution to the war effort, the variety of war-related songs, popular hits, and top recording artists of the war years; the music of Broadway shows and other theater productions; and important composers and lyricists. The author also explores the development of the fledgling recording industry at this time.

**The Da Capo Catalog Of Classical Music Compositions** Jerzy Chwiłkowski, 1996-03-21 An exhaustive list of the works of 132 major composers. Gives the essential information about each work, including proper title, English title, variant titles or nicknames, dates of composition and revision, names of any librettists, playwrights, poets, screenwriters, or directors associated with the work, intended instrumental or vocal ensemble, opus and catalog numbers.

**"Silk and Bamboo" Music in Shanghai** John Lawrence Witzleben, 1995 This is a study of one of China's most influential regional musical traditions, the Jiangnan sizhu string and wind music of Shanghai. The in-depth approach adopted reveals much about Chinese musical culture.

*This Business of Songwriting* Jason Blume, 2006 To make money, songwriters need a firm, realistic grasp of how songs generate income. This volume demystifies the process of doing business as a songwriter. It walks the reader step by step through the process of starting and operating a publishing company, teaches how to pitch songs to publishers, and more.
