Myths about Rock Art Robert G. Bednarik, 2016-11-30 Rather than considering the myths supposedly depicted in the world's rock art this book examines the myths archaeologists and others have created about the meanings and significance of rock art

Rock Art Studies - News of the World Natalie R. Franklin, Matthias Strecker, 2008-08-05 This is the third in the five yearly series of surveys of what is happening in rock art studies around the world As always the texts reflect something of the great differences in approach and emphasis that exist in different regions The volume presents examples from Europe Asia Africa and the New World During the period in question 1999 to 2004 there have been few major events although in the field of Pleistocene art many new discoveries have been made and a new country added to the select list of those with Ice Age cave art Some regions such as North Africa and the former USSR have seen a tremendous amount of activity focusing not only on recording but also on chronology and the conservation of sites With the global increase of tourism the management of rock art sites that are accessible to the public is a theme of ever growing importance

A Cosmos in Stone J. David Lewis-Williams, 2002 Collected articles of the world's preeminent rock art researchers and cognitive archaeologists

Thunder and Herds Lawrence L. Loendorf, 2016-07-22 This volume is the first summary and synthesis of the rock art of the American High Plains from Archaic times to the historic period Even more it presents an engaging combination of Plains archaeology rock art sites and holistic archaeological research This refreshing approach to rock art studies reminds us that archaeologists glean information from the whole site and everything that may have occurred there rather than simply focusing on the images on stone Clues to understanding rock art can be found in other images in associated artifacts and in ethnographic analogy Archaeologists are shown how rock art integrates with other materials available for study With each page the reader will be engaged in a compelling and comprehensive story that focuses equally on the art and the archaeology of the prehistoric plains

An Engraved Landscape: Rock carvings in the Wadi al-Ajal, Libya Tertia Barnett, 2023-02-23 An Engraved Landscape is a contextual analysis of a substantial new corpus of engravings from the Wadi al Ajal situated in the Central Saharan region of south west Libya The wadi is renowned as the heartland of the Garamantian civilization which emerged from local mobile Pastoral communities in the 1st millennium BC and dominated trans Saharan trade and politics for over a thousand years Extensive archaeological and palaeoenvironmental investigations in recent years have provided detailed insight into the later prehistory and protohistory of the wadi and surrounding areas However prior to the fieldwork detailed in this work only a handful of carvings had been recorded in the wadi This work is based on systematic survey conducted between 2004 and 2009 which recorded around 2 500 previously unknown or unpublished engraved and inscribed rock surfaces All forms of engraving whether figurative or surface markings were viewed as significant residues of human interaction with the rock surface and were recorded The

resulting database provides an opportunity to analyze the engravings in relation to their changing physical and cultural contexts and the discussion offers a fresh interpretation of Saharan rock art based on this substantial new evidence An Engraved Landscape also captures in detail a unique heritage resource that is currently inaccessible and threatened This record of the fragile engravings provides an important source of information for researchers and students Rethinking the Ancient Druids Miranda Aldhouse-Green,2021-09-15 Relevance of the religious beliefs and practices of past European societies can enhance understanding of our own The popular notion of Druids is unpacked and debunked using archaeological evidence New research findings are shared with readers in accessible and engaging ways enhanced by copious illustrations that weave into the text The book is thoroughly readable and tells stories of the past in a deeply compelling manner New Perspectives on Prehistoric Art Günter Berghaus,2004-04-30 Following the discovery of Franco Caribbean cave art in the nineteenth century standard interpretations of these works usually revolved around hunting magic and fertility cults Orthodox positions such as these have weighed heavily on later generations of art historians archaeologists and anthropologists even those whose views dissented from those of their predecessors In the last few decades however new approaches to cave art often based on discoveries made in Africa Asia Australia North America and the Arctic region have produced new insights into possible meanings and functions of prehistoric paintings and sculptures This new collection of essays explores these insights gathering the observations of eight experts from a variety of disciplines and examining some of the social and spiritual functions of a variety of artistic genres ranging from 40 000 B C to 5 000 B C These insights which derive from evolutionary biology feminist scholarship ritual studies and new modes of anthropology argue collectively that prehistoric art was a culture specific form of communication that should be interpreted in the social context of early hunter gatherer societies and should not be measured with the criteria and paradigms of modern art Essential reading for anyone interested in prehistoric art or its cultural implications this volume represents a bold step forward in the research and analysis of the very first artists **Land and Language in Cape York Peninsula and the Gulf Country** Jean-Christophe Verstraete,Diane Hafner,2016-02-18 This volume offers a state of the art survey of linguistic anthropological archaeological and historical work focused on Cape York Peninsula and the Gulf Country in Australia's northeast The volume also honours Bruce Rigsby emeritus professor of anthropology at the University of Queensland whose work has inspired all of the contributors The papers in the volume are organized in terms of five key themes including the use of historical and archaeological methods to reconstruct aspects of language and social organization anthropological and linguistic work uncovering aspects of world view embedded in languages and ethnographic data sets the study of post contact transformations in language and society and the return of archival data to communities Its thematic intersections draw together the varied disciplinary threads in an overview of the cultures and languages of the region and will appeal to all those interested in Australian Aboriginal studies linguistics anthropology and associated disciplines **Aesthetics,**

Applications, Artistry and Anarchy: Essays in Prehistoric and Contemporary Art Jillian Huntley, George Nash, 2019-03-31 This volume in honour of John Kay Clegg consists of papers by rock art researchers from around the world on topics such as aesthetics the application of statistical analyses frontier conflict and layered symbolic meanings the deliberate use of optical illusion and the contemporary significance of ancient and street art
