✓ Exclusively available on IvyPanda

## Introduction

In modern society, women's sexuality has been exploited and commercialized into an acceptable vice that silently portrays women as sex objects. The development of the pornographic industry in its current state has been modified into a lifestyle of perceiving the female gender as sex toys to entertain men (DeKeseredy & Corsianos, 2015). For instance, the first published porn material in 1800 in a book called *Memoirs of a Woman Pleasure* displayed erotic pictures describing women's sexual acts (Burr, 2015).

Another interesting material was a short video clip produced in 1896 called *Le Coucher de la Marie*, which was laden with the agenda of depicting women as more than willing sex toys for the entertainment of men (Marston, 2018). The explosion of depicting women's sexuality occurred in the 1960s as movie theatres opened doors for explicit sexual content (Malamuth, 2014). The trend climaxed with the internet era, which transformed viewing of women's sexual exploitation from public to private. At the moment, anybody can view pornography just by a click of a button (DeKeseredy & Corsianos, 2015). There is a need to reduce female sexual aggression as influenced by these pornographic materials.

## Main body

Reflectively, feminists argue that the erotic display of women is immoral and generally creates a negative perception of women's sexuality. For instance, feminists note that unending competition from producers of female sexual content materials contributes to male dominance and verbal abuse of the female gender (Pitzulo, 2014). As a result, the soaring aggression and resultant degradation make women uncomfortable (Malamuth, 2014).

For example, the Playboy has attracted heated debate on the definition of beauty of a woman on the basis of 'sexiness' and ability to please men (Marston, 2018).
