Cesare, George F. Jones, 1977-06-30 This book represents the first concordance of Juan Ruiz's Book of Good Love Libro de Buen Amor written in the fourteenth century The volume's editors dealing with three slightly different manuscripts have chosen to meticulously integrate the language from all three editions into one thorough concordance The result is a significant work that serves as a companion to Ruiz's work that would be vital to any study of medieval Spanish linguistics In addition to the usual material to be found in a concordance this book has the following features the text appears in diplomatic transcription from the manuscripts for fidelity while the entry list of words has been partly normalized as for spelling for convenience an extensive list of homographs no omission of high frequency words frequency list at the end no reproduction of bulky and difficult computer printout The book has been photocomposed from the tape

The Curse of Eve, the Wound of the Hero Peggy McCracken, 2010-11-24 In *The Curse of Eve the Wound of the Hero* Peggy McCracken explores the role of blood symbolism in establishing and maintaining the sex gender systems of medieval culture Reading a variety of literary texts in relation to historical medical and religious discourses about blood and in the context of anthropological and religious studies McCracken offers a provocative examination of the ways gendered cultural values were mapped onto blood in the Middle Ages As McCracken demonstrates blood is gendered when that of men is prized in stories about battle and that of women is excluded from the public arena in which social and political hierarchies are contested and defined through chivalric contest In her examination of the conceptualization of familial relationships she uncovers the privileges that are grounded in gendered definitions of blood relationships She shows that in narratives about sacrifice a father's relationship to his son is described as a shared blood whereas texts about women accused of giving birth to monstrous children define the mother's contribution to conception in terms of corrupted often menstrual blood Turning to fictional representations of bloody martyrdom and of eucharistic ritual McCracken juxtaposes the blood of the wounded guardian of the grail with that of Christ and suggests that the blood from the grail king's wound is characterized in opposition to that of women and Jewish men Drawing on a range of French and other literary texts McCracken shows how the dominant ideas about blood in medieval culture point to ways of seeing modern values associated with blood in a new light and how modern representations in turn suggest new perspectives on medieval perceptions
