Counterfactualism in the Fine Arts Elke Reinhuber, 2022-10-14 Counterfactual thinking has become an established method to evaluate decisions in a range of disciplines including history psychology and literature Elke Reinhuber argues it also has valuable applications in the fine arts and popular media A fascination with the path not taken is a logical consequence of a world saturated with choices Art which provokes and explores these tendencies can help to recognise and contextualise the impulse to avoid or endlessly revisit individual or collective decisions Reinhuber describes the term in broad strokes through the disciplines to show how counterfactualism finds shape in contemporary art forms especially in photography film and immersive and interactive media art such as 360 content virtual reality and augmented reality She analyses the different stages of counterfactuals with examples where artists experience counterfactual thoughts in the process of art production explore these thoughts in their artwork and where the artwork itself evokes counterfactual thoughts in the audience A fascinating exploration for scholars and students of art media and the humanities and anybody else with an interest in choices the art of decisionmaking and counterfactualism *Creative Writing and the Radical* Nigel Krauth, 2016-07-18 The rise of digital publishing and the ebook has opened up an array of possibilities for the writer working with innovation in mind *Creative Writing and the Radical* uses an examination of how experimental writers in the past have explored the possibilities of multimodal writing to theorise the nature of writing fiction in the future It is clear that experimental writers rehearsed for technological advances long before they were invented Through an in depth study of writers and their motivations challenges and solutions the author explores the shifts creative writing teachers and students will need to make in order to adapt to a new era of fiction writing and reading *Linking the Strands of Language and Literacy* Candace L. Goldsworthy, Katie Lambert, 2010-03-01 **American Bookseller**, 1985 **Bears Don't Go to School** Houghton Mifflin Company, 1992-07 **Terror in the Land of the Holy Spirit** Virginia Garrard-Burnett, 2010-01-15 Waging a counterinsurgency war and justified by claims of an agreement between Guatemala and God Guatemala's Evangelical Protestant military dictator General R os Montt incited a Mayan holocaust over just 17 months some 86 000 mostly Mayan civilians were murdered Virginia Garrard Burnett dives into the horrifying bewildering murk of this episode the Western hemisphere's worst twentieth century human rights atrocity She has delivered the most lucid historical account and analysis we yet possess of what happened and how of the cultural complexities personalities and local and international politics that made this tragedy Garrard Burnett asks the hard questions and never flinches from the least comforting answers Beautifully movingly and clearly written and argued this is a necessary and indispensable book Francisco Goldman author of *The Art of Political Murder* Who Killed the Bishop Virginia Garrard Burnett's *Terror in the Land of the Holy Spirit* is impressively researched and argued providing the first full examination of the religious dimensions of la violencia a period of extreme political repression that overwhelmed Guatemala in the 1980s Garrard Burnett excavates the

myriad ways Christian evangelical imagery and ideals saturated political and ethical discourse that scholars usually treat as secular This book is one of the finest contributions to our understanding of the violence of the late Cold War period not just in Guatemala but throughout Latin America Greg Grandin Professor of History New York University Drawing on newly available primary sources including guerrilla documents evangelical pamphlets speech transcripts and declassified US government records Virginia Garrard Burnett provides a fine grained picture of what happened during the rule of Guatemalan president by coup Efraín Ríos Montt She suggests that three decades of war engendered an ideology of violence that cut not only vertically but also horizontally across class cultures communities religions and even families The book examines the causality and effects of the ideology of violence but it also explores the long duration of Guatemalan history between 1954 and the late 1970s that made such an ideology possible More significantly she contends that self interest willful ignorance and distraction permitted the human rights tragedies within Guatemala to take place without challenge from the outside world *Lightning Gods and Feathered Serpents* Rex Koontz, 2010-01-01 El Tajín an ancient Mesoamerican capital in Veracruz Mexico has long been admired for its stunning pyramids and ballcourts decorated with extensive sculptural programs Yet the city's singularity as the only center in the region with such a wealth of sculpture and fine architecture has hindered attempts to place it more firmly in the context of Mesoamerican history In *Lightning Gods and Feathered Serpents* Rex Koontz undertakes the first extensive treatment of El Tajín's iconography in over thirty years allowing us to view its imagery in the broader Mesoamerican context of rising capitals and new elites during a period of fundamental historical transformations Koontz focuses on three major architectural features the Pyramid of the Niches Central Plaza ensemble the South Ballcourt and the Mound of the Building Columns complex and investigates the meanings of their sculpture and how these meanings would have been experienced by specific audiences Koontz finds that the iconography of El Tajín reveals much about how motifs and elite rites growing out of the Classic period were transmitted to later Mesoamerican peoples as the cultures centered on Teotihuacan and the Maya became the myriad city states of the Early Postclassic period By reexamining the iconography of sculptures long in the record as well as introducing important new monuments and contexts *Lightning Gods and Feathered Serpents* clearly demonstrates El Tajín's numerous iconographic connections with other areas of Mesoamerica while also exploring its roots in an indigenous Gulf lowlands culture whose outlines are only now emerging At the same time it begins to uncover a largely ignored regional artistic culture of which Tajín is the crowning achievement *The Politics of Trauma and Peace-Building* Cillian McGrattan, 2015-10-23 In marked contrast to literary historical and cultural studies there has been a limited engagement with the concepts and politics of trauma by political science and peacebuilding research This book explores the debate on trauma and peacebuilding and presents the challenges for democratization that the politics of trauma present in transitional periods It demonstrates how ideas about reconciliation are filtered through ideological lenses and become new ways of articulating communal and ethno nationalist sentiments Drawing on the work of Jacques Rancière and

Iris Marion Young and with specific reference to the Northern Irish transition it argues for a shift in focus from the representation of trauma towards its reception and calls for a more substantive approach to the study of democracy and post conflict peacebuilding This text will be of interest to scholars and students of peace and conflict studies ethnic and nationalism studies transitional justice studies gender studies Irish politics nationalism and ethnicity **The Century Dictionary and Cyclopedia: Cyclopedia of names** William Dwight Whitney,1904 Gol sostenido Mariana H, Ro Velázquez, Jorge Negro Hipólito, Ely Guerra, El Sr. González, Jenny Beaujean, Federico Bonasso, Pahua, Santiago Hernández Zarauz, La Bruja de Texcoco, Federico Schmucler, Jessy Bulbo, Alejandro Mancilla, Sol Pereyra, Rulo David, Arturo J.
