SUMMUM Summum Bonum Amen Ra,2020-02-26 Billions of years ago the universe came into existence with a Big Bang The creation of the universe is the single paramount event from which all other events precipitate and why it happened is the greatest mystery we have ever known On the tiniest of scales the cosmos reveals to us a universe filled with quanta particles and on the largest a universe of planets stars galaxies and life The expanse is endless Are we then to believe ourselves alone in the vastness of creation or to solely occupy the crown of it In 1975 Corky Ra an administrative manager for a large supply company began to experience a series of encounters with advanced beings His first reactions of shock and disbelief led him to a period of seclusion yet the visits continued leading him to an awakening Ra realized it was the purpose of these beings to re introduce in a pure form principles of nature that have always existed and address all issues of existence sexuality and death SUMMUM Sealed Except to the Open Mind is about existence in its broadest context and delves into the forces behind cosmic rhythms and change Most importantly it describes a meditation for developing a personal relationship with the essence of nature This is the second edition of a work first published in 1988 and contains illustrations Make this book your companion and venture to get a glimpse of the inner workings of Creation

Multidimensional Heart Hélène Konokovi Abiassi,2022-08-22 When we speak about the heart we often talk about sentimental and emotional matters Nonetheless what I mean to explore here is the heart as a chakra as an energy center as an intelligence and as pure love In the heart one can deal with and work on all subjects However in this day and age human beings are programmed and conditioned to experience life through another energy center the mental chakra which is also very important Today we talk about the heart chakra as a center of energy and strength it is a combination This is about so much more than I can describe

We all have many bodies you can imagine them as Russian dolls stacked inside one another Because of our experience and because of the decisions we make as human beings our energy will activate many of these bodies and the heart chakra activates many others Our personal development goes through balancing and aligning all our chakras and energy centers and what our service here is about is to give attention to and to reach the heart chakra This approach is very enriching and it expands this chakra We develop ourselves in a personal and deep way throughout our evolutionary journey The heart chakra is very caring with us in the true sense of the word care First of all it loves us and it teaches us to find this love in ourselves I am not talking about vanity nor narcissism I am talking about a real deep love about accepting our reality and the being that we truly are
