The Renaissance Portrait in France and England Dana Bentley-Cranch,2004

The Painted Face Tamar Garb,2007-01-01 The meaning of a painted portrait and even its subject may be far more complex than expected Tamar Garb reveals in this book She charts for the first time the history of French female portraiture from its heyday in the early nineteenth century to its demise in the early twentieth century showing how these paintings illuminate evolving social attitudes and aesthetic concerns in France over the course of the century The author builds the discussion around six canonic works by Ingres Manet Cassatt C zanne Picasso and Matisse beginning with Ingres s idealized portrait of Mme de Sennones and ending with Matisse s elegiac last portrait of his wife During the hundred years that separate these works the female portrait went from being the ideal genre for the expression of painting s capacity to describe and embellish nature to the prime locus of its refusal to do so Picasso s Cubism and specifically Ma Jolie provides the fulcrum of this shift

Portraiture and Politics in Revolutionary France Amy Freund,2015-06-13 Portraiture and Politics in Revolutionary France challenges widely held assumptions about both the genre of portraiture and the political and cultural role of images in France at the beginning of the nineteenth century After 1789 portraiture came to dominate French visual culture because it addressed the central challenge of the Revolution how to turn subjects into citizens Revolutionary portraits allowed sitters and artists to appropriate the means of representation both aesthetic and political and articulate new forms of selfhood and citizenship often in astonishingly creative ways The triumph of revolutionary portraiture also marks a turning point in the history of art when seriousness of purpose and aesthetic ambition passed from the formulation of historical narratives to the depiction of contemporary individuals This shift had major consequences for the course of modern art production and its engagement with the political and the contingent

[Portraits from the French Renaissance and the Wars of Religion](#) André Thevet,2009-11-01 Available for the first time in English these thirteen selections from Andr Thevet s *Les vrais pourtraits et vies des hommes illustres* offer a glimpse of France during a time of great upheaval Originally published in 1584 Thevet s collection contains over two hundred biographical sketches detailing the lives of important persons from antiquity to the sixteenth century Edward Benson and Roger Schlesinger have translated and annotated Thevet s portraits of his contemporaries and divided them into three categories monarchs aristocrats and scholars Additionally an extensive introduction places the work in context and describes the critical attention that Thevet and his writings have received Together these portraits provide a history of sixteenth century France as the country underwent tremendous change from an intellectual renaissance and its first encounter with the New World to the Protestant Reformation and the Wars of Religion

that followed France was irrevocably altered by these events and Thevet's account of the lives of individuals who struggled with them is indispensable

Catalogue of the Valuable Collection of Manuscripts, Autographs, Books Portraits and Other Interesting Material Mainly Relating to Napoleon Bonaparte and the French Revolution Warren Cady Crane, 1913

"Interior Portraiture and Masculine Identity in France, 1789-1914" Heather Belnap Jensen, 2017-07-05 Focusing specifically on portraiture as a genre this volume challenges scholarly assumptions that regard interior spaces as uniquely feminine Contributors analyze portraits of men in domestic and studio spaces in France during the long nineteenth century the preponderance of such portraits alone supports the book's premise that the alignment of men with public life is oversimplified and more myth than reality The volume offers analysis of works by a mix of artists from familiar names such as David Delacroix Courbet Manet Rodin and Matisse to less well known image makers including Dominique Doncre Constance Mayer Anders Zorn and Lucien Etienne Melingue The essays cover a range of media from paintings and prints to photographs and sculpture that allows exploration of the relation between masculinity and interiority across the visual culture of the period The home and other interior spaces emerge from these studies as rich and complex locations for both masculine self expression and artistic creativity Interior Portraiture and Masculine Identity in France 1789-1914 provides a much needed rethinking of modern masculinity in this period

Portraiture and Friendship in Enlightenment France Jessica L. Fripp,2021-02-05 Portraiture and Friendship in Enlightenment France examines how new and often contradictory ideas about friendship were enacted in the lives of artists in the eighteenth century It demonstrates that portraits resulted from and generated new ideas about friendship by analyzing the creation exchange and display of portraits alongside discussions of friendship in philosophical and academic discourse exhibition criticism personal diaries and correspondence This study provides a deeper understanding of how artists took advantage of changing conceptions of social relationships and used portraiture to make visible new ideas about friendship that were driven by Enlightenment thought Studies in Seventeenth and Eighteenth Century Art and Culture Distributed for the University of Delaware Press *A Series of Portraits of the Kings of France to Charles VI. Reports on the Paris universal exhibition, 1867. Vol.2-6 [and] Index to vol.2-5 Parliament proc, Vict,1869 **The Most Arrogant Man in France** Petra ten-Doesschate Chu,2024-05-14 A comprehensive reinterpretation of the pioneering and media savvy artist The modern artist strives to be independent of the public s taste and yet depends on the public for a living Petra Chu argues that the French Realist Gustave Courbet 1819 1877 understood this dilemma perhaps better than any painter before him In *The Most Arrogant Man in France* Chu tells the fascinating story of how in the initial age of mass media and popular high art this important artist managed to achieve an unprecedented measure of artistic and financial independence by promoting his work and himself through the popular press The Courbet who emerges in Chu s account is a sophisticated artist and entrepreneur who understood that the modern artist must sell and not only make his art Responding to this reality Courbet found new ways to package exhibit and publicize his work and himself Chu shows that Courbet was one of the first artists to recognize and take advantage of the publicity potential of newspapers using them to create acceptance of his work and to spread an image of himself as a radical outsider Courbet introduced the independent show by displaying his art in popular venues outside the Salon and he courted new audiences including women And for a time Courbet succeeded achieving a rare freedom for a nineteenth century French artist If his strategy eventually backfired and he was forced into exile his pioneering vision of the artist s career in the modern world nevertheless makes him an intriguing

forerunner to all later media savvy artists
