Robert Lee, 2002-01-01 This volume brings together ten original papers on the population dynamics and development of Western European port cities In a substantial overview chapter Lawton and Lee examine Port Development and the Demographic Dynamics of European Urbanisation setting in context the individual case studies that follow These studies of Bremen Cork Genoa Glasgow Hamburg Liverpool Malm Nantes Portsmouth and Trieste provide an important enhancement of our understanding of the particular socio economic and demographic characteristics of port cities and point to the existence of a particular port demographic regime They emphasize the central importance of the high proportion of unskilled and casual labor the susceptibility of cyclical employment the inflated risk of epidemic infection and other demographic and economic factors specific to port cities      *Historical Dictionary of France* Gino Raymond, 2008-10-23 From the construction of Notre Dame and the Eiffel Tower to the Fall of the Bastille and the Declaration of the Rights of Man and the Citizen to Napoleon Bonaparte's defeat at Waterloo to Albert Camus L'Etranger and the existentialism of Jean Paul Sartre France has been a part of some of the greatest and most memorable events in human history Author Gino Raymond relates the history of these events in the second edition of the *Historical Dictionary of France* Through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on kings politicians authors architects composers artists and philosophers a thorough history of France is presented

**Population and Society in Twentieth Century France** Colin L. Dyer, 1978-05-01      *Social Inequality and Class Radicalism in France and Britain* Duncan Gallie, 1984-01-26 This book first published in 1983 examines in depth the nature and sources of class radicalism in France and Britain and takes issue with some of the major theories of class consciousness and class action Drawing on data both from detailed case studies and from wider national surveys it shows that the conflict of class interests within capitalist societies can lead to sharply diverging attitudes to class inequality It argues that the explanation of such differences cannot be found in some general law of the evolution of social conflict in capitalist society It must be sought in the profound institutional differences that exist between the two societies In particular the study argues for a reassessment of the importance of the experience of war and of the way in which the business and political elite handled the social crises generated by war in accounting for the long term structural divergence of capitalist societies

**Demography, Territory & Law: Rules of Animal & Human Populations** Sheila Newman, 2011-11-29 Newman shows how one land tenure and inheritance system can doom us to overpopulation and poverty where the other system can and does promote steady state economies Back cover      *War and Society in 20th Century France* Michael Scriven, 1991 Presents a vivid picture of the various ways in which the French people experienced war resistance and collaboration the colonial wars the military and the state the military industrial complex war propaganda and literary and cultural representations of war

Contemporary France D. L. Hanley, A. P. Kerr, Miss A P Kerr, N. H. Waites, 2005-08-17 Many recent studies of French politics have tended to concentrate on the French political system in isolation Contemporary France aims to set the working of the French political system into its historical social and economic context The first section gives a succinct description of the main developments since 1944 in all major contexts economy society domestic politics and foreign relations The authors then analyse the economic social and cultural structures of present day France and discuss the institutional framework of decision making and the major political forces involved in it There are also chapters on French external and defence policy and on the education system all of which are set in the context of the political system as a whole Aimed primarily at students of European history and politics or of French society and culture the book assumes little knowledge in the social sciences and will be readily accessible to beginners in this field Culture and Society in France 1789-1848 F. W. J. Hemmings, 2011-09-28 This book first published in 1987 complements the author's earlier volume on Culture and Society in France 1848-1898 It deals with the interaction of social history and cultural history covering in succession the Revolutionary period the Napoleonic Empire the Restoration and the July Monarchy The scope of the book embraces literature the drama poetry and the novel the art of the Revolution and of Romanticism and to a lesser extent music including the opera sculpture and architecture Influential figures such as Jacques Louis David Stendhal Berlioz Victor Hugo and others have their place in the survey together with others prominent in their time but less well known today Attention is drawn to phenomena such as the rise of the commercial theatre and the assembling under Napoleon's aegis of the first public art gallery in Europe the Musée du Louvre The survey brings together all the disparate strands to present a coherent picture of the cultural life of France as it evolved during the sixty momentous years between the French Revolution and the upheaval of 1848 *Dark Continent* Mark Mazower, 2009-05-20 An unflinching and intelligent alternative history of the twentieth century that provides a provocative vision of Europe's past present and future A splendid book The New York Times Book Review Dark Continent provides an alternative history of the twentieth century one in which the triumph of democracy was anything but a forgone conclusion and fascism and communism provided rival political solutions that battled and sometimes triumphed in an effort to determine the course the continent would take Mark Mazower strips away myths that have comforted us since World War II revealing Europe as an entity constantly engaged in a bloody project of self-invention Here is a history not of inevitable victories and forward marches but of narrow squeaks and unexpected twists where townships boast a bronze of Mussolini on horseback one moment only to melt it down and recast it as a pair of noble partisans the next **Journal of the Statistical Society of London** Statistical Society (Great Britain), 1873 Published papers whose appeal lies in their subject matter rather than their technical statistical contents Medical social educational legal demographic and governmental issues are of particular concern **State and Society in Eighteenth-Century France** Stephen Miller, 2008 Continuing where William Beik's pathbreaking seventeenth century study ends this book sheds new light on the origins of the French Revolution and

the social and political developments thereafter     **Journal of the Statistical Society of London** Royal Statistical Society (Great Britain),1889     Journal of the Royal Statistical Society Royal Statistical Society (Great Britain),1909 Published papers whose appeal lies in their subject matter rather than their technical statistical contents Medical social educational legal demographic and governmental issues are of particular concern     The Penny Cyclopaedia of the Society for the Diffusion of Useful Knowledge ,1838     Absolutism and Society in Seventeenth-Century France William Beik,1985 This analysis of the provincial reality of absolutism argues that the relationship between the regional aristocracy and the crown was a key factor in influencing the traditional social system of seventeenth century France     *Journal of the Society of Arts* Royal Society of Arts (Great Britain),1905     Language and Society Andrew Simpson,2019-01-02 Language and Society is a broad introduction to the interaction of language and society intended for undergraduate students majoring in any academic discipline The book discusses the complex socio political roles played by large dominant languages around the world and how the growth of major national and official languages is threatening the continued existence of smaller minority languages As individuals adopt new ways of speaking many languages are disappearing others are evolving into hybrid languages with distinctive new forms and even long established languages are experiencing significant change with young speakers creating novel expressions and innovative pronunciations Making use of a wide range of case studies selected from the Americas Europe Asia and Africa Andrew Simpson describes and explains key factors causing language variation and change which relate to societal structures and the expression of group and personal identity The volume also examines how speakers knowledge of language acts as an important force controlling access to education advances in employment and the development of social status Additional topics discussed in the volume focus on the global growth of English gendered patterns of language use and the influence of language on perception     Journal of the Royal Society of Arts Royal Society of Arts (Great Britain),1901     **War, Society and Enlightenment** Patrick J. Speelman,2005-08-01 Collected in this volume are all the known works and military memoirs of General Henry Lloyd an eighteenth century philosophe who crafted a modern critical approach to military thinking These six works serve as an introduction to and reflection on the theory of war produced during the Age of the Enlightenment Republished from the originals this is the first compilation and only modern edition of his political economic and historical treatises With introductory essays and annotations by the Editor this volume provides both depth and context to the study of this long neglected and misunderstood figure
