## Portrait Of Venus:

Botticelli. The Birth of Venus (in inglese) Diletta Corsini,1998      **Botticelli** Stefano Zuffi,2011 This new series examines several highly regarded masterpieces in an attempt to unravel the mysteries that surround them Through an innovative concept and a fresh approach Art Mysteries edited by Marco Carminati and Stefano Zuffi presents an up to dat      **The Birth of Venus** Corinne Houssaint,1994      Venus at Her Mirror Andreas Prater,2002 The 17th century saw a tremendous thematic and technical development in the realm of painting as artists experimented with realism and anatomical exactitude and gave free expression to themes of sensuality This is especially apparent in Velazquez Venus at Her Mirror also known as The Rokeby Venus In this text Andreas Prater uses the much studied and imitated painting to trace Venus s depiction in art through the centuries Prater begins by offering a detailed examination of Velazquez masterpiece He delves into its numerous levels of meaning as well as its impact on the nude paintings of its day He also looks at the painting s history including its attempted destruction by a suffragette in 1919 Velazquez self admiring Venus is compared to her depictions in other well known works by admiring artists including da Vinci Giorgione and Titian as well as in works by later artists such as Manet and Cabanel and into the modern world of advertising These comparisons provoke intriguing perspectives on the evolution of eroticism feminism and Christianity in art and offer an understanding of the influence that one artist and one work can have on generations that follow      **A Body of Vision** R. Bruce Elder,1998-10-14 Elder examines how artists such as Brakhage Artaud Schneemann Cohen and others have tried to recognize and to convey primordial forms of experiences He argues that the attempt to convey these primordial modes of awareness demands a different conception of artistic meaning from any of those that currently dominate contemporary critical discussion By reworking theories and speech in highly original ways Elder formulates this new conception His remarks on the gaps in contemporary critical practices will likely become the focus of much debate      Reading Dido Marilynn Desmond,1994      **The Modern Portrait Poem** Frances Dickey,2012-06-29 In The Modern Portrait Poem Frances Dickey recovers the portrait as a poetic genre from the 1860s through the 1920s Combining literary and art history she examines the ways Dante Gabriel Rossetti Algernon Swinburne and J M Whistler transformed the genre of portraiture in both painting and poetry She then shows how their new ways of looking at and thinking about the portrait subject migrated across the Atlantic to influence Ezra Pound T S Eliot William Carlos Williams Amy Lowell E E Cummings and other poets These poets creatively exposed the Victorian portrait to new influences ranging from Manet s realism to modern dance Futurism and American avant garde art They also condensed expanded and combined the genre with other literary modes including epitaph pastoral and Bildungsroman Dickey challenges the tendency to view Modernism as a break with the past and as a transition from aural to visual orientation She argues that the Victorian poets and painters inspired the new generation of Modernists to test their vision of Aestheticism against their perception of modernity and the relationship between image and text In bridging historical periods national boundaries and disciplinary

distinctions Dickey makes a case for the continuity of this genre over the Victorian Modernist divide and from Britain to the United States in a time of rapid change in the arts      **Poussin's Paintings** David Carrier,1993      **Views of the Seats of Noblemen and Gentlemen, in England, Wales, Scotland and Ireland; [Ser. 1-2]** ,1829      *American Art Sales* ,1925  
Views of the Seats of Noblemen and Gentlemen, in England, Wales, Scotland, and Ireland John Preston Neale,1829  
Depicting the Dead Stine Birk,2013-02-04 The present monograph takes its place in a now well established tradition of seeing sarcophagi as visual statements of deceased individuals that used allegories to plot lives and personal memories against mythological and other idealised narratives It focuses on Roman sarcophagi often referred to as stadtrömisch which reflects the fact that the field has traditionally been dominated by German scholars The aim of the book is twofold Firstly it is an exploration of how to read Roman sarcophagi which starts from those with portraits but which can contribute more broadly to the study of sarcophagi in general Secondly this book investigates gender values as represented through images and how to locate the individual in standardised iconography      *Views of the Seats of Noblemen and Gentlemen* John Preston Neale,1829      **Femininity and Masculinity in Eighteenth-century Art and Culture** Gillian Perry,1994 Focusing on the visual arts and written texts this book explores the nature of femininity and masculinity in 18th century Britain and France The activities and collective conditions of women as producers of art and culture are investigated together with analysis of representation and the ways in which it might be gendered This illustrated book should make an important contribution to debates on representation constructions of sexuality and women as producers      **History of Art, Foreword by Robert B.
