Jews and the Renaissance of Synagogue Architecture, 1450-1730 Barry L. Stiefel, 2015-10-06 Before the mid fifteenth century the Christian and Islamic governments of Europe had restricted the architecture and design of synagogues and often prevented Jews from becoming architects Stiefel presents a study of the material culture and religious architecture that this era produced

Port Jews David Cesarani, 2014-04-04 The history of Jews in cosmopolitan maritime trading centres is a field of research that is reshaping our understanding of how Jews entered the modern world These studies show that the utility of Jewish merchants in an era of European expansion was vital to their acculturation and assimilation

A History of the Global Wheat Trade Marco Bertilorenzi, Carlo Fumian, Giovanni Gozzini, 2025-04-29 During the second half of the 19th century a new global market for wheat came to the fore Ever since scarce and perishable food has been transformed into a modern global commodity millions of tons of which is sold bought and transported across the oceans providing the daily bread for a fast growing world population This book explores the historical origin of the global wheat market offering an actor centred view of the history of this new global commodity The contributions to this volume demonstrate that the development of the global wheat trade through the late 19th and early 20th centuries has not only impacted the world food regime it also led to the dissemination of new economic institutions Countless technological innovations such as elevators or telegraphic lines have paved the way to the creation of new financial tools for trade such as futures and grain exchanges which transformed the market The book also examines new global actors such as Cargill Louis Dreyfus or Bunge y Born who took advantage of the new opportunities provided by the interlinked and globalized world grain trade For the first time in history the price of a single commodity which was crucial for human life ended up being decided in the areas of production by the producers and started to be fixed further afield in specific and anonymous trading places The book will be of great interest to historians of economics business trade agriculture globalization and commodities

Zimzum Christoph Schulte, 2023-09-12 The Hebrew word zimzum originally means contraction withdrawal retreat limitation and concentration In Kabbalah zimzum is a term for God s self limitation done before creating the world to create the world Jewish mystic Isaac Luria coined this term in Galilee in the sixteenth century

positing that the God who was Ein Sof unlimited and omnipresent before creation must concentrate himself in the zimzum and withdraw in order to make room for the creation of the world in God's own center. At the same time God also limits his infinite omnipotence to allow the finite world to arise. Without the zimzum there is no creation making zimzum one of the basic concepts of Judaism. The Lurianic doctrine of the zimzum has been considered an intellectual showpiece of the Kabbalah and of Jewish philosophy. The teaching of the zimzum has appeared in the Kabbalistic literature across Central and Eastern Europe perhaps most famously in Hasidic literature up to the present day and in philosopher and historian Gershom Scholem's epoch making research on Jewish mysticism. The Zimzum has fascinated Jewish and Christian theologians, philosophers and writers like no other Kabbalistic teaching. This can be seen across the philosophy and cultural history of the twentieth century as it gained prominence among such diverse authors and artists as Franz Rosenzweig, Hans Jonas, Isaac Bashevis Singer, Harold Bloom, Barnett Newman and Anselm Kiefer. This book follows the traces of the zimzum across the Jewish and Christian intellectual history of Europe and North America over more than four centuries where Judaism and Christianity, theosophy and philosophy, divine and human mysticism and literature, Kabbalah and the arts encounter, mix and cross fertilize the interpretations and appropriations of this doctrine of God's self entanglement and limitation.

Bombardment, Public Safety and Resilience in English Coastal Communities during the First World War

Michael Reeve, 2022-01-01. This book makes the case for a unique coastal urban experience of war on the home front during the First World War focusing on case studies from the north east of England. The use of case studies from this region problematises an often assumed national or generalised experience of civilian life during the war by shifting the frame of analysis away from the metropolis. This book begins with chapters related to wartime resilience including analysis of pre war fear of invasion and bombardment and government policy on public safety. It then moves on to a discussion of power relations and the local implementation of policy related to bombardment including policing. Finally the book explores the coastal urban environment focusing on depictions of war damage in popular culture and the wartime and post war commemoration of civilian bombardment. This work provides a multi faceted perspective on civilian resilience while responding to a recent call for new histories of the coastal zone.

Cesarani, 2001. **La Livornina** Autori Vari, 2025-01-17T15:55:00+01:00. La Livornina e Livorno: questo libro narra la storia di una legge emanata dal granduca Ferdinando I de' Medici alla fine del Cinquecento e di una città che divenne un porto franco internazionale nello scenario delle relazioni globali dell'età moderna. Per privilegio sovrano furono invitati a stabilirsi a Livorno mercanti di qualsivoglia nazione con garanzia di libertà religiosa e privilegi economici. La legge favorì principalmente la nascita di una grande comunità ebraica ma consentì anche gli insediamenti degli acattolici. La città labronica fu così inserita per alcuni secoli nelle reti degli scambi commerciali e culturali del mondo. Della sua ricchezza si avvantaggiò la Toscana e un'intera epoca. E Livorno divenne pur nei suoi limiti un modello di convivenza religiosa esemplare nella storia della tolleranza.

dell'Europa moderna. La pubblicazione dei testi della Livornina qui presentati per la prima volta nelle tre versioni e i saggi che ne illustrano la genesi e le vicende nel lungo periodo intendono contribuire a quella storia ancora fondamentale nella nostra realtà.

Religion im Transit Katharina Muth, Michael Wermke, Gisela Mettele, 2021-03-22. Wie bekommen Migrationserfahrungen durch religiöse Berzeugungen eine neue Deutung? Wie verändern sich religiöse Praktiken und Motive durch Auswanderung und wie entstehen neue Identitätszuschreibungen Diasporagesellschaften und religiöse Unterstützungsnetzwerke? Im Fokus des vorliegenden Bandes stehen die vielschichtigen und ambivalenten Wechselwirkungen zwischen Migration und Religion, welche aus interdisziplinären Perspektiven beleuchtet werden. Dazu werden in den drei Themenbereichen Transit, Diaspora und Identität historische Fallstudien vorgestellt, die das Umfeld konkreter Migrant*innengruppen in den Blick nehmen. Sie geben Aufschluss über Abgrenzungs- und Integrationsbedingungen und zeigen Strategien auf, die die Integration fördern. Durch eine Einordnung der Fallstudien in den aktuellen kultursoziologischen Migrationsdiskurs gelingt es dem Band, Brücken zu gegenwartsbezogenen Fragestellungen zu schlagen.
