India's Family in Transition J.P. Singh, 2022-12-26 This book is a summary of research papers published either in leading professional journals from India and abroad or unpublished papers presented in some international seminar or workshop during 1980 2010 But all the papers have been thoroughly recast in view of the latest facts and figures and presented in a thematically coherent manner It is a fresh attempt to bridge the gap between demographic processes and family structure in the Indian context This study has also tried to cover changes in marital practices The study sets off a long overdue dialogue between anthropology sociology and demography in the Indian context The prime purpose of this book is to provide a comprehensive overview of the state of family in contemporary India This book will be found useful by scholars students and professionals who work with families and also by lay people interested in family matters of India **South Asian Studies** , 1991 **World Development Report 2008** World Bank, 2007-10-15 The world s demand for food is expected to double within the next 50 years while the natural resources that sustain agriculture will become increasingly scarce degraded and vulnerable to the effects of climate change In many poor countries agriculture accounts for at least 40 percent of GDP and 80 percent of employment At the same time about 70 percent of the world s poor live in rural areas and

most depend on agriculture for their livelihoods World Development Report 2008 seeks to assess where when and how agriculture can be an effective instrument for economic development especially development that favors the poor It examines several broad questions How has agriculture changed in developing countries in the past 20 years What are the important new challenges and opportunities for agriculture Which new sources of agricultural growth can be captured cost effectively in particular in poor countries with large agricultural sectors as in Africa How can agricultural growth be made more effective for poverty reduction How can governments facilitate the transition of large populations out of agriculture without simply transferring the burden of rural poverty to urban areas How can the natural resource endowment for agriculture be protected How can agriculture s negative environmental effects be contained This year s report marks the 30th year the World Bank has been publishing the World Development Report

The Journal of Asian Studies ,1991 An essential resource for those interested in Asia Recognized as the leading publication in its field It features articles on the history arts social sciences and contemporary issues of East South and Southeast Asia as well as a large book review section

Exploration in Development Issues Nurul Islam,2017-11-30 This title was first published in 2003 Nurul Islam currently head of economic and social policy at the FAO UN and a key advisor at the International Food Policy Research Institute has been a renowned expert on economic development for the past thirty years Over that time he has researched and written about a wide range of economic development issues focussing mainly on policy For the first time ever his most important writings have been brought together in this volume reflecting not only Professor Islam s own views on particular issues but also providing a unique overview of the key debates and discussions taking place among academic economist and policy analysts over the past three decades The collection is divided into three main sections trade and aid development strategy and food security the section on food security being the most recent It discusses food security in a broad sense covering issues of availability and growth in food production access or entitlement of individuals or households to basic food and variability in food supplies and prices In the section on Development Strategy Professor Islam highlights how theoretical argument has veered away from organized development planning models which proved so important in the 1960s He questions the role of models and policies throughout the decades and following articles written in the 1970s or 80s he includes articles he has recently completed assessing the previous ones from his current perspective In the final section on Trade and Aid he follows the

academic debate on trade and exchange rate policies in developing countries from the 1960s to the progress of the WTO forums of today This is a wide ranging and thought provoking volume No matter whether the subject in question was examined in the 1960s or currently Professor Islam provides a challenging and insightful analysis and even the earliest articles retain relevance and will be of continuing interest The Emerging Middle Class in Africa Mthuli Ncube, Charles Lufumpa, 2014-10-10 The emergence of the African middle class as a driver of Africa s economic growth stands out as an important milestone in Africa s contemporary economic history This growth though uneven is a source of hope for Africa but also a signal to the rest of the world on the prospects for economic recovery and renewal particularly because it has been steady despite the global downturn The Emerging Middle Class in Africa analyses specific aspects of the lives of the middle class in Africa It looks at how people become and remain in the middle class through a series of thematic chapters It examines how behaviour changes in the process in terms of consumption patterns and spending on health and education A further dimension of this analysis is how class impacts on gender relations and whether women are able to reap the same benefits of social advancement available to men Africa is a continent of such scale and diversity that experiences across countries vary widely The book thus captures the common patterns across the continent This text is primarily aimed at Africanist researchers policy makers development practitioners and bilateral and multilateral institutions as well as students of African studies political science political economy development studies and development economics Food for Thought United States. Congress. Senate. Committee on Agriculture, Nutrition, and Forestry, 2012 *New Directions for Smallholder Agriculture* Peter B. R. Hazell, Atiqur Rahman, 2014-03-06 The majority of the poor and hungry people in the world live on small farms and struggle to subsist on too little land with low input low yield technologies At the same time many other smallholders are successfully intensifying and succeeding as farm businesses often in combination with diversification into off farm sources of income This book examines the growing divergence between subsistence and business oriented small farms and discusses how this divergence has been impacted by population growth trends in farm size distribution urbanization off farm income diversification and the globalization of agricultural value chains It finds that policy makers need to differentiate more sharply between different types of small farms than they did in the past both in terms of their potential contributions towards achieving national economic growth poverty alleviation and food security goals and the types of assistance they need The book distinguishes between smallholders that are business oriented subsistence oriented and at various stages of transition to the non farm economy and discusses strategies appropriate for assisting each type The book draws on a wealth of recent experience at IFAD and elsewhere to help identify best practice approaches **Asia** Kevin Hillstrom, Laurie Collier Hillstrom, 2003-06-23 A concise yet thorough overview of the environmental issues problems and controversies facing the world s largest and most populous continent Asia Asia tackles the tough issues the complex problems and the political controversies surrounding the environment of this vast landmass This volume encompasses

everything from economics land use energy and transportation to air pollution rivers and lakes oceans and species and habitat protection In Malaysia unchecked discharges of industrial waste and human sewage led the government to label 42 of its rivers officially dead According to some estimates Southeast Asia alone accounts for more than half of the world s total transport of sediment to the oceans In the Philippines the Chico River dam project which would have subjected 100 000 tribespeople to relocation was canceled when the World Bank withdrew funding after fierce resistance from the indigenous people This fascinating book offers a comprehensive look at how the most populated continent on earth contends with its complicated environment **Demography India** ,1990 Asian Transformations Deepak Nayyar,2019 Including in depth contributions by eminent economists and social scientists Asian Transformations examines the phenomenal changes transforming economies in this continent and shifting the balance of economic power in the world while reflecting on the future prospects in Asia over the next twenty five years *Slums of the World* ,
