characteristics and practices of these American visitors and compares them to their caricatures in British newspapers and magazines. Going to Britain was a transformative experience for most American visitors, providing a link to a shared history and culture. In turn, their arrival influenced British life by providing a reality check on Hollywood's portrayal of American life and through their demands for higher standards in Britain's hotels, restaurants, and trains. Through an engaging narrative incorporating unpublished reports of American visits to Britain, *Not Like Home* describes the exciting and sometimes confounding mid-century encounters between two very different cultures.
