Findley, Calvin Goldscheider, 2019-10-16 Perhaps because I grew up on a farm in Ohio I have long been interested in rural development Although I fl St became a migrant at the age of 17 when I left the farm to continue my studies in a city college I was not aware of the relation between rural development and migration until many years later when I began studying patterns of urban and rural poverty This research has grown out of my continuing investigation of the ways that migration has been seen as both a response to chronic conditions of rural poverty and a factor potentially exacerbating urban poverty conditions If governments wanted to deal with urban poverty they would want to restrict urban in migration yet if they reduced urban in migration this would remove one of the important means available to persons seeking to raise themselves out of rural impoverishment This would clearly be a no win situation for the rural poor the only way to deal fairly with both urban and rural poverty would be to foster socio economic development of rural areas Thus I became interested in studying the patterns of rural development which actually have had an effect on the migration decisions of rural families      Emigration Dynamics in Developing Countries: South Asia Reginald Thomas Appleyard, 1998 This IOM UNFPA project on Emigration Dynamics in Developing Countries was initiated during the early 1990 s      **Against the Empire** Ngamjahao Kipgen, Doungul Letkhojam Haokip, 2020-06-14 This book explores the Kuki uprising against the British Empire during the First World War in the

northeast frontier of India then the Assam Burma frontier It sheds light on how the three year war 1917 1919 spanning over 6 000 square miles is crucial to understanding present day Northeast India Companion to the seminal The Anglo Kuki War 1917 1919 the chapters in this volume Examine several aspects of the Anglo Kuki War which had far reaching consequences for the indigenous Kuki population including economy politics identity indigenous culture and belief systems and traditional institutions during and after the First World War itself Highlight finer themes such as the role of the chiefs and war councils symbols of communication indigenous interpretation of the war remembrance and other policies which continued to confront the Kuki communities Interrogate themes of colonial geopolitics colonialism and the missionaries state making and the frontier dimensions of the First World War Moving away from colonial ethnographies the volume taps on a variety of sources from civilisational discourse to indigenous readings of the war from tour diaries to oral accounts meshing together the primitive with the modern the tribal and the settled This book will be of great interest to scholars and researchers of South and Southeast Asian Studies area studies modern history military and strategic studies insurgency and counterinsurgency studies tribal warfare and politics
