Population Growth and Demographic Structure, 1999 **The Demographic Dividend** David Bloom, David Canning, Jaypee Sevilla, 2003-02-13 There is long standing debate on how population growth affects national economies A new report from Population Matters examines the history of this debate and synthesizes current research on the topic The authors led by Harvard economist David Bloom conclude that population age structure more than size or growth per se affects economic development and that reducing high fertility can create opportunities for economic growth if the right kinds of educational health and labor market policies are in place The report also examines specific regions of the world and how their differing policy environments have affected the relationship between population change and economic development

Growth, Structural Change and Regional Inequality in Malaysia Asan Ali Golam Hassan, 2017-11-30 Economic development in the long run is seen as a process of structural change that is affected by economic growth Malaysia is one of the middle income economies that are going through rapid structural change Since the mid 1980s it has changed to an industrially based economy with large scale export of electrical and electronic components However thirty years after Malaysia's redistributive policies have been exercised regional inequality still exists This book examines the nature and impact of regional policies in relation to the patterns of demographic and economic structural change and in relation to growth distribution and income disparities across regions in Peninsular Malaysia The book also explores the degree to which differences in regional manufacturing distribution and concentration have contributed to regional inequality It concludes with a number of recommendations for regional policies that will reduce this inequality *Handbook of Economic Growth* Philippe Aghion, Steven Durlauf, 2005-12-09 The Handbooks in Economics series continues to provide the various branches of economics with handbooks which are definitive reference sources suitable for use by professional researchers advanced graduate students or by those seeking a teaching supplement The Handbook of Economic Growth edited by Philippe Aghion and Steven Durlauf with an introduction by Robert Solow features in depth authoritative survey articles by the leading economists working on growth theory Volume 1A the first in this two volume set covers theories of economic growth the

empirics of economic growth and growth policies and mechanisms Volume 1B the second in this two volume set covers technology trade and geography and growth and socio economic development **Latin America and the Caribbean, Population Growth and Demographic Structure** ,1992 *Economic Factors in Population Growth* Ansley J Coale,1976-01-01 Distributed in the United States by Halsted Press a division of John Wiley Sons New York *World Development Report 1978* ,1978 This first report deals with some of the major development issues confronting the developing countries and explores the relationship of the major trends in the international economy to them It is designed to help clarify some of the linkages between the international economy and domestic strategies in the developing countries against the background of growing interdependence and increasing complexity in the world economy It assesses the prospects for progress in accelerating growth and alleviating poverty and identifies some of the major policy issues which will affect these prospects **Urban-Rural Interfaces** David N. Laband,B. Graeme Lockaby,2020-01-22 What is the urban rural interface Is it a visual phenomenon a place where country gives way to neighborhoods and shopping areas in a startling way Is it a simple factor of population density There is nothing simple about the urban rural interface editors David Laband Graeme Lockaby and Wayne Zipperer present the broad spectrum of interdisciplinary complexities at play Organized into three sections on changing ecosystems changing human dimensions and the dynamic integration of human and natural systems this book is a must read for anyone who works in the real world where natural and human systems are joined This is the new sustainability science an emerging discipline that integrates social and economic values with the physical chemical and ecological functions of ecosystems The goal is optimal management since our human impact is often significant and far reaching in both space and time Population Development Challenges in China Pengkun Wu,2020-09-12 This book explores the population development challenges in China It started by analyzing two of the major challenges designing a suitable family planning policy and dealing with the serious provincial population difference It then proposes effective measures to address these challenges by adopting various quantitative methods such as system dynamics nonlinear programming and spatial econometrics in evaluating the effects of different policy scenarios which made the results more scientific and reliable thus the final policy suggestions effective and evidence based The book includes a number of mathematical models and is suitable for graduate students and researchers in population modeling and relevant research areas Understanding African Real Estate Markets Aly Karam,François Viruly,Catherine Kariuki,Victor Akujuru,2022-04-28 This book brings together a broad range of research that interrogates how real estate market analysis finance planning and investment for residential and commercial developments across the African continent are undertaken In the past two decades African real estate markets have rapidly matured creating the conditions for new investment opportunities which has increased the demand for a deeper understanding of the commercial and residential markets across the continent The chapters consider issues that pertain to formal real estate markets and the critical relationship between

formal and informal property markets on the continent With contributing authors from South Africa Ghana Nigeria Uganda Kenya and Tanzania the book considers the achievements of African real estate markets while also highlighting the complex central themes such as underdeveloped land tenure arrangements the availability of finance in both the commercial and residential sectors rapidly growing urban areas and inadequate professional skills This book is essential reading for students in real estate land management planning finance development and economics programs who need to understand the nuances of markets in the African context Investors and policy makers will learn a lot reading this book too Biology and Ecology of Pike Christian Skov,P. Anders Nilsson,2018-01-09 This book sets out to bridge the order scales among pike researchers populations communities management and fisheries It emphasizes the progress of pike research during the last two decades during which the order bridging approach emerged This framework underpins the text and the message to convey its importance to pike research and to fish research in general In addition a considerable part of the book is devoted to management implications and highlights aspects of human dimensions in recreational fisheries *New Supply Side Economics* Lin Xiao,2017-08-16 This book investigates the basic theoretical framework and conducts a logical analysis of China s new supply side economics while also providing a strategic path to remedy the plight of China s economic development From the perspective of connotation theory and methods China s structural reform differs both from that proposed by the Western supply side school or supply side economics and from that proposed by structural economists The theoretical basis of supply side structural reform falls under socialist political economics with Chinese characteristics and the new supply side economics represent an important component of socialist political economics with Chinese characteristics

Understanding China's Economy Fang Cai,2021-03-23 This book reviews and examines the reform and opening up in China from 1978 to 2011 It analyzes how China avoided to fall into the middle income trap over those 33 years The book makes a deep analysis of understanding how Chinese economy became a miracle in the world economic history and its development stages as well as the overseas erroneous understanding of the existence of Chinese economy The author analyzes from three aspects how to break the impossible triangle how to achieve middle to high speed growth in L model and how to release a new dividend of urbanization After Chinese economy entered the Lewis turning point China faced the dilemma of labor transformation and the disappearance of demographic dividend the demographic dividend turned to the reform dividend The author points out and suggests that a new round of growth should be achieved by improving the total factor productivity in order to find a new way for the Chinese economy This book plays an important role of comprehending Chinese economy under current complex economic situation This book helps readers to understand Chinese economy from many aspects impossible triangle L model growth Malthus trap dual economy aging problem demographic dividend reform dividend trap of middle income globalization etc The author as an economist aims for the public explaining the professional knowledge in a concise and easy way This book delivers the information of discerning and understanding the economic trend
