Portrait Of A Profession Teaching And Teachers In The 21st Century:

Portrait of a Profession David Moss, Wendy J. Glenn, Richard L. Schwab, 2004-12-30 This provocative text offers an inside look at the hidden dimensions of teaching. Sometimes controversial, always poignant, the book examines highly debated issues fundamental to a free and open society. School reform is at a critical juncture; the portrait of the profession revealed here serves as a catalyst for change. Chapters discuss such timely and relevant topics as the preparation of teachers past and present, the daily work of teachers, and the influence of current policy on public education. Teaching our children is a shared responsibility. The work of teaching described in this book demonstrates clearly that there is much work to be done by all involved. This book will inform and empower a wide range of readers, including those considering careers in teaching, those who have children in school, who vote and pay taxes, work in schools, influence policy, or those who are business leaders.

Handbook of Research on Professional Development for Quality Teaching and Learning Petty, Teresa, Good, Amy, Putman, S. Michael, 2016-06-16 As educational standards continue to transform, it has become essential for educators and pre-service teachers to receive the support and training necessary to effectively instruct their students and meet societal expectations. However, there is not a clear consensus on what constitutes teacher effectiveness and quality within the education realm. The *Handbook of Research on Professional Development for Quality Teaching and Learning* provides theoretical perspectives and empirical research on educator preparation and methods for enhancing the teaching process. Focusing on teacher effectiveness and support provided to current and pre-service educators, this publication is a comprehensive reference source for practitioners, researchers, policy makers, graduate students, and university faculty. [Preparing Classroom Teachers to Succeed with Second Language Learners](#) Thomas Levine, Elizabeth Howard, David Moss, 2014-07-11 This volume identifies resources, models, and specific practices for improving teacher preparation for work with second language learners. It shows how faculty positioned themselves to learn from resources, experts, preservice teachers, their own practice, and each other. The teacher education professionals leverage their experience to offer theoretical and practical insights regarding how other faculty could develop their own knowledge, improve their courses, and understand their influence on the preservice teachers they serve. The book addresses challenges others are likely to experience while improving teacher preparation, including preservice teacher resistance, the challenge of adding to already packed courses, the difficulty of recruiting and retaining busy faculty members, and the question of how to best frame the larger issues. The authors also address options for integrating the work of improving teacher preparation for linguistic diversity into a variety of different teacher education program designs. Finally, the book demonstrates a data-driven approach that makes this work consistent with many institutions' mandate to produce research and to collect evidence supporting accreditation. **Preparing Teachers for the 21st Century** Xudong Zhu, Kenneth Zeichner, 2013-12-16 This book addresses two main questions: namely, how to prepare high quality teachers in the 21st century and how the East and the West can learn from each other. challenges and dilemmas that eastern countries especially China and western countries are facing with regard to teacher education We explore the question by examining teacher education research practice and policy in different countries identifying both common problems and country specific challenges We then try to find valuable experiences theories and practice which can solve specific problems in the process of teacher education also addressing how local and global factors impact it In this regard our approach does not strictly separate pre service teacher education from teachers in service professional development adopting an integrative perspective Further we believe the respective social and cultural contexts must also be taken into account Lastly we call for teachers knowledge and individual character traits to be accounted for in the education of high quality teachers *Learning and Teaching for the Twenty-First Century* Rupert Maclean,2007-10-05 This book stresses learning and teaching over teaching and learning The contributors contend that education should not focus primarily on teachers and teaching but on learners how best to facilitate learning in the most effective enjoyable relevant and cost effective ways for learners at any age The book brings together thoughts and insights by international leaders in the fields of teaching and learning It seeks to build bridges between researchers policy makers and practitioners
